Subject: Objection to the stop publishing the weekly COT data

1039

Dear Sir/Madam:

I heard that the Commodity Futures Trading Corp (CFTC) is considering making changes in their weekly Commitment of Traders Report (COT) with the possibility of stop publishing the weekly COT data altogether.

I strongly object to any changes to the current Commitment of Traders Report. "Transparency" maintains confidence in the financial system.

The reports should continue unabated and the historical continuity of the data should be maintained.
