

Submission No. 22-31
March 11, 2022

Mr. Christopher J. Kirkpatrick
Secretary of the Commission
Office of the Secretariat
Commodity Futures Trading Commission
Three Lafayette Centre
1155 21st Street, NW
Washington, DC 20581

Re: New ERCOT North 345KV Hub Real-Time Peak 7x16 Fixed Price Future and Related Amendments (13 of 42)
Submission Pursuant to Section 5c(c)(1) of the Act and Regulation 40.2

Dear Mr. Kirkpatrick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended (the “CEA”), and Commission Regulations 40.2, ICE Futures U.S., Inc. (“Exchange”) submits, by written certification, new Rules 18.A.249-18.A.252, 18.B.389-18.B.412, 18.E.152-18.E.154, 19.A.57-19.A.58, 19.C.132-19.C.135, and 19.D.85-19.D.89, amendments to Resolutions 1 and 2 of Chapters 18 and 19, and amendments to Exchange Rule 19.01. The new rules and amendments provide for 39 new futures and three new option on futures contracts, which will be listed on or about March 28, 2022, or such other date as the Exchange shall determine which shall be no sooner than the second business day following the business day on which this submission is received by the Commission.

Financial Gas Futures

The Exchange is listing one new Financial Gas index futures contract, the HSC/Katy Index Future, which is a cash settled Exchange futures contract based upon the mathematical result of subtracting the monthly price published by Platts in its *Inside FERC* monthly report for Houston Ship Channel price hub, from the average of the daily price published by Platts in its *Gas Daily* daily report for the East Texas, Katy price hub. The contract is substantially similar to other Financial Gas index contracts currently listed by the Exchange. The contract will cease trading on the last business day prior to the first calendar day of the contract period and settle to a price in USD.

Additionally, the Exchange is listing three new futures contracts based on the Transco Zone 5 South price hub: the Transco Zone 5 South Basis Future, Transco Zone 5 South Swing Future, and the Transco Zone 5 South Index Future. The basis future is a monthly cash settled Exchange future based on the mathematical result of subtracting the price of the NYMEX Natural Gas Futures contract from the monthly price published by Platts in its *Inside FERC* monthly report for the Transco Zone 5 South price hub. The contract will cease trading on the last business day prior to the first calendar day of the contract period and settle to the price in USD specified above. The Transco Zone 5 South Swing Future is a daily cash settled Exchange futures contract based on the daily price published by Platts in its *Gas Daily* daily publication for the Transco Zone 5 South price hub. Each daily contract will cease trading on the business day prior to the contract period and settle to a price in USD published by Platts representing the price for delivery of natural gas to the price hub on the delivery date/contract period. The Transco Zone 5 Index Future is a monthly

cash settled Exchange future based on the mathematical result of subtracting the monthly price published by Platts in its *Inside FERC* monthly report for the Transco Zone 5 price hub from the average of the daily prices published by Platts in its *Gas Daily* daily report for the Transco Zone 5 price hub. The contract will cease trading on the last business day prior to the first calendar day of the contract period.

The contract size, minimum price fluctuation, Interval Price Limits (IPLs) and IPL recalculation times, No-Cancellation Ranges (NCRs), spot month position limits and single and all month accountability levels are provided in relevant documents attached as Exhibit A. All relevant terms of the contracts are similar to other Financial Gas futures contracts listed by the Exchange. Each of the new futures contracts are block eligible. The minimum block trade size has been set consistent with existing Financial Gas futures contracts. The listing cycle and other relevant specifications are provided in the contract specifications in Exhibit A. New Exchange Rules 18.A.249-18.A.252 list the new futures contracts. For the HSC/Katy Index Future, the Exchange has set spot month position limits, and single and all month accountability levels consistent with similar Financial Gas contracts that reference the East Texas, Katy price hub. A Deliverable Supply Analysis detailing the methodology the Exchange used to determine the spot month position limits for the Transco Zone 5 South Basis Future, Transco Zone 5 South Swing Future, and the Transco Zone 5 South Index Future contracts is attached hereto as Exhibit B. The Exchange has set single and all month accountability levels for the Transco Zone 5 products consistent with the spot month position limit for the products. Additionally, it is the Exchange's good faith belief that the above-referenced Financial Gas futures contracts do not meet the definition of *referenced contract* as prescribed in CFTC §150.1.¹

Financial Power Futures and Option on Futures Contracts

a. Peak and Off-Peak Daily Mini Futures and Option on Futures

The Exchange is listing nine new daily futures contracts, the CAISO NP-15 Day-Ahead Off-Peak Daily Mini Fixed Price Future, CAISO NP-15 Day-Ahead Peak Daily Mini Fixed Price Future, CAISO SP-15 Day-Ahead Off-Peak Daily Mini Fixed Price Future, CAISO SP-15 Day-Ahead Peak Daily Mini Fixed Price Future, Mid-Columbia Day-Ahead Off-Peak Daily Mini Fixed Price Future, Mid-Columbia Day-Ahead Peak Daily Mini Fixed Price Future, Palo Verde Day-Ahead Off-Peak Daily Fixed Mini Price Future, Palo Verde Day-Ahead Peak Daily Mini Fixed Price Future, and PJM Western Hub Day-Ahead Peak Daily Mini Fixed Price Future, which are based on the day-ahead or real-time electricity prices at CAISO NP-15 and SP-15, Mid-Columbia, Palo Verde, and PJM Western price hubs for peak or off-peak times. The products supplement the existing suite of Financial Power products related to CAISO NP-15 and SP-15, Mid-Columbia, Palo Verde, and PJM Western price hubs offered by the Exchange. The contracts' sizes are smaller than other daily contracts offered by the Exchange, offering commercial market participants further opportunity to balance their exposures. The day-ahead contracts will cease trading on the last business day of the contract period, at which time the contracts will cash settle to a price in USD based on the mathematical average of peak or off-peak hourly prices, as applicable. For peak contracts, the contracts will generally settle to the average of LMPs for all hours ending 0800-2300 of the prevailing time zones for the relevant contract period, and for off-peak contracts, the contracts, generally, will settle to the average of LMPs for all hours ending 0100-0700 and 2300-2400 for the prevailing time zones. Spot month position limits and single and all-month accountability levels have been set consistent with other futures contracts referencing the relevant CAISO NP-15 and SP-15, Mid-Columbia, Palo Verde, and PJM Western price hubs. Additionally, positions in the new contracts will be aggregated with the relevant monthly contract corresponding to peak or off-peak generation at the relevant price hub.

