## COMMENT

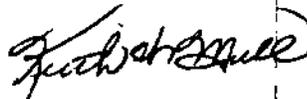

Dear Ms. Webb,

I am a cattle feeder in Kansas and feel that the speculative limit for spot month cattle contracts should remain at 600.

There are not all that many cattle presently delivered on the contract; so why increase it?

It appears to me that an increase would perhaps benefit the large funds or someone that wanted to "swing" the market in their favor rather than serve the true hedger, no matter if he is long or short the market.

Sincerely,

Keith W. Mull
