Subject: Raising daily limits of futures and options

Commodity Futures Trading Commission,

Regarding the raising of daily limits on grain futures and options on the Chicago Board of Trade. I am greatly opposed to raising of the daily limits on grain futures. It will limit the use of futures and options trading by the farmers and small grain dealers. It will greatly increase risks to all Producers of grain. We already have more risks than we can handle. It will put many producers out of business.

Sincerely,

Robert Baumgart