Additionally, the Exchange is listing three new European-style option on futures contracts based on the price of a futures contract currently listed by the Exchange. The Option on ERCOT North 345KV Hub Real-Time Peak Daily Mini Fixed Price Future, Option on ISO New England Massachusetts Hub Day-Ahead Peak Daily Mini Fixed Price Future, and Option on PJM Western Hub Real-Time Peak Daily Mini

¹ 17 C.F.R. § 150.1 (October 15, 2020) (providing for *referenced contract* definition).

Fixed Price Future are daily option on futures on the corresponding contract period of the underlying futures contract. The contract sizes are consistent with the underlying futures contracts. For the real-time options, the contracts will cease trading on, for Monday through Friday Contract Periods, excluding NERC holidays, if the following calendar day is a business day, the business day following the contract period with a closing time of 11:00pm of the prevailing time zone the night before; If the following calendar day is not a business day, the business day equal to the contract period with a closing time equal to the end of the trading session; and for each Saturday, Sunday, and NERC holiday contract period, the last business day prior to the contract period with a closing time equal to the end of the trading session. The day-ahead option will cease trading at the end of the trading session on the last business day prior to the contract period. Each contract will be automatic exercise only and will expire into the underlying futures contract at expiration.

The contract size, minimum price fluctuation, Interval Price Limits (IPLs) and IPL recalculation times, where applicable, No-Cancellation Ranges (NCRs), spot month position limits and single and all month accountability levels are provided in relevant documents attached as Exhibit A. All relevant terms of the contracts are similar to other Financial Power futures and option on futures contracts listed by the Exchange. Each of the new contracts are block eligible. The minimum block trade size has been set consistent with existing Financial Power contracts. The listing cycle and other relevant specifications are provided in the contract specifications in Exhibit A. New Exchange Rules 18.B.390-18.B.391, 18.B.393-18.B.394, 18.B.406-18.B.407, 18.B.408-18.B.410, and 18.E.152-18.E.154 list the new futures and option on futures contracts. For each new product the Exchange has set spot month position limits, and single and all month accountability levels consistent with similar Financial Power contracts that reference the CAISO NP-15 and SP-15, Mid-Columbia, Palo Verde, PJM Western, ERCOT North, and ISO New England Massachusetts price hubs. Positions held in the futures contracts will be aggregated with the relevant monthly futures contracts for position limit and accountability purposes. Positions held in the option on futures contracts will be aggregated with the underlying futures contracts for position limit and accountability purposes. Additionally, it is the Exchange's good faith belief that the above-referenced Financial Power futures and option on futures contracts do not meet the definition of *referenced contract* as prescribed in CFTC §150.1.

b. ERCOT "2x16" and "7x16" Fixed Price Futures

The Exchange is listing seven new Financial Power futures contract based on the real-time electricity prices at the ERCOT North, South, Houston, and West price hubs for peak times. The products supplement the existing suite of Financial Power products related to ERCOT offered by the Exchange or included within this submission. The new ERCOT Houston 345KV Hub Real-Time Peak 2x16 Fixed Price Future, ERCOT Houston 345KV Hub Real-Time Peak 7x16 Fixed Price Future, ERCOT North 345KV Hub Real-Time Peak 7x16 Fixed Price Future, ERCOT North 345KV Hub Real-Time Peak Daily HE 1000-1700 Fixed Price Future, ERCOT North 345KV Hub Real-Time Peak HE 1000-1700 Fixed Price Future, 7X, ERCOT South 345KV Hub Real-Time Peak 2x16 Fixed Price Future, ERCOT South 345KV Hub Real-Time Peak 7x16 Fixed Price Future, ERCOT West 345KV Hub Real-Time Peak 2x16 Fixed Price Future, ERCOT West 345KV Hub Real-Time Peak 7x16 Fixed Price Future are monthly cash settled futures contracts based on: for the "2x16" contracts, the mathematical average of daily SPPs for all hours ending 0700-2200 CPT for each Saturday, Sunday, and all NERC holidays that prices are reported during the contract period, and for the "7x16" contracts, the mathematical average of SPPs for all hours ending 0700-2200 CPT during the contract period. The last trading day for the futures contract will be the last business day prior to the contract period. Spot month position limits and single and all-month accountability levels have been set consistent with other futures products referencing the ERCOT Houston, North, South, and West price hubs and positions held in the new products will be aggregated with the relevant monthly ERCOT Houston, North, South, and West price hubs futures contracts.

The contract size, minimum price fluctuation, Interval Price Limits (IPLs) and IPL recalculation times, No-Cancellation Ranges (NCRs), spot month position limits and single and all month accountability levels are provided in relevant documents attached as Exhibit A. All relevant terms of the contracts are similar to

other Financial Power futures contracts listed by the Exchange. Each of the new futures contracts are block eligible. The minimum block trade size has been set consistent with existing Financial Power futures contracts. The listing cycle and other relevant specifications are provided in the contract specifications in Exhibit A. New Exchange Rules 18.B.395-18.B.397 and 18.B.400-18.B.403 list the new futures contracts. For each new product the Exchange has set spot month position limits, and single and all month accountability levels consistent with similar Financial Power contracts that reference the ERCOT North, South, Houston, and West price hubs. Positions held in the futures contracts will be aggregated with the relevant monthly futures contracts for position limit and accountability purposes. Additionally, it is the Exchange's good faith belief that the above-referenced Financial Power futures contracts do not meet the definition of *referenced contract* as prescribed in CFTC §150.1.

