Re: KalshiEX LLC – CFTC Regulation 40.2(a) Notification Regarding the Initial Listing of the “Will any quarterly U.S. GDP growth be <above/below> <percent> this year?” Contract

Dear Sir or Madam,

Pursuant to Section 5c(c) of the Commodity Exchange Act and Section 40.2(a) of the regulations of the Commodity Futures Trading Commission, KalshiEX LLC (Kalshi) hereby notifies the Commission that it is self-certifying the “Will any quarterly U.S. GDP growth be <above/below> <percent> this year?” contract (Contract). The Exchange intends to list the contract annually. The initial iteration will be listed in February corresponding to 2022 (Q1:Q4). Later iterations will be listed after the release of the data for Q3, and will correspond to the next calendar year. The Exchange may add new strike values of <percent> as market conditions change. The Contract’s terms and conditions (Appendix A) includes the following strike conditions:

- <period> (the period of evaluation)
- <expo\_date> (the latest possible Expiration Date)
- <percent> (the target percent)
- <above/below>

Along with this letter, Kalshi submitted the following documents:

- A concise explanation and analysis of the Contract;
- Certification;
- Appendix A with the Contract’s Terms and Conditions;
- Confidential Appendices with further information; and
- A request for FOIA confidential treatment.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Elie Mishory  
Chief Regulatory Officer  
KalshiEX LLC

KalshiEX LLC

Official Product Name: Will any quarterly U.S. GDP growth be <above/below> <percent> this year?

Rulebook: LGDP

Kalshi Contract Category: Economic/Demographic Measure – U.S. Government

GDP Quarterly Floor/Ceiling This Year

February 2, 2022

## CONCISE EXPLANATION AND ANALYSIS OF THE PRODUCT AND ITS COMPLIANCE WITH APPLICABLE PROVISIONS OF THE ACT, INCLUDING CORE PRINCIPLES AND THE COMMISSION'S REGULATIONS THEREUNDER

Pursuant to Commission Rule 40.2(a)(3)(v), the following is a concise explanation and analysis of the product and its compliance with the Act, including the relevant Core Principles, and the Commission's regulations thereunder.

### I. Introduction

The “Will any quarterly U.S. GDP growth be <above/below> <percent> this year?” Contract is a contract relating to quarterly Gross Domestic Product growth in the United States. After careful analysis, Kalshi (hereafter referred to as “Exchange”) has determined that the Contract complies with its vetting framework, which has been reviewed by the CFTC and formed part of the Exchange’s application for designation as a Contract Market (“DCM”) that was approved by the Commission.

GDP measures the total value of goods and services produced in the economy in a given year. This contract is designed to provide a “floor” and a “ceiling” to that growth, in contrast to other markets that are based on point estimates in a different quarter.

Further information about the Contract, including an analysis of its risk mitigation and price basing utility, as well as additional considerations related to the Contract, is included in Confidential Appendices B, C, and D.

Pursuant to Section 5c(c) of the Act and CFTC Regulations 40.2(a), the Exchange hereby certifies that the listing of the Contract complies with the Act and Commission regulations under the Act.

**General Contract Terms and Conditions:** The Contract operates similar to other binary contracts that the Exchange lists for trading. The minimum price fluctuation is \$0.01 (one cent). Price bands will apply so that Contracts may only be listed at values of at least \$0.01 and at most \$0.99. Further, the Contract is sized with a one-dollar notional value

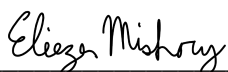

and has a minimum price fluctuation of \$0.01 to enable Members to match the size of the contracts purchased to their economic risks. The Exchange has further imposed position limits (defined as maximum loss exposure) of \$25,000 USD on the Contract. As outlined in Rule 5.12 of the Rulebook, trading shall be available at all times outside of any maintenance windows, which will be announced in advance by the Exchange. Members will be charged fees in accordance with Rule 3.6 of the Rulebook. Fees are charged in such amounts as may be revised from time to time to be reflected on the Exchange's Website. Additionally, as outlined in Rule 7.2 of the Rulebook, if any event or any circumstance which may have a material impact on the reliability or transparency of a Contract's Source Agency or the Underlying related to the Contract arises, Kalshi retains the authority to designate a new Source Agency and Underlying for that Contract and to change any associated Contract specifications after the first day of trading. That new Source Agency and Underlying would be objective and verifiable. Kalshi would announce any such decision on its website. All instructions on how to access the Underlying are non-binding and are provided for convenience only and are not part of the binding Terms and Conditions of the Contract. They may be clarified at any time. Furthermore, the Contract's payout structure is characterized by the payment of an absolute amount to the holder of one side of the option and no payment to the counterparty. During the time that trading on the Contract is open, Members are able to adjust their positions and trade freely. After trading on the Contract has closed, the Expiration Value and Market Outcome are determined. The market is then settled by the Exchange, and the long position holders and short position holders are paid according to the Market Outcome. In this case, "long position holders" refers to Members who purchased the "Yes" side of the Contract and "short position holders" refers to Members who purchased the "No" side of the Contract. If the Market Outcome is "Yes," meaning that there exists a quarter in <period> that has real GDP growth <above/below> <percent> (please see Appendix A for the legally binding terms and conditions), then the long position holders are paid an absolute amount proportional to the size of their position and the short position holders receive no payment. If the Market Outcome is "No," then the short position holders are paid an absolute amount proportional to the size of their position and the long position holders receive no payment. Any of the Advance, Second, Third or Final Estimates for a given quarter are sufficient to determine and expire the Contract should they be <above/below> <percent>. Once a Contract has expired, revisions will not be taken into consideration. Specification of the circumstances that would trigger a Market Outcome of "Yes" are included below in the section titled "Payout Criterion" in Appendix A.

