Re: OneChicago, LLC Security Futures Product Rule Submission
Amending Position Limits for Certain Security Futures Products
(OneChicago Submission Number 19-005)

Dear Mr. Kirkpatrick:

Pursuant to section 5c(c)(1) of the Commodity Exchange Act, as amended (the “Act”), and § 41.24(a) of the regulations promulgated by the Commodity Futures Trading Commission (“CFTC” or the “Commission”) under the Act, OneChicago, LLC (“OneChicago” or the “Exchange”) hereby submits the following security futures product rule amendment, which will become effective on March 25, 2019.

Section 41.25(a)(3) of the Commission’s regulations establishes speculative position limits for security futures products. Pursuant to that section, designated contract markets (“DCMs”) must adopt position limits of 13,500 contracts for security futures products, but may adopt increased position limits (or Position Accountability) when the underlying security meets certain criteria. Those criteria are related to the average daily trading volume and the number of shares outstanding for the underlying security. OneChicago has recalculated the position limits for its security futures products based on these criteria, and is amending position limits for the following products:
