## NYMEX Rulebook

### Chapter 1111 Australian Coking Coal (Platts) Low Vol Futures

#### 1111102.D. Position Limits and Position Accountability

For purposes of calculating compliance with position limits, each contract will be aggregated with positions held in Australian Coking Coal (Argus) Low Vol Swap futures. Each position in the contract will be calculated as a single position in the Australian Coking Coal (Argus) Low Vol Swap futures contract.

In accordance with Rule 559, no person shall own or control positions in excess of 1,250 contracts net long or net short in the spot month.

In accordance with Rule 560:

1. the all-months accountability level shall be 5,000 contracts net long or net short in all months combined;

2. the any-one month accountability level shall be 5,000 contracts net long or net short in any single contract month excluding the spot month.

Refer to Rule 559 for requirements concerning the aggregation of positions and allowable exemptions from the specified position limits.

The applicable position limits and/or accountability levels, in addition to the reportable levels, are set forth in the Position Limit, Position Accountability and Reportable Level Table in the Interpretations & Special Notices Section of Chapter 5.

A Person seeking an exemption from position limits for bona fide commercial purposes shall apply to the Market Regulation Department on forms provided by the Exchange, and the Market Regulation Department may grant gualified exemptions in its sole discretion.

Refer to Rule 559 for requirements concerning the aggregation of positions and allowable exemptions from the specified position limits.
