Re: KalshiEX LLC – CFTC Regulation 40.2(a) Notification Regarding the Initial Listing of the “How much will NGDP change?” Contract

Dear Sir or Madam,

Pursuant to Section 5c(c) of the Commodity Exchange Act and Section 40.2(a) of the regulations of the Commodity Futures Trading Commission, KalshiEX LLC (Kalshi) hereby notifies the Commission that it is self-certifying the “How much will NGDP change?” contract (Contract). The Exchange intends to list the contract on a quarterly and annual basis. The Contract’s terms and conditions (Appendix A) includes the following strike conditions:

- **<expo_date>** (the latest possible Expiration Date)
- **<percent>** (target value)
- **<period>** (period of evaluation: e.g. “2021:Q4” or “2022”)
- **<above/below>**

Along with this letter, Kalshi submitted the following documents:

- A concise explanation and analysis of the Contract;
- Certification;
- Appendix A with the Contract’s Terms and Conditions;
- Confidential Appendices with further information; and
- A request for FOIA confidential treatment.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Elie Mishory
Chief Regulatory Officer
KalshiEX LLC

KalshiEX LLC

Official Product Name: How much will NGDP change?

Ticker: NGDP

Kalshi Contract Category: Economics/Demographic Measure – U.S. Government

Nominal Gross Domestic Product

January 26, 2022

CONCISE EXPLANATION AND ANALYSIS OF THE PRODUCT AND ITS COMPLIANCE WITH APPLICABLE PROVISIONS OF THE ACT, INCLUDING CORE PRINCIPLES AND THE COMMISSION'S REGULATIONS THEREUNDER

Pursuant to Commission Rule 40.2(a)(3)(v), the following is a concise explanation and analysis of the product and its compliance with the Act, including the relevant Core Principles, and the Commission's regulations thereunder.

I. Introduction

The “How much will NGDP change?” Contract is a contract relating to the quarterly and annual change in nominal gross domestic product. After careful analysis, Kalshi (hereafter referred to as “Exchange”) has determined that the Contract complies with its vetting framework, which has been reviewed by the CFTC and formed part of the Exchange’s application for designation as a Contract Market (“DCM”) that was approved by the Commission.

Nominal GDP (NGDP) is the measure of total spending in the U.S. economy in a given year. As a matter of accounting, it is broadly equivalent to the increase in real production plus inflation.

Further information about the Contract, including an analysis of its risk mitigation and price basing utility, as well as additional considerations related to the Contract, is included in Confidential Appendices B, C, and D.

Pursuant to Section 5c(c) of the Act and CFTC Regulations 40.2(a), the Exchange hereby certifies that the listing of the Contract complies with the Act and Commission regulations under the Act.

General Contract Terms and Conditions: The Contract operates similar to other binary contracts that the Exchange lists for trading. The minimum price fluctuation is \$0.01 (one cent). Price bands will apply so that Contracts may only be listed at values of at least \$0.01 and at most \$0.99. Further, the Contract is sized with a one-dollar notional value and has a minimum price fluctuation of \$0.01 to enable Members to match the size of the

contracts purchased to their economic risks. The Exchange has further imposed position limits (defined as maximum loss exposure) of \$25,000 USD on the Contract. As outlined in Rule 5.12 of the Rulebook, trading shall be available at all times outside of any maintenance windows, which will be announced in advance by the Exchange. Members will be charged fees in accordance with Rule 3.6 of the Rulebook. Fees are charged in such amounts as may be revised from time to time to be reflected on the Exchange's Website. Additionally, as outlined in Rule 7.2 of the Rulebook, if any event or any circumstance which may have a material impact on the reliability or transparency of a Contract's Source Agency or the Underlying related to the Contract arises, Kalshi retains the authority to designate a new Source Agency and Underlying for that Contract and to change any associated Contract specifications after the first day of trading. That new Source Agency and Underlying would be objective and verifiable. Kalshi would announce any such decision on its website. All instructions on how to access the Underlying are non-binding and are provided for convenience only and are not part of the binding Terms and Conditions of the Contract. They may be clarified at any time. Furthermore, the Contract's payout structure is characterized by the payment of an absolute amount to the holder of one side of the option and no payment to the counterparty. During the time that trading on the Contract is open, Members are able to adjust their positions and trade freely. After trading on the Contract has closed, the Expiration Value and Market Outcome are determined. The market is then settled by the Exchange, and the long position holders and short position holders are paid according to the Market Outcome. In this case, "long position holders" refers to Members who purchased the "Yes" side of the Contract and "short position holders" refers to Members who purchased the "No" side of the Contract. If the Market Outcome is "Yes," meaning that the percent change in U.S. nominal gross domestic product in <period> is <above/below> <percent>, then the long position holders are paid an absolute amount proportional to the size of their position and the short position holders receive no payment. If the Market Outcome is "No," then the short position holders are paid an absolute amount proportional to the size of their position and the long position holders receive no payment. Specification of the circumstances that would trigger a Market Outcome of "Yes" are included below in the section titled "Payout Criterion" in Appendix A.

