**RE: CFTC Regulation 40.6(a) Certification. Notification Regarding the Delisting of
Three (3) S&P GSCI Commodity Index Contracts.
CME Submission No. 14-360 (2 of 2)**

Dear Mr. Kirkpatrick:

Chicago Mercantile Exchange Inc. ("CME" or "Exchange") is notifying the Commodity Futures Trading Commission ("CFTC" or Commission") that it is self-certifying the delisting of three (3) S&P GSCI Commodity Index contracts, effective immediately, as set out in the table below:

Product Title	Clearing Code	CME Rule Chapter
Options on S&P GSCI Commodity Index Futures (DCM)	GI	401A
S&P GSCI Gold Excess Return Index Swaps (Cleared OTC) (DCO)	GDI	415C
S&P SGCI Crude Oil Excess Return Index Swaps (Cleared OTC)(DCO)	GCO	415D

There was no open interest in these contracts.

As a result of the delisting, information regarding these contracts has been deleted from the respective product rule chapters, related position limits in the Position Limit, Position Accountability and Reportable Level Table located in the Interpretations and Special Notices Section of Chapter 5 (Trading Qualifications and Practices) of the Exchange Rulebook (see Appendix A, attached under separate cover).

CME business staff responsible for the delisting of the contracts and the Legal Department collectively reviewed the designated contract market ("DCM") core principles and the derivatives clearing organization ("DCO") core principles (collectively, "Core Principles") as set forth in the Commodity Exchange Act ("CEA" or "Act"). During the review, CME staff identified that the delisting of the contracts may have some bearing on the following DCM and DCO Core Principles:

DCM Core Principles

- **Emergency Authority:** There is no open interest in these contracts, and therefore there will be no market disruption related to their delisting.

- Availability of General Information: The Exchange will make publicly available the details of the contracts' delisting by publishing a notice to the market. Furthermore, the Exchange will update the CME Rulebook to reflect the delisting of the contracts.

DCO Core Principle

- Public Information: The Exchange will make publicly available the details of the contracts' delisting by publishing a notice to the market. The notice will be published on the CME Group website.

Pursuant to Section 5c(c) of the Act and CFTC Regulation 40.6(a), the Exchange hereby certifies that the delisting of these contracts complies with the Act, including regulations under the Act. There were no substantive opposing views to this proposal.

The Exchange certifies that this submission has been concurrently posted on the Exchange's website at: <http://www.cmegroup.com/market-regulation/rule-filings.html>.

Should you have any questions concerning the above, please contact me at (212) 299-2200 or via e-mail at Christopher.Bowen@cmegroup.com.

Sincerely,

/s/ Christopher Bowen
Managing Director and Chief Regulatory Counsel

~~401A01. OPTIONS CHARACTERISTICS~~

~~401A01.A. Contract Months and Trading Hours~~

~~Options contracts shall be listed for such contract months and scheduled for trading during such hours as may be determined by the Exchange.~~

~~401A01.B. Trading Unit~~

~~The trading unit shall be an option to buy, in the case of the call, or to sell, in the case of the put, one S&P GSCI Commodity Index futures contract as specified in Chapter 401.~~

~~401A01.C. Minimum Fluctuations~~

~~The price of an option shall be quoted in S&P GSCI Futures Price Index points. Each 0.005 Index point shall represent \$1.25. The minimum fluctuation shall be 0.05 Index points representing \$12.50 (also known as one tick). ~~401A01.D. Underlying Futures Contract~~

~~The underlying futures contract is the futures contract for the month in which the option expires. For example, the underlying futures contract for an option that expires in February is the February futures contract.~~

~~401A01.E. Exercise Prices~~

~~The exercise prices shall be stated in terms of the S&P GSCI Commodity Index futures contract which is deliverable upon exercise of the option. For all contract months, the exercise prices shall be even-numbered integers, e.g., 180, 182, 184, etc. In addition, for the nearest contract month, some exercise prices shall be at odd-number integers, e.g. 180, 181, 182, etc., as is described below.~~

~~At the commencement of option trading in a contract month the Exchange shall list all eligible exercise prices in a range of 20 index points above and below the previous day's settlement price of the underlying futures contract. If the previous day's settlement price equals an eligible exercise price, then that exercise price shall be listed also. When a sale, bid, offer, or settlement price in the underlying futures contract occurs at, or passes through, any exercise price, the Exchange shall list on the next Trading Day put and call options at the next higher (or next lower) exercise price within a 20 index point range above (or below) the exercise price at which or through which the~~

~~underlying futures sale, bid, offer, or settlement price occurred. New options may be listed for trading up to and including the last day of trading. When a contract month becomes the nearest contract month, the Exchange shall add exercise prices at an interval of odd-numbered integers in a range of 12 index points above and below the previous day's settlement price of the underlying futures contract. If the previous day's futures contract equals an eligible odd-numbered exercise price, then that exercise price shall also be listed. Thereafter, when a sale, bid, offer, or settlement price in the underlying futures contract occurs at, or passes through, an odd-numbered exercise price, the Exchange shall list on the next Trading Day put and call options at the next higher (or next lower) exercise price within a 12 index point range above (or below) the exercise price at which or through which the underlying futures sale, bid, offer, or settlement price occurred.~~

~~**401A01.F. Position Limits, Exemptions, Position Accountability and Reportable Levels**~~

~~The applicable position limits and/or accountability levels, in addition to the reportable levels, are set forth in the Position Limit, Position Accountability and Reportable Level Table in the Interpretations & Special Notices Section of Chapter 5.~~

~~A Person seeking an exemption from position limits for bona fide commercial purposes shall apply to the Market Regulation Department on forms provided by the Exchange, and the Market Regulation Department may grant qualified exemptions in its sole discretion.~~

~~Refer to Rule 559 for requirements concerning the aggregation of positions and allowable exemptions from the specified position limits.~~

~~**401A02.A. Exercise of Option by Buyer**~~

~~An option may be exercised by the buyer on any Business Day that the option is traded. Exercise of an option is accomplished by the clearing member representing the buyer presenting an exercise notice to the Clearing House by 7:00 p.m. on the day of exercise.~~

~~An option that is in the money and has not been liquidated or exercised prior to the termination of trading shall, in the absence of contrary instructions delivered to the Clearing House by 7:00 p.m. on the Business Day of expiration by the clearing member representing the option buyer, be automatically exercised. An option is in the money if the settlement price of the underlying futures contract at the termination of trading lies above the exercise price in the case of a call, or lies below the exercise price in the case of a put.~~

~~If the Final Settlement Price of the underlying futures contract, as determined in Rule 40103.A, occurs on any day other than the last day of trading, exercise and final settlement of the option will occur on that same day.~~

~~Corrections to option exercises may be accepted by the Clearing House after the 7:00 p.m. deadline and up to the beginning of final option expiration processing provided that such corrections are necessary due to: (1) a bona fide clerical error, (2) an unreconciled Exchange option transaction(s), or (3) an extraordinary circumstance where the clearing firm and customer are unable to communicate final option exercise instructions prior to the deadline. The decision whether a correction is acceptable will be made by the President of the Clearing House, or the President's designee, and such decision will be final.~~