c. ERCOT and PJM 1000-1700 Futures

The Exchange is listing three new Financial Power futures contract based on the day-ahead and real-time electricity prices at the ERCOT North and PJM Western price hubs for peak times. The products supplement the existing suite of Financial Power products related to ERCOT and PJM offered by the Exchange or included within this submission. The new ERCOT North 345KV Hub Real-Time Peak HE 1000-1700 Fixed Price Future, 7X, PJM Western Hub Day-Ahead Peak HE 1000-1700 Fixed Price Future, 7X, and PJM Western Hub Real-Time Peak HE 1000-1700 Fixed Price Future, 7X contracts are monthly cash settled futures contracts based, generally, on the average of SPPs or LMPs for all hours ending 1000-1700 of the relevant time zone for the contract period. The last trading day for the futures contracts will be the last business day of the contract period. Spot month position limits and single and all-month accountability levels have been set consistent with other futures products referencing the ERCOT North and PJM Western price hubs and positions held in the new products will be aggregated with the relevant monthly ERCOT North and PJM Western price hub futures contracts.

Additionally, the Exchange is listing one new daily Financial Power futures contract based on the real-time electricity prices at the ERCOT North price hub for peak times. The ERCOT North 345KV Hub Real-Time Peak Daily HE 1000-1700 Fixed Price Future supplements the existing suite of Financial Power products related to ERCOT offered by the Exchange or included within this submission. The new ERCOT North 345KV Hub Real-Time Peak Daily HE 1000-1700 Fixed Price Future contract is a daily cash settled Exchange future based on the mathematical average of hourly electric prices for all hours ending 1000-1700 CPT. Spot month position limits and single and all-month accountability levels have been set consistent with other futures products referencing the ERCOT North price hubs and positions held in the new products will be aggregated with the relevant monthly ERCOT North price hub futures contract.

The contract size, minimum price fluctuation, Interval Price Limits (IPLs) and IPL recalculation times, No-Cancellation Ranges (NCRs), spot month position limits and single and all month accountability levels are provided in relevant documents attached as Exhibit A. All relevant terms of the contracts are similar to other Financial Power futures contracts listed by the Exchange. Each of the new futures contracts are block eligible. The minimum block trade size has been set consistent with existing Financial Power futures contracts. The listing cycle and other relevant specifications are provided in the contract specifications in Exhibit A. New Exchange Rules 18.B.398-18.B.399, 18.B.411-412 list the new futures contracts. For each new product the Exchange has set spot month position limits, and single and all month accountability levels consistent with similar Financial Power contracts that reference the ERCOT North and PJM Western price hubs. Positions held in the futures contracts will be aggregated with the relevant monthly futures contracts for position limit and accountability purposes. Additionally, it is the Exchange's good faith belief that the above-referenced Financial Power futures contracts do not meet the definition of *referenced contract* as prescribed in CFTC §150.1.

d. CAISO 0700-0800, 1700-2200 Futures

The Exchange is listing two new Financial Power futures contracts based on the day-ahead electricity prices at the CAISO NP-15 and SP-15 price hubs for peak times. The products supplement the existing suite of Financial Power products related to CAISO offered by the Exchange or included within this submission. The new CAISO NP-15 Day-Ahead HE 0700-0800, 1700-2200 Fixed Price Future and CAISO SP-15 Day-Ahead HE 0700-0800, 1700-2200 Fixed Price Future contracts are monthly cash settled futures contracts based on the average of LMPs for all hours ending 0700-0800 and 1700-2200 PPT for each Monday through Saturday, excluding NERC holidays, that prices are reported during the contract period. The last trading day for the futures contracts will be the last business day of the contract period. Spot month position limits and single and all-month accountability levels have been set consistent with other futures products referencing the CAISO NP-15 and SP-15 price hubs and positions held in the new products will be aggregated with the relevant monthly CAISO NP-15 and SP-15 price hub futures contracts.

The contract size, minimum price fluctuation, Interval Price Limits (IPLs) and IPL recalculation times, No-Cancellation Ranges (NCRs), spot month position limits and single and all month accountability levels are provided in relevant documents attached as Exhibit A. All relevant terms of the contracts are similar to other Financial Power futures contracts listed by the Exchange. Each of the new futures contracts are block eligible. The minimum block trade size has been set consistent with existing Financial Power futures contracts. The listing cycle and other relevant specifications are provided in the contract specifications in Exhibit A. New Exchange Rules 18.B.389 and 18.B.392 list the new futures contracts. For each new product the Exchange has set spot month position limits, and single and all month accountability levels consistent with similar Financial Power contracts that reference the CAISO NP-15 and SP-15 price hubs. Positions held in the futures contracts will be aggregated with the relevant monthly futures contracts for position limit and accountability purposes. Additionally, it is the Exchange's good faith belief that the above-referenced Financial Power futures contracts do not meet the definition of *referenced contract* as prescribed in CFTC §150.1.

e. Mead 230 Peak and Off-Peak Futures

The Exchange is listing two new Financial Power futures contracts based on the day-ahead electricity prices at the Mead 230 price hub for peak and off-peak times. The products supplement the existing suite of Financial Power products offered by the Exchange. The new Mead 230 Day-Ahead Off-Peak Fixed Price Future and Mead 230 Day-Ahead Peak Fixed Price Future are monthly cash settled futures contracts based on the mathematical average of daily energy prices calculated by averaging the hours ending 0800-2300 PPT for each Monday through Saturday, excluding NERC holidays, that prices are reported during the contract period, for peak, and, for off-peak, for each day during the contract period, the average for all hours ending 0100-0700 and 2400 PPT. The last trading day for the futures contract will be the last business day of the contract period.

