COMMENT

commenter_subject: Unregulated Hedge Funds

commenter_comments: The commission must not allow the exempt funds to
manipulate the energy markets. These huge funds with
their vast resources can and will overwhelm any
futures market if left unchecked as the last
administration did.

The flow of fund money is moving the energy
markets higher the last few weeks despite the very
bearish fundamentals. My business cannot survive a
repeat of 2007/2008.
