OFC. OF THE SECRETARIAT

Dear Ms Donovan,

I trade for a living, and use the COT data as a key component of my analysis. I find the report very useful, I use it every week in aligning my trading decisions, and I would be most disheartened to find that it was no longer available. It would have significant repercussions for my trading.

It is a great service, providing transparency on commercial and speculator positions, allowing me an insight into what the significant positions are in the market, for different commodities, prior to making an informed decision.

**I urge you to continue making it available to the public.**

Kind Regards,
