Re: KalshiEX LLC – CFTC Regulation 40.6 Notification Regarding the
Amendment of Various Kalshi Contracts

Dear Sir or Madam,

Pursuant to Section 5c(c) of the Commodity Exchange Act and Section 40.6 of the regulations
of the Commodity Futures Trading Commission, KalshiEX LLC (Kalshi) hereby notifies the
Commission that it is amending a number of Kalshi Contracts.

This amendment is a straight-forward modification to previous contracts to replace "Position
Limit" with "Position Accountability Level" for all Contracts listed in Appendix A. For
example, if a Contract's terms and conditions that said, "Position Limit: The Position Limit for
the $1 referred Contract shall be $25,000 per strike, per Member." will be replaced with,
"Position Accountability Level: The Position Limit for the $1 referred Contract shall be 25,000
contracts per strike, per Member."

These amendments are done in conjunction with amendments to Kalshi's Rulebook to adopt
Position Accountability rules. This filing will be not effective before the amendments to Kalshi's
Rulebook are effective, and in no event earlier than November 27, 2024.

Compliance with Core Principles

Kalshi has concluded that the amendments to the rulebook are not inconsistent with the CEA
and the CFTC's regulations. The following core principles most directly pertain to the
amendments: **Core Principle 2 - Compliance with Rules; Core Principle 3 - Contracts not
Readily Susceptible to Manipulation; Core Principle 4 - Prevention of Market
Disruption; Core Principle 5 - Position limits or Accountability; Core Principle 7 -
Availability of General Information; Core Principle 9 - Execution of Transactions; Core
Principle 12 - Protection of Markets and Market Participants; and Core Principle 18 -
Recordkeeping.**

This amendment implements the Position Accountability Level rules that were adopted by
Kalshi in a separate filing. As noted there, the amendments to replace position limits with
Position Accountability Levels are most relevant to Core Principles 4 and 5. The Exchange has

the authority to impose limits on members whose positions exceed the Position Accountability Levels, and the Exchange will continue to have the ability to comprehensively and accurately reconstruct daily trading activity for the purposes of detecting trading abuses and violations of exchange-set position limits, including those that may have occurred intraday. The Position Accountability rules serve to enhance the Exchange's ability to reduce the potential threat of market manipulation or congestion by enabling Kalshi to monitor a Member's large positions while helping to ensure that available market liquidity and prices that are undistorted by position limits. Replacing position limits with position accountability levels allows Kalshi to take more holistic views of its members' risk exposures. Additionally, other event contracts exchanges use position accountability instead of position limits, and Kalshi agrees that position accountability is appropriate for many contracts, as noted. Further, imposing higher Position Accountability Levels for Market Makers on contracts where the Market Maker has quoting obligations also serves to reduce the potential for threat of market manipulation or congestion by enhancing a Market Maker's ability to meet its quoting obligations without meeting or exceeding Position Accountability Levels, and ensures that Position Accountability Levels have actual meaning by not routinely being eclipsed. If the Exchange determines that the multiplier is either insufficient or too great, the Rules provide the Exchange the authority to adjust the Market Maker's Position Accountability Levels.

No opposing views to the contrary have been expressed.

Accordingly, Kalshi certifies that this rule complies with the Commodity Exchange Act and Regulations thereunder. A copy of the submission, concurrent with the filing of a submission with the Commission, was posted on the Kalshi's website.

Sincerely,

Xavier Sottile
Head of Markets
KalshiEX LLC
