

Circular

21 October 2016

Circular No. DC/AM – 95 of 2016

Change in schedule for Titan DT/DC launch

Dear Members,

We refer to Circular No. DC/AM - 81 of 2016 on the launch of Titan DT/DC.

Singapore Exchange (SGX) wishes to inform market participants we will be revising the launch date of Titan DT/DC, SGX's new Derivatives trading and clearing platform.

The revision in timeline is due to a number of our Clearing Members still encountering issues with their clearing solution, provided by a key back office vendor. As a result of the vendor issues these Clearing Members are unable to provide go-live readiness sign-off. These Clearing Members have requested additional time for resolving these issues with the vendor, and testing integration with the new Titan DT/DC platform.

The updated timeline is as follows:

<u>Item</u>	<u>Date</u>
Go-live preparation for PTRC	24 – 27 October 2016
Final Industry Wide Test	29 October 2016
Migration Activities	12 - 13 November 2016
New launch date	14 November 2016

The new launch date will be 14 November 2016.

The amendments to the Futures Trading Rules and SGX-DC Clearing Rules, announced to take effect on 31 October 2016 as per Circular No. DC/AM - 81 of 2016, will also take effect on the new launch date.

Should you require further clarification, please contact your SGX Business Manager.
