Re: Rule Amendment Certification and NYMEX Submission 07-64__ : Notification of Expanded Application of NYMEX Rule 6.21F to Allow for Transactions in: Crude Oil, Heating Oil, Natural Gas, and Reformulated Blend Unleaded Gasoline Calendar Spread Options.

Dear CFTC Commissioners:

The New York Mercantile Exchange, Inc. ("NYMEX" or the "Exchange") is notifying the Commodity Futures Trading Commission ("CFTC" or "Commission") that it will be expanding the scope of application of NYMEX Chapter 6.21F, which governs Exchange of OTC Energy Options for, or in Connection with, NYMEX Energy Options ("EOO"), to allow for EOO transactions in Crude Oil Calendar Spread Options (ticker symbols WA, WB, WC, WM, and WZ) Heating Oil Calendar Spread Options (ticker symbols FA, FB, FC, and FM), Reformulated Blend Unleaded Gasoline Calendar Spread Options (ticker symbols ZA, ZB, ZC, and ZM) and Natural Gas Calendar Spread Options (ticker symbols IA, IB, IC, IE, IM, and IZ). Each of these option contracts is already listed for trading by open outcry on the NYMEX trading floor. The EOO transactions will be submitted to the Exchange for clearing via NYMEX ClearPort® Clearing commencing as of June 10, 2007 (for trade date June 11, 2007).

All subsequent listed months available for EOO transactions will be the same as the months listed for floor trading. As a general matter, the Exchange intends to continue to list for trading (and now for submission of EOO transactions) contract months for each subsequent month such that there is listed an options contract month for each underlying futures contract month.

Pursuant to Section 5c(c) of the Commodity Exchange Act ("Act") and CFTC Rule 40.6, the Exchange hereby certifies that this rule change complies with the Act, including regulations under the Act.

Should you have any questions concerning the above, please contact the undersigned at (212) 299-2390 or Bob Biolsi at 212-299-2610.

Very truly yours,

Robert A. Levin
Senior Vice President – Research
