Subject: Please do NOT eliminate the COT report

2006 JUL 18 PM 12:05

OFF. OF THE SECRETARIAT

Dear Sir or Madam,

The COT Report provides information about market dynamics and investor preference, particularly among "Whales" (who are huge market forces) that provide ordinary investors, the Little Guy, access to help to level the playing field. Eliminating the COT Report will damage the interests of the small investor, which I do not think is your intent. Please continue to make the markets transparent, worthy of a free society.

Thank you.

On the road to retirement? Check out MSN Life Events for advice on how to get there!