The contract size, minimum price fluctuation, Interval Price Limits (IPLs) and IPL recalculation times, No-Cancellation Ranges (NCRs), spot month position limits and single and all month accountability levels are provided in relevant documents attached as Exhibit A. All relevant terms of the contract are similar to other Financial Power futures contracts listed by the Exchange. The new futures contract is block eligible. The minimum block trade size has been set consistent with existing Financial Power futures contracts. The listing cycle and other relevant specifications are provided in the contract specifications in Exhibit A. New Exchange Rules 18.B.404 and 18.B.405 list the new futures contract. A Deliverable Supply Analysis detailing the methodology the Exchange used to determine the spot month position limits for the new Mead 230 Day-Ahead Off-Peak Fixed Price Future and Mead 230 Day-Ahead Peak Fixed Price Future contracts is attached hereto as Exhibit B. The Exchange has set single and all month accountability levels consistent with the spot month position limit for the products. Additionally, it is the Exchange's good faith belief that the Financial Power futures contracts do not meet the definition of *referenced contract* as prescribed in CFTC §150.1.

Financial NGL Futures Contracts

a. Argus CIF ARA Futures Contracts

The Exchange is listing two new monthly cash settled futures contracts, the Propane, Argus CIF ARA vs Brent 1st Line Future (in bbls) and the Propane, Argus CIF ARA vs Brent 1st Line Future (in MTs), which are based on the mathematical result of subtracting the average of daily prices of the ICE Brent 1st Line Future from the average of daily prices published by Argus in its *International LPG* daily report for propane cargoes deliverable CIF ARA. The contracts generally represent the differential between liquefied petroleum gas, propane, and crude oil in Europe. The contracts supplement the existing suite of Financial NGL and propane contracts currently listed by the Exchange. The contracts will cease trading on the last trading day of the contract month and will cash settle to a price in USD and cents per barrel based on the average of the specified daily prices published by Argus and ICE.

The contract size, minimum price fluctuation, Interval Price Limits (IPLs) and IPL recalculation times, No-Cancellation Ranges (NCRs), spot month position limits and single and all month accountability levels are provided in relevant documents attached as Exhibit A. All relevant terms of the contract are similar to other Financial NGL contracts listed by the Exchange. The listing cycle and other relevant specifications are provided in the contract specifications in Exhibit A. Each of the new futures contracts are block eligible. The minimum block trade size has been set consistent with existing Financial NGL futures contracts. New Exchange Rules 19.D.85 and 19.D.86 list the aforementioned propane futures contracts. For each new product the Exchange has set spot month position limits, and single and all month accountability levels consistent with similar Financial NGL contracts that reference propane delivered CIF ARA. Additionally, it is the Exchange's good faith belief that neither of the aforementioned contracts meet the definition of *referenced contract* as prescribed in CFTC §150.1.

b. Argus Ningbo Index Futures Contracts

The Exchange is listing two new monthly cash settled futures contracts and one new balance of the month ("Balmo") futures contracts, the Propane, Argus Ningbo Index (ANI) Future, Propane, Argus Ningbo Index (ANI) Balmo Future, and the Propane, Argus Ningbo Index (ANI) Mini Future, which are based on the average of the daily price of propane published by Argus in its *International LPG* daily report for the Ningbo Index. Generally, the products relate to the price of propane imported into China at the port of Ningbo. The monthly contracts will cease trading on the last trading day of the month and cash settle to the average of the prices published in *International LPG* for each day that prices are published during the contract period. The Balmo product will also cease trading on the last trading day of the month and will cash settle to the average of the daily prices for the Ningbo Index published in *International LPG* for the dates in the specified Balmo period.

The contract size, minimum price fluctuation, Interval Price Limits (IPLs) and IPL recalculation times, No-Cancellation Ranges (NCRs), spot month position limits and single and all month accountability levels are provided in relevant documents attached as Exhibit A. All relevant terms of the contract are similar to other Financial NGL contracts listed by the Exchange. The listing cycle and other relevant specifications are provided in the contract specifications in Exhibit A. Each of the new futures contracts are block eligible. The minimum block trade size has been set consistent with existing Financial NGL futures contracts. New Exchange Rules 19.D.87-19.D.89 list the aforementioned propane futures contracts. A Deliverable Supply Analysis detailing the methodology the Exchange used to determine the spot month position limits for the new Propane, Argus Ningbo Index (ANI) Future, Propane, Argus Ningbo Index (ANI) Balmo Future, and Propane, Argus Ningbo Index (ANI) Mini Future contracts is attached hereto as Exhibit B. The Exchange has set single and all month accountability levels consistent with the spot month position limit for the products. Additionally, it is the Exchange's good faith belief that neither of the aforementioned contracts meet the definition of *referenced contract* as prescribed in CFTC §150.1.

Oil Americas Futures Contracts

a. Renewable Volume Obligation Futures

The Exchange is listing two new monthly cash settled futures contracts based on the value of Renewable Volume Obligation indices published by OPIS and Argus. The Gasoline Outright - RVO (OPIS) Current Year Future and Gasoline Outright - Argus RVO Current Year Future contracts, generally, will reflect the price per gallon of fuel compliance costs associated with the Environmental Protection Agency's ("EPA") Renewable Fuel Standard ("RFS"). The relevant market consists of the EPA's Renewable Identification Numbers ("RINs") which are the credits used to demonstrate compliance with the RFS. The contracts will cease trading on the last trading day of the contract month and cash settle to a price in USD and cents, for Argus, based on the average of the "Price" quotations appearing in the Argus *Americas Biofuels* report under the heading "RINs" for "RVO c/USG" for each business day of the contract period, and for OPIS, based on the average of the "Mean" quotations appearing in the OPIS *Carbon Market Report* under the heading "U.S. RINs (cts/RIN)" for "RVO (cts/gal)" for each business day of the contract period. The contracts' sizes are similar to other RIN contracts listed by the Exchange.