**CERTIFICATIONS PURSUANT TO SECTION 5c OF THE COMMODITY  
EXCHANGE ACT, 7 U.S.C. § 7A-2 AND COMMODITY FUTURES TRADING  
COMMISSION RULE 40.2, 17 C.F.R. § 40.2**

Based on the above analysis, the Exchange certifies that:

- The Contract complies with the Act and Commission regulations thereunder.
- This submission (other than those appendices for which confidential treatment has been requested) has been concurrently posted on the Exchange's website at <https://kalshi.com/regulatory/filings>.

Should you have any questions concerning the above, please contact the exchange at [ProductFilings@kalshi.com](mailto:ProductFilings@kalshi.com).

Appendix C (Confidential) - Source Agency

Appendix D (Confidential) - Compliance with Core Principles

**APPENDIX A – CONTRACT TERMS AND CONDITIONS**

**TERMS OF CONTRACTS TRADED ON KALSHI**

**Official Product Name: Will any quarterly U.S. GDP growth be <above/below> <percent>  
this year?**

**Rulebook: LGDP**

## LGDP

**Scope:** These rules shall apply to this contract.

**Underlying:** The Underlying for this Contract is the set of percent changes from preceding quarterly period (seasonally adjusted at annual rates) of U.S. real Gross Domestic Product in <period>, according to the U.S. Bureau of Economic Analysis. The most recent estimate of Gross Domestic Product growth will be used, including the Advance, Second, Third, or Final Estimate. Revisions to the Underlying made after Expiration will not be accounted for in determining the Expiration Value.

**Instructions:** To find the Underlying, click the following link:

<https://apps.bea.gov/iTable/iTable.cfm?reqid=19&step=2#reqid=19&step=2&isuri=1&1921=survey> and then click “Section 1-Domestic Product and Income” and then navigate to “Table 1.1.1. Percent Change From Preceding Period in Real Gross Domestic Product”. Check the row for “Gross Domestic Product” (in line 1) to find the Underlying. In the event that not all of the data for the relevant quarters in <period> specified by the Exchange are reported in that link, the value for each missing quarter will be ascertained by examining the most recent estimate of the seasonally adjusted annualized percent change in US GDP from the previous quarter for the relevant quarter from the following link: <https://www.bea.gov/data/gdp/gross-domestic-product>. These instructions on how to access the Underlying are provided for convenience only and are not part of the binding Terms and Conditions of the Contract. They may be clarified at any time.

**Source Agency:** The Source Agency is the Bureau of Economic Analysis.

**Type:** The type of Contract is a Binary Contract.

**Issuance:** The Contract is based on the outcome of a recurrent data release, which is issued on a quarterly basis. Thus, Contract iterations will be issued on a recurring basis, and future Contract iterations will generally correspond to the next year. The Exchange may add new strike values of <percent> as market conditions change.

**<percent>:** Kalshi may list iterations of the Contract with <percent> levels that fall within an inclusive range between -100.0 and 100.0 at consecutive increments of 0.1. Due to the potential for variability in the Underlying, the Exchange may modify <percent> levels in response to suggestions by Members.

**<period>:** <period> refers to a set of quarters specified by Kalshi. Kalshi may list iterations of the Contract corresponding to different statistical periods of <period>.

**<expo\_date>**: <expo\_date> refers to a calendar date specified by Kalshi. Kalshi may list iterations of the Contract corresponding to different statistical periods of <expo\_date>.

**Payout Criterion:** The Payout Criterion for the Contract encompasses the Expiration Values that contain a value that is <above/below> <percent>. Any of the Advance, Second, Third or Final Estimates for a quarter are sufficient to determine and expire the Contract should they be <above/below> <percent>. Please note that the Contract expires before the release of the Second Estimate of the final quarter in <period> and therefore only the Advance Estimate of the final quarter in <period> is considered.

**Minimum Tick:** The Minimum Tick size for the referred Contract shall be \$0.01.

**Position Limit:** The Position Limit for the \$1 referred Contract shall be \$25,000 per Member.

**Last Trading Date:** The Last Trading Date of the Contract will be the sooner of the first 10:00 AM following the occurrence of an event that is encompassed in the Payout Criterion, or 8:25 AM on the date the Advanced Estimate data for the final quarter in <period> is expected.

**Settlement Date:** The Settlement Date of the Contract shall be no later than the day after the Expiration Date, unless the Market Outcome is under review pursuant to Rule 7.1.

**Expiration Date:** The Expiration Date of the Contract shall be the sooner of the first 10:00 AM following the occurrence of an event that is encompassed in the Payout Criterion, the first 10:00 AM following the release of the Advance Estimate data for the last quarter in <period>, or <expo\_date>.

**Expiration time:** The Expiration time of the Contract shall be 10:00 AM ET.

**Settlement Value:** The Settlement Value for this Contract is \$1.00.

**Expiration Value:** The Expiration Value is the value of the Underlying as documented by the Source Agency on the Expiration Date at the Expiration time.

**Contingencies:** Before Settlement, Kalshi may, at its sole discretion, initiate the Market Outcome Review Process pursuant to Rule 6.3(c) of the Rulebook. Additionally, as outlined in Rule 7.2 of the Rulebook, if any event or any circumstance which may have a material impact on the reliability or transparency of a Contract's Source Agency or the Underlying related to the Contract arises, Kalshi retains the authority to designate a new Source Agency and Underlying for that Contract and to change any associated Contract specifications after the first day of trading.
