LCH Limited Self-Certification: MXN Swaps fee holiday

Dear Mr Kirkpatrick,

Pursuant to Commodity Futures Trading Commission (the "CFTC") Regulation §40.6(a), LCH Limited ("LCH"), a derivatives clearing organization registered with the CFTC, is submitting for self-certification a fee holiday proposed for the clearing of Mexican TIIE (MXN) Swaps.

Part I: Explanation and Analysis

LCH launched MXN clearing in October 2016 – this is the only Latin American (LATAM) currency currently cleared within the SwapClear Service. As part of SwapClear's second phase of non-deliverable swaps (NDS) clearing (scheduled go-live 11th March 2019), three new LATAM currencies will be made available for clearing: BRL, CLP and COP. There will be a fee holiday for these currencies until 30th September 2019 to encourage adoption through minimising connectivity, on-boarding and Legal/Compliance costs for clients who are yet to on-board for these currencies.

LCH is proposing to extend this regional fee holiday to include MXN. This is designed to provide economies of scale across clients' LATAM portfolios during the initial months post NDS phase II go-live, so they can benefit from LCH's margin offsets and efficiencies.

The fee holiday will be effective on March 18th 2019 until September 30th 2019.

Part II: Description of Rule Changes

There are no changes to the LCH Rulebook, however LCH will make changes to its website to highlight the new fee holiday and update its members via a member circular as shown in **Appendix I and II**.

Part III: Core Principle Compliance

LCH has reviewed the changes against the requirements of the Core Principles and finds that they will continue to comply with all the requirements and standards therein.

Part IV: Public Information

LCH has posted a notice of pending certification with the CFTC and a copy of the submission on LCH's website at:

<http://www.lch.com/rules-regulations/proposed-rules-changes>

Part V: Opposing Views

There were no opposing views expressed to LCH by governing board or committee members, members of LCH or market participants that were not incorporated into the change.

Certification

LCH hereby certifies to the Commodity Futures Trading Commission, pursuant to the procedures set forth in Commission Regulation § 40.6, that the attached submission complies with the Commodity Exchange Act, as amended, and the regulations promulgated there under.

SwapClear Self-Clearing Fees

Clearing Fees - Notes

A "Member Group" means a SwapClear Clearing Member or an FCM Clearing Member, its direct and indirect subsidiaries and its direct and indirect holding companies and every direct and indirect subsidiary of each such holding company, from time to time. For the purposes of this definition: (i) 'subsidiary' means a company in which an entity holds more than 50% of the voting rights; and (ii) 'holding company' means a company that holds more than 50% of the voting rights in another entity.

An "Affiliated Firm" in relation to a Member Group means a firm that satisfies both of the following tests:

- A SwapClear Clearing Member or a FCM Clearing Member (or any other member of its Member Group) holds 50% or more of the voting rights in the firm; and
- One or more SwapClear Clearing Members or FCM Clearing Members (or any other member of their Member Group) together hold more than 50% of the voting rights in the firm.

"Voting rights" means the rights conferred on shareholders in respect of their shares or, in the case of a company not having a share capital, on members, to vote at general meetings of the company on all, or substantially all, matters.

Changes in an entity's corporate ownership may lead to changes in the tariff that applies to it.

Terms used herein are as defined in the rulebook of LCH.

All clearing fees are payable in GBP.

If you would like to discuss LCH tariffs please contact your relationship manager for further details.

[The fees for MXN-TIIE swaps are also subject to a fee holiday as outlined in circular No. 4011](#)

- The transfer of SwapClear Contracts registered in a SwapClear Clearing Member’s Proprietary Account from one SCM Branch to another SCM Branch or one SwapClear Dealer to another SwapClear Dealer.

Client Clearing Fees

Standard Pricing Plan

The Standard Pricing Plan has an up-front booking fee and an ongoing maintenance fee.

Booking fee

New trades are charged on a per-million notional basis in the currency of the trade as set out in the table below. The booking fee is incurred at the time that the trade is cleared and collected monthly in arrears.

