Re: Amendments to ICE Futures U.S. PMX Flat Fee Option Volume Liquidity Provider Program - Submission Pursuant to Section 5c(c)(1) of the Act and Regulation 40.6

Dear Mr. Kirkpatrick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended, and Commission Regulation 40.6, ICE Futures U.S., Inc. (“Exchange”) submits, by written certification, notice that the Exchange is amending the terms of the ICE Futures U.S. PMX Flat Fee Option Volume Liquidity Provider Program (“the Program”) to include Calendar One Time Options on PJM Western Hub Real-Time Peak Calendar Year One Time Mini Fixed Price Future (“PMM Options”), as set forth in Exhibit A. The Exchange believes that the addition of the new covered contract to the Program will help to promote and build liquidity in the PMM Options market.

The Exchange certifies that the Program complies with the requirements of the Commodity Exchange Act and the rules and regulations promulgated thereunder. In particular, the amendments comply with Core Principle 4 (Monitoring of Trading), Core Principle 9 (Execution of Transactions) and Core Principle 12 (Protection of Market Participants). The Program is structured so that they do not create incentives for participants to engage in market abuses such as manipulative trading or wash sales. In addition, the Exchange’s Market Regulation Department actively monitors for trading abuses using electronic exception reports and will take appropriate action against any participants engaging in market abuses. The Program does not impact order execution priority or otherwise give participants any execution preference or advantage.

The Exchange further certifies that, concurrent with this filing, a notice of pending certification was posted on the Exchange’s website. A copy of this submission may be accessed at (<https://www.theice.com/futures-us/regulation#rule-filings>). The extension will become effective on February 14, 2017. The Exchange is not aware of any substantive opposing views with respect to the extension.

ICE Futures U.S. PMX and PMM Flat Fee Option Volume Liquidity Provider Program

Program Purpose

The purpose of the Program is to incentivize participants to increase central limit order book liquidity in the products listed below; this enhanced liquidity will benefit all participants in the marketplace.

Product Scope

PMX and PMM Options.

Eligible Participants

IFUS may designate up to six participants in the Program, who may be Exchange members or non-members. **[Paragraph Redacted]**

Program Term

The Program shall end on September 30, 2018, unless extended by the Exchange. The Exchange reserves the right to amend or end the program and/or to terminate any participant at any time prior to that date.

Obligations

Participants are required to provide the Exchange with information acceptable to the Exchange detailing Participants' trading activity under the program, and the Exchange may require an additional third party verification report.

Program Incentives

[Paragraph Redacted]

Monitoring and Termination of Status

The Exchange shall monitor trading activity and Participants' performance and shall retain the right to revoke Participants' status if it concludes from review that a Program Participant has failed to meet its obligations or no longer meets the eligibility requirements of this Program.
