Submission No. 18-30 January 25, 2018

Mr. Christopher J. Kirkpatrick Secretary of the Commission Office of the Secretariat Commodity Futures Trading Commission Three Lafayette Centre 1155 21st Street, NW Washington, DC 20581

Re: Amendments to Block Trade Procedures - Establishment of Block Trade Minimums for New Oil Futures and Options Contracts - Submission Pursuant to Section 5c(c)(1) of the Act and Regulation 40.6

Dear Mr. Kirkpatrick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended, and Commodity Futures Trading Commission ("Commission") Regulation 40.6(a), ICE Futures U.S., Inc. ("IFUS" or "Exchange") hereby self certifies amendments to the Exchange's Block Trading Procedures (the "Procedures"), which are reflected in the Exchange's Block Trade FAQ ("FAQ"), as set forth in Exhibit A.

The Exchange is amending the FAQ to establish minimum quantity requirements for block trades in the new Oil Futures and Options contracts being listed on February 19, 2018 (see ICE Futures U.S. Submission Nos. 18-31 through 18-276). The Exchange is setting the minimum block trade quantity for all Crude Outright, Crude Crack and Crude Differential Futures and Options at 5 contracts; and is setting the minimum block trade quantity for block trades of Natural Gas Liquid and Petrochemical Futures at 2 lots. The Exchange believes the minimum block sizes for the new products are set at levels representing quantities that would, if entered into the central limit order book, incur substantial price concessions.

The Exchange is not aware of any opposing views and certifies that the amendments to the FAQ, which will become effective on February 9, 2018, comply with the requirements of the Act and the rules and regulations promulgated thereunder. Specifically, the amendments comply with Core Principle 9 and Commission Regulation 1.38, which allow designated contract markets ("DCM') to authorize transactions, such as block trades, that are executed away from the DCM's centralized marketplace. Consistent with other contracts listed by the Exchange, the amendments to the FAQ establish block minimum requirements for the new Oil Futures and Options at levels representing quantities that would, if entered into the central limit order book, incur substantial price concessions. The Exchange further certifies that, concurrent with this filing, a notice of pending certification was posted on the Exchange's website as well as a copy of this submission, which may be accessed at (<u>https://www.theice.com/futures-us/regulation#Rule-Filings</u>).

If you have any questions or need further information, please contact me at 212-748-4021 or at jason.fusco@theice.com.

Sincerely,

Jasm Turos