**CERTIFICATIONS PURSUANT TO SECTION 5c OF THE COMMODITY
EXCHANGE ACT, 7 U.S.C. § 7A-2 AND COMMODITY FUTURES TRADING
COMMISSION RULE 40.2, 17 C.F.R. § 40.2**

Based on the above analysis, the Exchange certifies that:

- The Contract complies with the Act and Commission regulations thereunder.
- This submission (other than those appendices for which confidential treatment has been requested) has been concurrently posted on the Exchange's website at <https://kalshi.com/regulatory/filings>.

Should you have any questions concerning the above, please contact the exchange at ProductFilings@kalshi.com.

Appendix D (Confidential) - Compliance with Core Principles

APPENDIX A – CONTRACT TERMS AND CONDITIONS

TERMS OF CONTRACTS TRADED ON KALSHI

Official Product Name: How much will NGDP change?

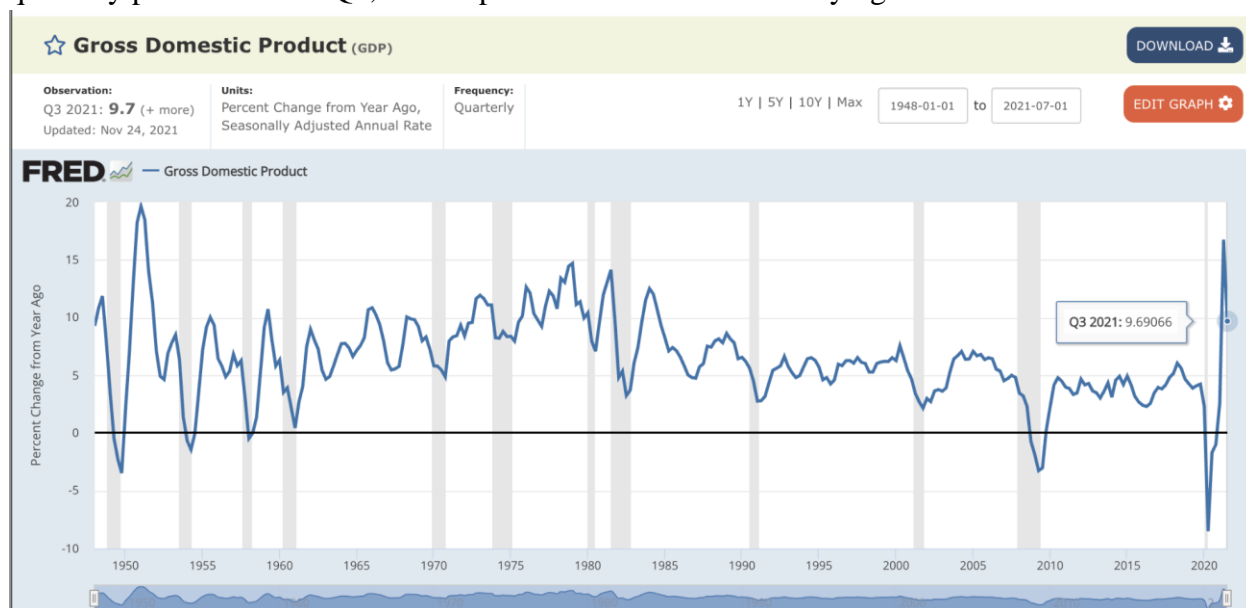

Ticker and Rulebook: NGDP

NGDP

Scope: These rules shall apply to this contract.

