Re: **Regulation §40.6 Submission Certification**
Off-Exchange Reporting Broker
Reference File: SR-NFX-2015-51

Dear Mr. Kirkpatrick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended (“Act”), and Section 40.6(a) of the regulations promulgated by the Commodity Futures Trading Commission under the Act, NASDAQ Futures, Inc. (“NFX” or “Exchange”) revises Chapter V, Section 4, entitled “Direct Access” to provide additional clarity concerning the registration of Off-Exchange Reporting Brokers. The rule change is attached as Exhibit A. This amendment will be implemented on July 15, 2015.

The Exchange is amending Chapter V, Section 4 to state that an Authorized Customer granted access as an Off-Exchange Reporting Broker by a Clearing Futures Participant, soliciting futures or options on futures transactions from U.S. Persons, including Off-Exchange transactions, need to have appropriate CFTC registration through the National Futures Association (NFA). Registration is required with respect to the execution of any Futures or Options on Futures transactions, including Block Trade and exchange for related position transactions (EFRPs). Appropriate registration categories may include Introducing Broker (IB), Futures Commission Merchant (FCM), or an Associated Person (AP) of either of the two prior categories.

With respect to the designated contract market core principles (“Core Principles”) as set forth in the Act:

- *Compliance with Rules:* The Exchange has in place Rules which describe the manner in which Futures Participants may access and trade on NFX. Chapter II, Section I provides for the qualifications and rules of participation applicable to Futures Participants as well as Authorized Traders. Chapter V, Section 18

describes prohibited activities with respect to the Trading System. Trading is subject to the Rules at Chapter III of the Exchange's Rulebook, which include prohibitions against fraudulent, noncompetitive, unfair and abusive practices. Additionally, trading is subject to the trading procedures and standards in Chapter V of the Rulebook. Direct Access at Chapter V, Section 4 is revised with this rule change.

- *Prevention of Market Disruption:* The Exchange's Regulatory Department, which handles real-time surveillance, monitors trading activity on the Exchange with a SMARTS Surveillance Application through which the Exchange can track activity of specific Authorized Traders, monitor price and volume information and receive alerts regarding market messages. The Exchange's Regulatory Department, which handles real-time surveillance in conjunction with staff that handles T+1 surveillance, utilizes data collected by the SMARTS Surveillance Application to monitor price movements, as well as market conditions and volumes to detect suspicious activity such as manipulation, disruptive trading and other abnormal market activity.
- *Execution of Transactions.* The Exchange operates an electronic trading facility that provides Futures Participants with the ability to execute Orders within the Exchange's Order Book and offers within a predetermined automated trade matching and execution algorithm. Orders submitted into the Trading System will continue to be matched in either Price-Time priority or Size Pro-Rata priority order, as specified by the Exchange. The Exchange specifies the types of Orders that will be accepted by the Trading System in Chapter IV, Section 4. The Exchange provides a competitive, open and efficient market and mechanism for executing transactions that protects the price discovery process and also authorizes for bona fide business purposes rules for Block Trades and Exchange for Related Positions at Chapter IV, Sections 11 and 12.
- *Protection of market participants.* Chapter III of the Exchange's Rulebook contains prohibitions precluding intermediaries from disadvantaging their customers. These rules apply to trading in all Contracts.

There were no opposing views among the Exchange's Board of Directors, members or market participants. The Exchange hereby certifies that the amendment to Chapter V, Section 4 complies with the Act and regulations thereunder. The Exchange also certifies that a notice of pending certification with the Commission and a copy of this submission have been concurrently posted on the Exchange's website at www.nasdaqomx.com/nasdaq-futures.
