**RE: Modifications to the CBOT Market Maker Program for Electronic Treasury Options
CBOT Submission No. 19-034**

Dear Mr. Kirkpatrick:

The Board of Trade of the City of Chicago, Inc. ("CBOT" or "Exchange") hereby notifies the Commodity Futures Trading Commission ("CFTC" or "Commission") of plans to modify the CBOT Electronic Treasury Options Market Making Program ("Program"). The modifications to the Program will become effective on February 1, 2019.

Exhibit 1 sets forth the terms of this Program. Modifications appear below, with additions underscored and deletions ~~overstruck~~.

CBOT reviewed the designated contract market core principles ("Core Principles") as set forth in the Commodity Exchange Act ("CEA"). During the review, CBOT staff identified the following Core Principles as potentially being impacted: Monitoring of Trading, Execution of Transactions, Protection of Market Participants, Compliance with Rules, and Recordkeeping.

The Program does not impact the Exchange's ability to perform its trade practice and market surveillance obligations under the CEA and the Exchange's market regulation staff will monitor all trading in the Program's products to prevent manipulative trading and market abuse. Additionally, the Exchange has implemented systems to track Program participants' obligations to ensure proper distribution of earned incentives. The incentives in the Program do not impact the Exchange's order execution. Participants in the Program will be selected by Exchange staff using criteria as further stated in Exhibit 1. Chapter 4 of the CBOT rules includes prohibitions against fraudulent, non-competitive, unfair or abusive practices. All participants must execute a contractual agreement with the Exchange in which each participant will expressly agree to comply with and be subject to, applicable regulations and CBOT rules. The Program is subject to the Exchange's record retention policies which comply with the CEA.

CBOT certifies that the Program complies with the CEA and the regulations thereunder. There were no substantive opposing views to this Program or the proposed extension.

The Exchange certifies that this submission has been concurrently posted on the Exchange's website at <http://www.cmegroup.com/market-regulation/rule-filings.html>.

If you require any additional information regarding this submission, please e-mail CMEGSubmissionInquiry@cmegroup.com or contact Rachel Johnson at 312-466-4393 or via e-mail at Rachel.Johnson@cmegroup.com. Please reference our CBOT Submission No. 19-034 in any related correspondence.

Sincerely,

/s/ Christopher Bowen

EXHIBIT 1

Market Maker Program for CBOT Electronic Treasury Options

Program Purpose

The purpose of this Program is to enhance liquidity in Treasury Options products during RTH and ETH in order to increase the percentage of Treasury Options executed electronically. A more liquid contract benefits all participants in the market.

Product Scope

All Options on CBOT Treasury futures, including 2, 5, and 10 Year U.S. Treasury Notes, 30 Year U.S. Treasury Bonds, Long Term U.S. Treasury Bonds, and Ultra 10-Year Notes* (“Products”).

*Beginning April 1, 2019, Ultra 10-Year Notes will be removed from the Program.

Eligible Participants

The Program participants can be CBOT member or non-member firms. All firms that have a relationship with a clearing member firm and can meet CBOT established quoting requirements, including the ability to stream quotes in outright options and option strategies, may qualify for the Program. There is no limit to the number of Program participants.

Program Term

Start date is March 2008. End date is ~~January 31, 2019~~ January 31, 2020.

Hours

Extended and Regular Trading Hours (“ETH” and “RTH”)

Obligations

Quoting Requirements. Participants are required to respond to Globex electronic Requests-for-Quotes (“RFQs”) in strategies of all or a subset of the Products. Participants may only quote up to the max order quantity on a single price level, and must set market maker protection values in line with quoted quantities. Additionally, participants must quote in accordance with the mass quote obligations and other associated market maker functionality parameters as determined by the Exchange and as published on the Exchange’s website.

Program Incentives

1. Mass Quote Message. CBOT shall permit the market maker to submit quotes for the Product using the Mass Quote message under an assigned identification granted by CBOT staff.

2. Order Flow Allocation. The six (6) most highly ranked Program participants in each Treasury option product shall receive order flow allocations in the applicable Treasury option product, per the schedule of “Evaluation and Incentive Allocation Periods.” In order to receive the allocation, the top six (6) participants must respond to at least 60% of RFQs in a specific product or at least 50% of their Treasury options volume must be executed on Globex. The total order flow allocations shall not exceed 24% of total order flow in the applicable Treasury option product.

*Beginning April 1, 2019, the Order Flow Allocation incentive will be granted to the eight (8) most highly ranked Program participants in accordance with the criteria set forth above.

The Exchange shall evaluate and rank Program participants quarterly with assignments of attendant rank-related Program incentives to take effect per the following schedule:

Monitoring and Termination of Status

The Exchange shall monitor trading activity and participants’ performance and shall retain the right to revoke Program participant status if it concludes from review that a Program participant no longer meets the eligibility requirements or fails to meet the obligations of the Program.
