Subject: cbot's maximum daily price fluctuation limits

jean a webb, sec cftc
in regard to notice in federal register, concerning
proposal to raise the daily price limits on grain
futures and options:
i am opposed to such
raises. software should not dictate proper
trade limits on the exchange. after reading
doug yoder's commentary in the il farm bureau
publication farm week (june 12,2000), i believe he has made
realistic comments and i agree with them.
please give considerable thought to this
proposal and the effect it will have especially
on farmers and local elevators.
thank you
kathleen mclaughlin
