SECRETARY

To Whom It May Concern:

The COT report represents an indispensable report for the American public; as well as serving as a yardstick for government oversight.

To cease publishing this report, in light of the apparent manipulation (via professional traders controlling close to 180 million ounces of silver they apparently do not have or do not produce – is downright irresponsible.

I appreciate the time and consideration; and I will copy Senator's Clinton, Schumer and Dodd as well as my local Congressional representative, Congresswoman Sue Kelly.

Integrity needs to be restored; instead of problems concealed.

Thank you.
