OFFICE OF THE CLERK

Dear Ms. Donovan,

Please don't eliminate the Commitment of Traders reports. I believe that these reports do help level the playing field. Although they may be flawed, they are one of the few ways that small savers/investors such as myself can monitor what the big players are doing. Without these reports, the investment world would become even more exclusive and "clubby" than it is today. Why give savvy hedge funds and commercial insiders an unfair advantage? Please do what you can to continue and improve your excellent reports.
