**RE: Implementation of the CME STIR Options Broker Electronification Program  
CME Submission No. 21-568**

Dear Mr. Kirkpatrick:

Chicago Mercantile Exchange Inc. ("CME" or "Exchange") hereby notifies the Commodity Futures Trading Commission ("CFTC" or "Commission") of plans to implement the STIR Options Broker Electronification Program ("Program"). The proposed Program will become effective on January 1, 2022.

Exhibit 1 sets forth the terms of the Program.

The Exchange reviewed the designated contract market core principles ("Core Principles") as set forth in the Commodity Exchange Act ("CEA"). During the review, Exchange staff identified the following Core Principles as potentially being impacted: Monitoring of Trading, Execution of Transactions, Protection of Market Participants, Compliance with Rules, Availability of General Information, and Recordkeeping.

The Program will not incentivize manipulative trading or market abuse or impact the Exchange's ability to perform its trade practice and market surveillance obligations under the CEA. The Exchange's market regulation staff will monitor trading in the Program's products to prevent manipulative trading and market abuse. Additionally, CME has implemented systems to track Program participants' volume to ensure proper distribution of earned incentives. The products included in this Program are listed for trading in the open and competitive market. Participants in the Program will be selected by CME staff using criteria set forth in Exhibit 1. Chapter 4 of the CME rules includes prohibitions against fraudulent, non-competitive, unfair or abusive practices. The Program is subject to these rules and CME records retention policies that comply with the CEA.

The Exchange certifies that the Program complies with the CEA and the regulations thereunder. There were no substantive opposing views to this Program.

The Exchange certifies that this submission has been concurrently posted on the Exchange's website at <http://www.cmegroup.com/market-regulation/rule-filings.html>.
