**Subject:** CME spec limit proposal

**COMMENT**

Dear Ms. Webb

I am from Wisner Ne. My family has been feeding cattle here since 1910. I am disappointed but confident you will help retract the terrible mistake that the Chicago Merc is proposing. I am not a big feeder 2000 to 3000, and I have partners who feed from 50 to 500 head. We cannot continue to survive out here with any more manipulation from the packers, retailers or CME. I'm sure I can count on you for the help this industry needs. We need all the longs the CME can muster... The short Bears have overgrown the forest. I ask you to deny any spot month lowering of positions. Hey the ole cowboy needs a vote and somehow the polls weren't open here in Cowntown to vote on the subject.

Thank you for your time and help.

Tom Feller
