

DTCC Data Repository (U.S.) LLC Fee Schedule - CFTC Reporting - Effective January 1, 2025

General Principles

This fee schedule shall apply until such time as the Board of DTCC Data Repository (U.S.) LLC (“DDR”) shall determine otherwise. This fee schedule supersedes any previously issued DDR fee schedules for reporting to the U.S. Commodity Futures Trading Commission (“CFTC”). Terms used but not defined herein shall have the meaning provided in the DDR Rulebook and/or DDR Operating Procedures. There are two types of fees, Position Maintenance Fees and Account Management Fees (collectively, “Subject Fees”), both will be discussed in detail below.

Position Maintenance Fees by Asset Class

Position maintenance fees will be imposed on a party who has signed an agreement with DDR (a “User”) based on the aggregate number of positions across all five asset classes open on any day during the month (“Position Maintenance Fees”). Except as otherwise set forth for cleared transactions below, DDR charges Position Maintenance Fees, monthly, as follows:

Foreign Exchange Position Counts			
Tier	Beginning	Ending	Position Maintenance Fee
Tier 1	1	10,000	\$0.50
Tier 2	10,001	50,000	\$0.40
Tier 3	50,001	100,000	\$0.30
Tier 4	100,001	150,000	\$0.20
Tier 5	150,001	500,000	\$0.04
Tier 6	500,001	1,500,000	\$0.02
Tier 7	1,500,001	+	\$0.005

Other Commodities Position Counts			
Tier	Beginning	Ending	Position Maintenance Fee
Tier 1	1	10,000	\$2.15
Tier 2	10,001	20,000	\$1.82
Tier 3	20,001	+	\$0.00

Credit, Equity and Interest Rates Position Counts			
Tier	Beginning	Ending	Position Maintenance Fee
Tier 1	1	10,000	\$2.15
Tier 2	10,001	50,000	\$1.82
Tier 3	50,001	200,000	\$1.20
Tier 4	200,001	500,000	\$0.20
Tier 5	500,001	1,250,000	\$0.02
Tier 6	1,250,001	+	\$0.005

The following applies to Position Maintenance Fees:

- There are no Position Maintenance Fees for less than five hundred (500) aggregate positions across asset classes during any month;
- For a position count of five hundred (500) or more aggregate positions across asset classes during any month, which shall be determined in the aggregate for entities within the same Family, the applicable Position Maintenance Fees by asset class shall apply; and
- Position Maintenance Fees shall be based on the position count during the month even if liquidated prior to month end.

Examples of the calculation of monthly Position Maintenance Fees are set forth on Annex A, attached hereto.

Responsibility for Position Maintenance Fees is as follows:

1. for positions where a derivatives clearing organization, as such term is defined in the Commodity Exchange Act section 1(a)15 (a “Clearer”)¹, is identified as counterparty 1 (reporting counterparty), the Clearer shall pay Position Maintenance Fees in accordance with the tables above, less a 75% reduction. Reductions will be made after regular positions have been assessed for purposes of calculating tiered pricing.
2. for a position submitted by a swap execution facility (“SEF”) or designated contract market (“DCM”), the User, who is not the SEF or DCM, for whom or on behalf of whom the trade is submitted shall be responsible for Position Maintenance Fees; and
3. for all other positions, the following waterfall shall be used to determine the party responsible for Position Maintenance Fees: (i) User identified as counterparty 1 (reporting counterparty); (ii) User named as execution agent on position; (iii) submitter of the position.

Account Management Fee

All account holders, excluding regulators, will be charged an annual account management fee of \$1,200.00 (“Account Management Fee”). Such Account Management Fee will be in addition to and not in place of all applicable Position Maintenance Fees and shall not serve to reduce in anyway the amount of such Position Maintenance Fees owed to DDR by the applicable account holder.

Fee Cap for Clearer Users

The maximum total amount of Subject Fees charged to a Clearer in any calendar year is \$650,000.

¹ In the event a User holds an account that acts as both a Clearer and in an additional role, DDR shall have the right, in its sole and absolute discretion, to determine the applicable role for purposes of charging the User fees. Such a determination may result in the User being charged fee rates at the higher of the two roles.

Annex A

Examples of calculation of monthly Position Maintenance Fees:

1. Monday--10,000 positions; Friday in the same month--9,500 of those positions are liquidated; the position count for determination of the Position Maintenance Fee shall be 10,000 for the month.
2. In a given month, 200 positions in FX and 200 positions in Rates; no Position Maintenance Fee will be charged for any position (400 position count in the month is less than the 500 position count threshold per month). However, the Account Management Fee discussed below will apply.
3. In a given month, 300 positions in FX, 200 positions in Rates and 100 positions in Commodities; the monthly Position Maintenance Fee will be charged for each position based on charges for that asset class (600 positions in the month is more than the 500 position count threshold per month).

Once the aggregate threshold of five hundred (500) or more positions is met, each of the positions are subject to Position Maintenance Fees based on the following three categories: 1) Foreign Exchange, 2) Other Commodities, and 3) Credit, Equities, and Interest Rates as applicable. Each category will apply the Position Maintenance Fees applicable to the aggregate positions per position for each Tier as noted below.

Example from #3 above: In a given month, three hundred (300) positions in FX, two hundred (200) positions in Rates and one hundred (100) positions in Commodities for a total aggregate of six hundred (600) positions; the monthly Position Maintenance Fee will be charged for each position based on the asset class fees— three hundred (300) FX at \$0.50; two hundred (200) Rates at \$2.15; one hundred (100) Commodities at \$2.15.
