**RE: Extension of the E-mini S&P 500 Options Market-Wide Block Discount Program
CME Submission No. 22-174**

Dear Mr. Kirkpatrick:

Chicago Mercantile Exchange Inc. ("CME" or "Exchange") hereby notifies the Commodity Futures Trading Commission ("CFTC" or "Commission") of plans to extend the E-mini S&P 500 Options Market-Wide Block Discount Program ("Program") through April 30, 2023. The extension of the Program will become effective on May 1, 2022. All other Program terms remain unchanged.

Exhibit 1 sets forth the terms of this Program. Modifications appear below, with additions underlined and deletions ~~overstruck~~.

The Exchange reviewed the designated contract market core principles ("Core Principles") as set forth in the Commodity Exchange Act ("CEA" or "Act"). During the review, CME staff identified the following Core Principles as potentially being impacted: Monitoring of Trading, Execution of Transactions, Protection of Market Participants, Compliance with Rules, Availability of General Information, and Recordkeeping.

The Program is a general fee discount that applies to all market participants. A general fee discount does not incentivize manipulative trading or market abuse. The Program does not impact the Exchange's ability to perform its trade practice and market surveillance obligations under the CEA. The Exchange's market regulation staff will monitor trading in the products that are included in the Program to prevent manipulative trading and market abuse. The general fee discount in the Program does not impact the Exchange's order execution. The Exchange believes the fee discounts included in the Program will not adversely impact price discovery in the centralized market. The purpose of the Program is to help facilitate the transition of market participants from S&P 500 Options to E-mini S&P 500 Options in conjunction with the prior delisting of S&P 500 Options. The Exchange believes the incentives in the Program will temporarily alleviate fee disparities associated with this transition and will monitor the effects of the Program during its term to ensure there are no adverse price discovery impacts associated with it. All market participants that execute transactions in the products shall be entitled to participate. Chapter 4 of the Exchange rules includes prohibitions against fraudulent, non-competitive, unfair, or abusive practices. The Program is subject to these rules and CME records retention policies that comply with the CEA.

CME certifies that the Program complies with the CEA and the regulations thereunder. There were no substantive opposing views to this Program.

The Exchange certifies that this submission has been concurrently posted on the Exchange's website at <http://www.cmegroup.com/market-regulation/rule-filings.html>.