Booking fee

Transaction Maturity	Interest Rate Swaps	Non-Deliverable Interest Rate Swaps	Inflation Swaps
0 - 1 year	0.9	0.9	1.4
1 year+ to 3 year	2.25	2.25	3.4
3 year+ to 5 year	4.05	4.05	6.1
5 year+ to 7 year	5.4	5.4	8.1

20 year+ to 25 year	16.2	16.2	24.3
25 year + to 51 year	18	18	27

The fees for the clearing of non-deliverable interest rate swaps (NDIRS) are payable in USD.

NDIRS clearing is subject to a fee holiday in the following currencies, as described in circular *No. 3996*: BRL, CLP, COP. **The fees for MXN-THE swaps are also subject to a fee holiday as outlined in circular No. 4011**

Maintenance fee

The maintenance fee is incurred annually on the anniversary date of the registration of each trade, collected monthly in arrears and is not payable for trades terminated before their anniversary date. The fee is charged on a per-million notional basis in the currency of the trade as follows:

- Interest rate swaps and NDIRS: 3 per-million of notional (e.g. \$30 for \$10 million notional)
- Inflation swaps: 12 per-million of notional (e.g €60 for €5 million of notional)

The maintenance fee is reduced to 4.5 per-million of notional in perpetuity for all inflation swaps cleared or backloaded within one year of service go-live.

The fees for the clearing of NDIRS are payable in USD.

High Turnover Plan

The High Turnover Plan incurs an up-front booking fee and an on-going "risk consumption" maintenance fee.

Booking fee

The booking fee is incurred upon trade registration and payable monthly in arrears as follows:

- Interest rate swaps and NDIRS: USD \$25 per ticket booking fee for each newly registered and backloaded trade, charged upfront
- Inflation swaps: USD \$37.5 for each newly registered and backloaded trade

NDIRS clearing is subject to a fee holiday in the following currencies, as described in circular *No. 3996*: BRL, CLP and COP. **The fees for MXN-TIIE swaps are also subject to a fee holiday as outlined in circular No. 4011**

Maintenance fee

The ongoing "risk consumption fee" is calculated at 10 basis points annualized on the client's initial margin (IM) requirement (regardless of type of collateral used to cover IM). It is calculated daily and paid monthly in arrears – equivalent to \$1,000 per \$1 million (annualized) of IM (e.g. an average IM of \$50 million equals an annual risk consumption fee of \$50,000).

Blended Rate and Multilateral Compression Fee Schedule for SwapClear clients

For each trade terminated from blended rate compression or multilateral compression, the following fees apply:

- Per trade terminated = (a) Registration replacement fee + (b) Processing fee
- Registration replacement fee is a charge for booking a notional offsetting position based on the client's current fee plan at the point of compression (eg \$25 for High Turnover plan and the published schedule for Standard Pricing Plan)
- Processing fee will be discounted based on the aggregate monthly sum of: cleared trades and trades compressed using blended rate, standard, and multilateral compression. The following processing fees will apply by compression type:
- Blended rate and multilateral compression fee schedule

Band	Blended Rate	Multilateral
Activity greater or equal to 750	\$25	\$50
Activity greater or equal to 250 but fewer than 750	\$50	\$75
All other activity	\$75	\$100

The applicable band will be assessed on a quarterly basis based on the preceding quarter's activity. Replacement swaps (i.e. those that are the result of the blending activity or multilateral compression activity) are not charged a blended rate or multilateral compression fee.

NDIRS Compression is subject to a fee holiday in the following currencies, as described in circular *No. 3996*: BRL, CLP and COP. **MXN-TIIE Compression is also subject to a fee holiday as outlined in circular No. 4011**

EMIR account structures

There is more information on account structure fees under [EMIR](#).

SwapClear charges all fees to clearing members; members individually make pricing arrangements with clients and confidentially notify SwapClear of the pricing plan for each client. Clients can switch pricing plans quarterly, and must give SwapClear reasonable advance notice to make the operational changes necessary to effectuate such a change, i.e. no fewer than fifteen (15) days prior to a calendar quarter.
