Subject: COT reports

In response to your request for comments, I am deeply concerned that the CFTC would consider discontinuing such a popular and insightful report. While the report may need modification, the number and size of exemptions granted by the Commission would seem to demand more transparency, not less. Certainly true hedgers should have their own category. In general, any modification must avoid discontinuing, suspending, or delaying the Commitments reporting. And the Commission should take precautions to implement report changes in such a way as to maintain continuity with historical data. Finally, I would request that if the Commission should decide to make changes that could negatively affect the continuation, continuity, or promptness of the COT report, that it submit such proposed changes for further specific public comment.
