2006 JUL 21 PM 6:53

OFF. OF THE SECRETARIAT

I am greatly disappointed that you would consider discontinuing the COT Report. If anything it should be made available on a daily basis rather than stopping it. In this age of computers the government should make an effort to provide access to more information rather than conceal it.

If the CFTC 's purpose is to help investors and create more transparent markets it would seem obvious that more information should be available not less. If sunlight is a good disinfectant then the more transparent the markets are, the easier your job will be