The contract size, minimum price fluctuation, Interval Price Limits (IPLs) and IPL recalculation times, No-Cancellation Ranges (NCRs), spot month position limits and single and all month accountability levels are provided in relevant documents attached as Exhibit A. All relevant terms of the contract are similar to other Oil Americas contracts listed by the Exchange. The listing cycle and other relevant specifications are provided in the contract specifications in Exhibit A. Each of the new futures contracts are block eligible. The minimum block trade size has been set consistent with existing Oil Americas futures contracts. New Exchange Rules 19.A.57-19.A.58 list the aforementioned RVO futures contracts. A Deliverable Supply Analysis detailing the methodology the Exchange used to determine the spot month position limits for the new Gasoline Outright - RVO (OPIS) Current Year Future and Gasoline Outright - Argus RVO Current Year Future contracts is attached hereto as Exhibit B. The Exchange has set single and all month accountability levels consistent with the spot month position limit for the products. Additionally, it is the Exchange's good faith belief that neither of the aforementioned contracts meet the definition of *referenced contract* as prescribed in CFTC §150.1.

b. Marine Fuel Futures

The Exchange is listing four new cash settled futures differential contracts based on the price of marine fuel delivered on the US Gulf and Atlantic Coasts. The Fuel Oil Diff - Marine Fuel 0.5% Delivered US Atlantic Coast Barges (Platts) vs Marine Fuel 0.5% FOB USGC Barges (Platts) Future (in MTs) and Fuel Oil Diff - Marine Fuel 0.5% Delivered US Atlantic Coast Barges (Platts) vs Marine Fuel 0.5% FOB USGC Barges (Platts) Future (in Bbls) are monthly cash settled futures based on the difference between the Platts daily assessment price for 0.5% Delivered US Atlantic Coast Marine Fuel barges and the Platts daily assessment price for 0.5% FOB US Gulf Coast Barges Marine Fuel. The contracts supplement the existing marine fuel contracts currently listed by the Exchange. The contracts will cease trading based on the last trading day of the contract month and cash settle to a price in USD and cents per metric tonne or barrel, depending on the contract specification, based on the difference between the average of the "\$/mt" or "\$/barrel" quotations appearing in Platts *US Marketscan* under the heading "Marine Fuel" for "0.5% Dlv'd Atlantic Coast barge" and the average of the "\$/mt" or "\$/barrel" quotations appearing in the Platts *US Marketscan* under the heading "Marine Fuel" for "0.5% FOB US Gulf Coast barge" for each business day in the contract period. The contract sizes, 1,000 metric tonnes and 1,000 barrels, are consistent with existing marine fuel products currently listed by the Exchange.

Additionally, the Fuel Oil Diff - Marine Fuel 0.5% FOB USGC (Platts) vs Low Sulphur Gasoil 1st Line Future and Fuel Oil Diff - Marine Fuel 0.5% FOB USGC (Platts) vs Low Sulphur Gasoil 1st Line Balmo Future are monthly cash settled futures based on the difference between the Platts daily assessment price for 0.5% FOB US Gulf Coast Barges Marine Fuel and the ICE settlement price for Low Sulphur Gasoil 1st Line Future. The products generally relate to the differential between distillate fuel oil deliverable in Europe

and marine fuel oil delivered on the US Gulf Coast. The contracts will cease trading on the last trading day of the contract month and cash settle to a price in USD and cents per metric tonne based on the difference between the average of the “\$/mt” quotations appearing in the Platts *US Marketscan* under the heading “Marine Fuel” for “0.5% FOB USGC” and the average of the settlement prices as made public by ICE for the front month Low Sulphur Gasoil Future for each business day in the contract period, and for the “Balmo” contract, for each business day of the balance of the month period traded. The contract size, 1,000 metric tonnes, is consistent with the contract sizes of existing Oil Americas marine fuel contracts currently listed by the Exchange.

The contract size, minimum price fluctuation, Interval Price Limits (IPLs) and IPL recalculation times, No-Cancellation Ranges (NCRs), spot month position limits and single and all month accountability levels are provided in relevant documents attached as Exhibit A. All relevant terms of the contract are similar to other Oil Americas contracts listed by the Exchange. The listing cycle and other relevant specifications are provided in the contract specifications in Exhibit A. Each of the new futures contracts are block eligible. The minimum block trade size has been set consistent with existing Oil Americas futures contracts. New Exchange Rules 19.C.132-19.C.135 list the aforementioned marine fuel futures contracts. For each new product the Exchange has set spot month position limits, and single and all month accountability levels consistent with similar Oil Americas marine fuel contracts. Additionally, it is the Exchange’s good faith belief that none of the aforementioned marine fuel contracts meet the definition of *referenced contract* as prescribed in CFTC §150.1.

Certifications

The rules and amendments establishing the new futures and option on futures contracts’ terms and conditions are to become effective on the second business day following the business day on which this submission is received by the Commission. The Exchange is not aware of any substantive opposing views to the new futures and option on futures contracts. The Exchange certifies that the rule amendments comply with the requirements of the Act and the rules and regulations promulgated thereunder. The Exchange has reviewed the designated contract market core principles (“Core Principles”) as set forth in the Act and has determined that the listing of the contracts complies with the following relevant Core Principles:

COMPLIANCE WITH RULES

The terms and conditions of the new futures and option on futures contracts are set forth in new Rules 18.A.249-18.A.252, 18.B.389-18.B.412, 18.E.152-18.E.154, 19.A.57-19.A.58, 19.C.132-19.C.135, and 19.D.85-19.D.89, amendments to Resolutions 1 and 2 of Chapters 18 and 19, and amendments to Exchange Rule 19.01, and will be enforced by the Exchange. In addition, trading of the contracts is subject to all relevant Exchange rules which are enforced by the Market Regulation Department.

CONTRACTS NOT READILY SUBJECT TO MANIPULATION

The new futures and option on futures contracts are not readily subject to manipulation as they are based on established and liquid underlying cash markets. In addition, trading of the new contracts will be monitored by the Market Regulation Department.

