**Subject:** Silver limits

Dear Sirs, I must state at the start that I find it rather repugnant to have to be communicating to you to ask that you do your job ( there are rules on the books that make this kind of activity illegal) and stop the largest fraud in the history of the COMEX and the metals market in general. The criminal short positions held in silver by JP Morgan and HSBC must be ended. I would request that the Commission instigate positions limits on shorts to no more than 1500 contracts (see Ted Butler). I would further ask that the present short positions that exceed these limits be settled with Physical Silver. The major bullion banks have manipulated the metals market for years and cost the average investor BILLIONS of dollars over the years. Please do the right thing and establish these limits now. Thank you in advance for doing the right thing. Peace, Tolling
