CFTC
OFFICE OF THE SECRETARY

As an individual trader, I rely heavily on the COT report to assist me in making market decisions. In response to your request for comments about the COT report, I am therefore deeply concerned that the CFTC would even consider discontinuing such a popular and insightful service. I urge you to continue publishing the reports. They are a valuable tool for investors throughout the world. Thank you for keeping our markets transparent with full disclosure to the public.
Mr R A Dobson