POSITION LIMITS OR ACCOUNTABILITY

Positions in the new futures and option on futures contracts will be subject to position limits and accountability levels set by the Exchange. As described above, such position limits are based upon existing levels set for substantially similar products at the Exchange or another designated contract market or based on the deliverable supply of the cash commodity underlying the contract. Positions held in the new option on futures contract will be aggregated with the futures contract underlying the option contract for purposes of position limits and accountability.

FINANCIAL INTEGRITY OF CONTRACTS

The new futures and option on futures contracts will be cleared by ICE Clear Europe, a registered derivatives clearing organization subject to Commission regulation, and carried by registered futures commission merchants qualified to handle customer business.

The Exchange is not aware of any opposing views expressed by members or others regarding the listing of the new futures contracts and option on futures contract and the adoption of related amendments. The Exchange further certifies that concurrent with this filing a copy of this submission was posted on the Exchange's website, which may be accessed at: (<https://www.theice.com/futures-us/regulation#rule-filings>).

If you have any questions or need further information, please contact the undersigned at patrick.swartz@theice.com.

OIL FUTURES AND RELATED OPTION CONTRACTS

* * *

Rule 19.01 Definitions

The following capitalized terms shall have the meanings ascribed to them below:

<u>Argus Americas Biofuels</u>	shall mean the <u>Argus Americas Biofuels report, or any successor publication, published by Argus Media Limited or its successor.</u>
Argus Crude	shall mean the Argus Crude report, or any successor publication, published by Argus Media Limited or its successor.
Argus International LPG	shall mean the Argus International LPG report, or any successor publication, published by Argus Media Limited or its successor.
Average Price Option or APO	shall mean an option contract whose value is determined by a mathematical average of prices over a specific period of time.
Clearing House Business Day	shall mean a day on which the Clearing Organization is open for business.
Common Pricing	shall mean that no date will be used as a pricing date under the terms of the relevant Commodity Contract unless such date is a day on which all commodity reference prices for such contract are scheduled to be published or announced. “Non-Common Pricing” will be construed accordingly.
Ethylene Daily Asia	shall mean the Ethylene Daily Asia report, or any successor publication, published by I.C.I.S. or its successor.
ICE-NGX	shall mean the Natural Gas Exchange Inc., or its successor, which reports market prices on its website at www.ngx.com or its successor.
ICE-NGX Crude Oil Markets	shall mean the Natural Gas Exchange Inc. crude oil markets prices report, or any successor publication, published by the Natural Gas Exchange Inc., or its successor.
I.C.I.S.	shall mean the Independent Commodity Intelligence Services or its successor.
NYMEX	shall mean the New York Mercantile Exchange, Inc. or its successor.
OPIS	shall mean the Oil Price Information Service, or any successor publication, published by Oil Price Information Service, a division of UCG, or its successor.

<u>OPIS Carbon Market Report</u>	<u>Shall mean the OPIS Carbon Market Report, or any successor publication, published by Oil Price Information Service or its successor.</u>
Platts Asia-Pacific or Platts Asia-Pacific/Arab Gulf Marketscan	shall mean Platts Asia-Pacific/Arab Gulf Marketscan, or any successor publication, published by The McGraw-Hill Companies Inc. or its successor.
Platts Crude Oil Marketwire	shall mean Platts Crude Oil Marketwire, or any successor publication, published by The McGraw-Hill Companies Inc. or its successor.
Platts European or Platts European Marketscan	shall mean Platts European Marketscan, or any successor publication, published by The McGraw-Hill Companies Inc. or its successor.
Platts US Marketscan	shall mean Platts US Marketscan, or any successor publication, published by The McGraw-Hill Companies Inc. or its successor.
Tonne	shall mean a metric tonne.

[REMAINDER OF RULE UNCHANGED]

SUBCHAPTER 18A - NATURAL GAS FUTURES CONTRACTS

- 18.A.249 HSC/KATY Index Future
- 18.A.250 Transco Zone 5 South Index Future
- 18.A.251 Transco Zone 5 South Basis Future
- 18.A.252 Transco Zone 5 South Swing Future

* * *

18.A.249 HSC/Katy Index Future

Description: A monthly cash settled Exchange Futures Contract based upon the mathematical result of subtracting the monthly price published by Inside FERC, as defined in Reference Price B, from the average of the daily prices published by Gas Daily, as defined in Reference Price A.

Contract Symbol: HKA

Settlement Method: Cash settlement

Contract Size: 2500 MMBtus

Currency: USD

Minimum Price Fluctuation: The price quotation convention shall be One hundredth of a cent (\$0.0001) per MMBtu; minimum price fluctuation may vary by trade type. Please see Table in Resolution 1 to this Chapter 18.

Listing Cycle: Up to 120 consecutive monthly Contract Periods, or as otherwise determined by the Exchange

Last Trading Day: The last Business Day prior to the first calendar day of the Contract Period

Final Settlement: Average of the Reference Price A prices minus Reference Price B

REFERENCE PRICE A: NATURAL GAS-EAST TEXAS, KATY-GAS DAILY

- a) **Ref Price A - Description:** "NATURAL GAS-EAST TEXAS, KATY-GAS DAILY " means that the price for a Pricing Date will be that day's Specified Price per MMBTU of natural gas for delivery on the Delivery Date, stated in U.S. Dollars, published under the heading "Daily price survey (\$/MMBtu): East Texas, Katy: Midpoint" in the issue of Gas Daily that reports prices effective on that Pricing Date.
- b) **Ref Price A - Pricing Date:** Each day that prices are reported for the Delivery Date
- c) **Ref Price A - Specified Price:** Midpoint
- d) **Ref Price A - Pricing calendar:** Gas Daily
- e) **Ref Price A - Delivery Date:** Each calendar day in the Contract Period

