Subject: COT Reports

COMMUNICATIONS SECTION
COMMODITY FUTURES TRADING

Sirs, I am writing to ask that the COT reports, now being released twice a month, be released at least once a week if not more often. The information contained in this report is critically vital to all that trade in commodities, gold, and other items. I see no reason why a report that is used by so many on a daily basis to conduct their business should be limited in any way in the way it is dispersed. Please INCREASE valuable information available to the public rather than restrict it and in so doing so diminish the information available to all and anyone that needs it.

Regards,

Stephen Allen DDS
