Re: Amendments to Environmental Futures and Options Free to Post Incentive Program - Submission Pursuant to Section 5c(c)(1) of the Act and Regulation 40.6

Dear Mr. Kirkpatrick:

Pursuant to Commodity Futures Trading Commission (“CFTC”) Regulation 40.6(a), ICE Futures U.S., Inc. (“IFUS” or “Exchange”) hereby submits by written certification, the amendments to the Environment Futures and Options Free to Post Program (“Program”), which are set forth in Exhibit A. In addition, the Exchange is extending the program, which was launched in February 2019 and set to expire on December 31, 2022, for an additional year. The Exchange believes that the Program has helped tighten markets in the covered products and that termination of the program may reduce liquidity. As such, the Exchange is extending the Program through December 31, 2023; provided, however, that the Exchange in its sole discretion may cancel the Program at any time. The extension will become effective on January 1, 2023.

The Exchange certifies that the Program complies with the requirements of the Commodity Exchange Act and the rules and regulations promulgated thereunder. In particular, the Program complies with Core Principle 4 (Monitoring of Trading), Core Principle 9 (Execution of Transactions) and Core Principle 12 (Protection of Market Participants). The Program does not impact order execution priority or otherwise give participants any execution preference or advantage. In addition, the Exchange’s Market Regulation Department actively monitors for trading abuses using electronic exception reports and will take appropriate action against any participants engaging in market abuses.

The Exchange is not aware of any opposing views with regard to the Program and further certifies that, concurrent with this filing, a copy of this submission was posted on the Exchange’s website at (<https://www.theice.com/futures-us/regulation#rule-filings>).