REFERENCE PRICE B: NATURAL GAS-E. TEXAS (HOUSTON SHIP CHANNEL)-INSIDE FERC

- a) **Ref Price B - Description:** "NATURAL GAS-E. TEXAS (HOUSTON SHIP CHANNEL)-INSIDE FERC" means that the price for a Pricing Date will be that day's Specified Price per MMBTU of natural gas for delivery on the Delivery Date, stated in U.S. Dollars, published under the heading "Monthly Bidweek Spot Gas Prices (\$/MMBtu): East Texas: Houston Ship Channel: Index" in the issue of Inside FERC that reports prices effective on that Pricing Date.
- b) **Ref Price B - Pricing Date:** First publication date of Contract Period

- c) **Ref Price B - Specified Price: Index**
- d) **Ref Price B - Pricing calendar: Inside FERC**
- e) **Ref Price B - Delivery Date: Contract Period**

Final Payment Date: The third Clearing Organization business day following the Last Trading Day

MIC Code: IFED

Clearing Venue: ICEU

18.A.250 Transco Zone 5 South Basis Future

Description: A monthly cash settled Exchange Futures Contract based upon the mathematical result of subtracting the price of the NYMEX Henry Hub Natural Gas Futures Contract, as defined in Reference Price B, from the monthly price published by Inside FERC for the location specified in Reference Price A.

Contract Symbol: T5B

Settlement Method: Cash settlement

Contract Size: 2500 MMBtus

Currency: USD

Minimum Price Fluctuation: The price quotation convention shall be One hundredth of a cent (\$0.0001) per MMBtu; minimum price fluctuation may vary by trade type. Please see Table in Resolution 1 to this Chapter 18.

Listing Cycle: Up to 84 consecutive monthly Contract Periods, or as otherwise determined by the Exchange.

Last Trading Day: The last Business Day prior to the first calendar day of the Contract Period

Final Settlement: Reference Price A

REFERENCE PRICE A: NATURAL GAS-TRANSCONTINENTAL GAS PIPELINE, ZONE 5 DELIVERED SOUTH-INSIDE FERC

- a) **Ref Price A - Description:** "NATURAL GAS-TRANSCONTINENTAL GAS PIPELINE, ZONE 5 DELIVERED SOUTH-INSIDE FERC" means that the price for a Pricing Date will be that day's Specified Price per MMBTU of natural gas for delivery on the Delivery Date, stated in U.S. Dollars, published under the heading "Monthly Bidweek Spot Gas Prices (\$/MMBtu): Northeast: Transco, zone 5 del. South: Index " in the issue of Inside FERC that reports prices effective on that Pricing Date.
- b) **Ref Price A - Pricing Date:** First publication date of the Contract Period
- c) **Ref Price A - Specified Price:** Index
- d) **Ref Price A - Pricing calendar:** Inside FERC
- e) **Ref Price A - Delivery Date:** Contract Period

REFERENCE PRICE B: NATURAL GAS-NYMEX

- a) **Ref Price B - Description:** "NATURAL GAS-NYMEX" means that the price for a Pricing Date will be that day's Specified Price per MMBtu of natural gas on the NYMEX of the Henry Hub Natural Gas Futures Contract for the Delivery Date, stated in U.S. Dollars, as made public by the NYMEX on that Pricing Date.

- b) **Ref Price B - Pricing Date:** Last scheduled trading day of the NYMEX Henry Hub Natural Gas Futures Contract for the Delivery Date
- c) **Ref Price B - Specified Price:** Settlement price
- d) **Ref Price B - Pricing calendar:** NYMEX
- e) **Ref Price B - Delivery Date:** Contract Period

Final Payment Date: The third Clearing Organization business day following the Last Trading Day

MIC Code: IFED

Clearing Venue: ICEU

18.A.251 Transco Zone 5 South Index Future

Description: A monthly cash settled Exchange Futures Contract based upon the mathematical result of subtracting the monthly price published by Inside FERC, as defined in Reference Price B, from the average of the daily prices published by Gas Daily, as defined in Reference Price A.

Contract Symbol: T5I

Settlement Method: Cash settlement

Contract Size: 2500 MMBtus

Currency: USD

Minimum Price Fluctuation: The price quotation convention shall be One hundredth of a cent (\$0.0001) per MMBtu; minimum price fluctuation may vary by trade type. Please see Table in Resolution 1 to this Chapter 18.

Listing Cycle: Up to 120 consecutive monthly Contract Periods, or as otherwise determined by the Exchange

Last Trading Day: The last Business Day prior to the first calendar day of the Contract Period

Final Settlement: Average of the Reference Price A prices minus Reference Price B

REFERENCE PRICE A: NATURAL GAS-TRANSCONTINENTAL GAS PIPELINE, ZONE 5 DELIVERED SOUTH-GAS DAILY

- a) **Ref Price A - Description:** "NATURAL GAS-TRANSCONTINENTAL GAS PIPELINE, ZONE 5 DELIVERED SOUTH-GAS DAILY" means that the price for a Pricing Date will be that day's Specified Price per MMBTU of natural gas for delivery on the Delivery Date, stated in U.S. Dollars, published under the heading "Final Daily Gas Indices (\$/MMBtu): Northeast: Transco, zone 5 del. South: Midpoint" in the issue of Gas Daily that reports prices effective on that Pricing Date.
- b) **Ref Price A - Pricing Date:** Each day that prices are reported for the Delivery Date
- c) **Ref Price A - Specified Price:** Midpoint
- d) **Ref Price A - Pricing calendar:** Gas Daily
- e) **Ref Price A - Delivery Date:** Each calendar day in the Contract Period

REFERENCE PRICE B: NATURAL GAS-TRANSCONTINENTAL GAS PIPELINE, ZONE 5 DELIVERED SOUTH-INSIDE FERC

- a) **Ref Price B - Description:** "NATURAL GAS-TRANSCONTINENTAL GAS PIPELINE, ZONE 5 DELIVERED SOUTH-INSIDE FERC" means that the price for a Pricing Date will be that day's Specified Price per MMBTU of natural gas for delivery on the Delivery Date, stated in U.S. Dollars, published under the heading "Monthly Bidweek Spot Gas Prices (\$/MMBtu): Northeast: Transco, zone 5 del. South: Index " in the issue of Inside FERC that reports prices effective on that Pricing Date.

