Hello,

My name is John W. Spicer, Jr. I live in San Francisco, California and I am a native US citizen. I object to the US Government agencies eliminating information that assists investors in any market. Who do they think they work for? I guess they must work for the large corporations and other government officials who do not want the public to know the real state of affairs in financial matters.

I will send a similar letter to my representative and senators.

Sincerely,

John W. Spicer, Jr.
