Re: New ICE Futures U.S. USGC Crude Program - Submission Pursuant to Section 5c(c)(1) of the Act and Regulation 40.6

Dear Mr. Kirkpatrick:

Pursuant to Commodity Futures Trading Commission (“CFTC”) Regulation 40.6(a), ICE Futures U.S., Inc. (“IFUS” or “Exchange”) hereby submits by written certification, amendments extending the term of the USGC Crude Program (“Program”) through May 31, 2023 as set forth in Exhibit A. The Program, which was launched in August of 2022, was scheduled to terminate on November 30, 2022. However, the Exchange believes that the program will continue to help tighten markets and build interest in the covered products and is, therefore, extending the Program for an additional 6 months, provided, however, that the Exchange in its sole discretion may cancel the Program prior to that time.

The Exchange certifies that the extension, which will become effective on December 1, 2022, complies with the requirements of the Commodity Exchange Act and the rules and regulations promulgated thereunder. In particular, the Program complies with Core Principle 4 (Monitoring of Trading), Core Principle 9 (Execution of Transactions) and Core Principle 12 (Protection of Market Participants). The Program does not impact order execution priority or otherwise give participants any execution preference or advantage. In addition, the Exchange’s Market Regulation Department actively monitors for trading abuses using electronic exception reports and will take appropriate action against any participants engaging in market abuses.

The Exchange further certifies that, concurrent with this filing, a notice of pending certification was posted on the Exchange’s website. A copy of this submission may be accessed at

(<https://www.theice.com/futures-us/regulation#rule-filings>). The Exchange is not aware of any opposing views with respect to the Program.
