**Re: CFTC Regulation 40.6(a) Certification. Issuance of CME Group Market Regulation
Advisory Notice RA1715-5 Concerning Order Entry During the CME Globex Pre-
Open.
NYMEX Submission No. 17-407 (3 of 4)**

Dear Mr. Kirkpatrick:

Pursuant to Commodity Futures Trading Commission (“CFTC” or “Commission”) Regulation 40.6(a), Chicago Mercantile Exchange Inc. (“CME”), The Board of Trade of the City of Chicago, Inc. (“CBOT”), New York Mercantile Exchange, Inc. (“NYMEX”) and Commodity Exchange, Inc. (“COMEX”) (collectively, the “Exchanges”) hereby notify the Commission that they are self-certifying the issuance of CME Group Market Regulation Advisory Notice RA1715-5 (“RA1715-5”) concerning the entry of orders during the CME Globex pre-open (“pre-open”), effective on Thursday, November 2, 2017.

RA1715-5 provides regulatory guidance on the proper handling of orders in circumstances where a market participant wants to trade at the CME Globex opening price. It is being issued based on multiple questions that the Market Regulation Department has received by firms looking to provide guidance to their brokers.

The guidance reminds all market participants that CME Globex does not support the entry of market-on-open (“MOO”) orders and explains that market participants must either place orders at a specific price or give the broker handling the order discretion as to the price in the form of a DRT order. Additionally, the guidance reminds all market participants that the entry of orders during the pre-open at prices significantly above and/or below the displayed indicative opening price must ensure that such entry does not cause aberrant price movement.

RA1715-5 is attached below as Exhibit A.

The Exchanges reviewed the designated contract market core principles (“Core Principles”) as set forth in the Commodity Exchange Act (“CEA” or “Act”) and identified that the issuance of RA1715-5 may have some bearing on the following Core Principles:

Compliance with Rules: RA1715-5 reminds market participants that if their entry of orders during the pre-open cause aberrant price movements, such entry may be deemed to violate CME/CBOT/NYMEX/COMEX Rule 575 (“Disruptive Practices Prohibited”).

Availability of General Information: As required by this Core Principle, the Exchanges are publicly issuing RA1715-5 to ensure that market participants have regulatory guidance concerning order entry during the CME Globex pre-open.

There were no substantive opposing views to this proposal.

Pursuant to Section 5c(c) of the Act and CFTC Regulation 40.6(a), the Exchanges certify that the issuance of RA1715-5 complies with the Act and regulations thereunder.

The Exchanges certify that this submission has been concurrently posted on the Exchanges' website at <http://www.cmegroup.com/market-regulation/rule-filings.html>.

If you require any additional information regarding this submission, please contact the undersigned at 212.299.2200 or via email at CMEGSubmissionInquiry@cmegroup.com.

Sincerely,

/s/ Christopher Bowen
Managing Director and Chief Regulatory Counsel

Attachment: Exhibit A: CME Group RA1715-5

EXHIBIT A

MARKET REGULATION ADVISORY NOTICE

Exchange	CME, CBOT, NYMEX & COMEX
Subject	Order Entry During the CME Globex Pre-Open
Rule References	Rule 573
Advisory Date	October 18, 2017
Advisory Number	CME Group RA1715-5
Effective Date	November 2, 2017

Recently, market participants have requested guidance on the proper method of handling and/or entering orders during the CME Globex pre-open period in circumstances where a market participant wants to trade at the opening price.

Market participants are reminded that CME Globex (“Globex”) **does not** support the entry of market-on-open (“MOO”) orders. Accordingly, market participants may not place such orders for entry with brokers or other parties eligible to handle customer orders, and no party may accept such orders.

Information on eligible order types for entry into Globex may be found using the following link:

<https://www.cmegroup.com/confluence/display/EPICSANDBOX/Order+Types+for+Futures+and+Options>

Market participants wishing to place an order with a broker or other party eligible to handle customer orders prior to the time Globex opens must either indicate a specific price for the order or place a DRT (disregard tape or not-held order) order. A DRT order gives the party handling the order complete discretion over price and time in execution of the order, including discretion to execute all, some, or none of the order.

Any party entering orders during the pre-open at prices significantly above and/or below the displayed Indicative Opening Price (“IOP”) must be cognizant of the potential for such orders to cause aberrant price movement during the IOP, and are reminded that if such aberrant price movement occurs, the activity may be deemed to violate Rule 575 (“Disruptive Practices Prohibited”). Additionally, market participants should be prepared to, and capable of, handling the financial obligations attendant to the full execution of their orders at the prices that are entered into CME Globex by them or their brokers.