Underlying: The Underlying for this Contract is the percent change in U.S. nominal GDP (seasonally adjusted annual rate) in <period> according to the Federal Reserve Bank of St. Louis's Federal Reserve Economic Data (FRED) series ("Gross Domestic Product"), rounded to the nearest one-hundredth of a percent. Revisions to the Underlying made after Expiration will not be accounted for in determining the Expiration Value.

Instructions: The Federal Reserve Economic Data (FRED) System at the Federal Reserve Bank of New York offers an easy visualization of this data. Go to <https://fred.stlouisfed.org/series/GDP>. For an annual period, click on "Edit Graph" and change units to "Percent Change from Year Ago". For a quarterly period, change units to "Percent Change". The first image below shows the value for the *annual period ending 2021:Q3* whereupon the value of the Underlying is 9.69%. The second image shows the value for the quarterly period of 2021:Q3, whereupon the value of the Underlying is 1.96%.

These instructions on how to access the Underlying are provided for convenience only and are not part of the binding Terms and Conditions of the Contract. They may be clarified at any time.

Source Agency: The Source Agency is the Federal Reserve Bank of St. Louis.

Type: The type of Contract is a Binary Contract.

Issuance: The Contract is based on the outcome of a recurrent data release, which is issued on a quarterly basis. Thus, Contract iterations will be issued on a recurring basis, and future Contract iterations may correspond to the next quarter and year. At Issuance, the Exchange will list Contracts for both the next quarterly data release (Q1 2022) and the calendar year (2022).

<percent>: Kalshi may list iterations of the Contract with <percent> levels that fall within an inclusive range between 100.00 and -100.00 at consecutive increments of 0.01. Due to the potential for variability in the Underlying, the Exchange may modify <percent> levels in response to suggestions by Members.

<period>: <period> refers to a range of quarters specified by Kalshi. Kalshi may list iterations of the Contract corresponding to different statistical periods of <period>. In the case where the period spans a full year ending in Q4, the Exchange may refer to <period> by the year itself (e.g. referring to “the annual period ending 2022:Q4” as “2022”).

<expo_date>: <expo_date> refers to a calendar date specified by Kalshi. Kalshi may list iterations of the Contract corresponding to different statistical periods of <expo_date>.

Payout Criterion: The Payout Criterion for the Contract encompasses the Expiration Values that is strictly <above/below> <percent>.

Minimum Tick: The Minimum Tick size for the referred Contract shall be \$0.01.

Position Limit: The Position Limit for the \$1 referred Contract shall be \$25,000 per Member.

Last Trading Date: The Last Trading Date of the Contract will be the date of the expected release of the Advance Estimate for the final quarter in <period>. That release schedule can be found here: <https://www.bea.gov/news/schedule>. The Last Trading Time will be 8:25 AM.

Settlement Date: The Settlement Date of the Contract shall be no later than the day after the Expiration Date, unless the Market Outcome is under review pursuant to Rule 7.1.

Expiration Date: The Expiration Date of the Contract shall be the sooner of the first 10:00 AM following the release of the data for all quarters in <period>, or <expo_date>.

Expiration time: The Expiration time of the Contract shall be 10:00 AM ET.

Settlement Value: The Settlement Value for this Contract is \$1.00.

Expiration Value: The Expiration Value is the value of the Underlying as documented by the Source Agency on the Expiration Date at the Expiration time.

Contingencies: Before Settlement, Kalshi may, at its sole discretion, initiate the Market Outcome Review Process pursuant to Rule 6.3(c) of the Rulebook. Additionally, as outlined in Rule 7.2 of the Rulebook, if any event or any circumstance which may have a material impact on the reliability or transparency of a Contract's Source Agency or the Underlying related to the Contract arises, Kalshi retains the authority to designate a new Source Agency and Underlying for that Contract and to change any associated Contract specifications after the first day of trading.
