

Trading Limits

00-19  
(83)

COMMENT

Dear Mr. West,

Please think again about raising  
the proposed higher limits, 12 - 20 cents  
on corn & 30 - 50 cents on soybeans.

Computer software should not be dictating  
trading limits on our commodities.

We farmers have enough exposure  
to hedging on the Board of Trade already.  
Grain elevators & processors would also  
be affected greatly. Let's think this  
through, intelligently.

Yours truly,

Wendell C. Henderson