- b) **Ref Price B - Pricing Date:** First publication date of Contract Period
- c) **Ref Price B - Specified Price:** Index
- d) **Ref Price B - Pricing calendar:** Inside FERC
- e) **Ref Price B - Delivery Date:** Contract Period

Final Payment Date: The third Clearing Organization business day following the Last Trading Day

MIC Code: IFED

Clearing Venue: ICEU

18.A.252 Transco Zone 5 South Swing Future

Description: A daily cash settled Exchange Futures Contract based upon the daily price published by Gas Daily for the location specified in Reference Price A.

Contract Symbol: T5C

Settlement Method: Cash settlement

Contract Size: 2500 MMBtus

Currency: USD

Minimum Price Fluctuation: The price quotation convention shall be One hundredth of a cent (\$0.0001) per MMBtu; minimum price fluctuation may vary by trade type. Please see Table in Resolution 1 to this Chapter 18.

Listing Cycle: Up to 65 consecutive daily Contract Periods, or as otherwise determined by the Exchange

Last Trading Day: The Business Day prior to the Contract Period

Final Settlement: Reference Price A

REFERENCE PRICE A: NATURAL GAS-TRANSCONTINENTAL GAS PIPELINE, ZONE 5 DELIVERED SOUTH-GAS DAILY

- a) **Ref Price A - Description:** "NATURAL GAS-TRANSCONTINENTAL GAS PIPELINE, ZONE 5 DELIVERED SOUTH-GAS DAILY" means that the price for a Pricing Date will be that day's Specified Price per MMBTU of natural gas for delivery on the Delivery Date, stated in U.S. Dollars, published under the heading "Final Daily Gas Indices (\$/MMBtu): Northeast: Transco, zone 5 del. South: Midpoint" in the issue of Gas Daily that reports prices effective on that Pricing Date.
- b) **Ref Price A - Pricing Date:** Each day that prices are reported for the Delivery Date
- c) **Ref Price A - Specified Price:** Midpoint
- d) **Ref Price A - Pricing calendar:** Gas Daily
- e) **Ref Price A - Delivery Date:** Contract Period

Final Payment Date: The third Clearing Organization business day following the Last Trading Day

MIC Code: IFED

Clearing Venue: ICEU

MIC Code: IFED

Clearing Venue: ICEU

18.B.405 Mead 230 Day-Ahead Peak Fixed Price Future

Description: A monthly cash settled Exchange Futures Contract based upon the mathematical average of daily prices calculated by averaging the peak hourly electricity prices published by ICE for the location specified in Reference Price A.

Contract Symbol: MBW

Settlement Method: Cash Settlement

Contract Size: 1 MW

Currency: USD

Minimum Price Fluctuation: The price quotation convention shall be one cent (\$0.01) per MWh; minimum price fluctuation may vary by trade type. Please see Table in Resolution 1 to this Chapter 18.

Listing Cycle: Up to 50 consecutive monthly contract periods, or as otherwise determined by the Exchange

Last Trading Day: The last Business Day prior to the Contract Period

Final Settlement: Average of Reference Price A Prices

REFERENCE PRICE A: ELECTRICITY-MEAD 230 PEAK-ICE

- a) **Description:** "ELECTRICITY-MEAD 230 PEAK-ICE" means that the price for a Pricing Date will be that day's Specified Price per MWh of on-peak electricity for delivery on the Delivery Date, stated in U.S. Dollars, published by ICE at www.theice.com, under the headings "Day Ahead Power: ICE Daily Indices: Hub: Mead 230 Peak: Wtd Avg Index" or any successor headings, that reports prices effective on that Pricing Date.
- b) **Pricing Date:** Each Monday through Saturday, excluding NERC holidays, that prices are reported for the Delivery Date
- c) **Specified Price:** Avg
- d) **Pricing calendar:** ICE
- e) **Delivery Date:** Contract Period

Final Payment Date: The first Clearing Organization business day following the Last Trading Day

MIC Code: IFED

Clearing Venue: ICEU

18.B.404 Mead 230 Day-Ahead Off-Peak Fixed Price Future

Description: A monthly cash settled Exchange Futures Contract based upon the mathematical average of daily prices calculated by averaging the off-peak hourly electricity prices published by ICE for the location specified in Reference Price A.

Contract Symbol: MBX

Settlement Method: Cash Settlement

Contract Size: 1 MW

Currency: USD

Minimum Price Fluctuation: The price quotation convention shall be one cent (\$0.01) per MWh; minimum price fluctuation may vary by trade type. Please see Table in Resolution 1 to this Chapter 18.

Listing Cycle: Up to 50 consecutive monthly contract periods, or as otherwise determined by the Exchange

Last Trading Day: The last Business Day prior to the Contract Period

Final Settlement: Average of Reference Price A Prices

REFERENCE PRICE A: ELECTRICITY-MEAD 230 OFF-PEAK-ICE

- a) **Description:** "ELECTRICITY-MEAD 230 OFF-PEAK-ICE" means that the price for a Pricing Date will be that day's Specified Price per MWH of on-peak electricity for delivery on the Delivery Date, stated in U.S. Dollars, published by ICE at www.theice.com, under the headings "Day Ahead Power: ICE Daily Indices: Hub: Mead 230 Peak: Wtd Avg Index" or any successor headings, that reports prices effective on that Pricing Date.
- b) **Pricing Date:** Each day that prices are reported for the Delivery Date
- c) **Specified Price:** Avg
- d) **Pricing calendar:** ICE
- e) **Delivery Date:** Contract Period

Final Payment Date: The first Clearing Organization business day following the Last Trading Day

MIC Code: IFED

Clearing Venue: ICEU

18.B.398 ERCOT North 345KV Hub Real-Time Peak Daily HE 1000-1700 Fixed Price Future

Description: A daily cash settled Exchange Futures Contract based upon the mathematical average of hourly electricity prices published by ERCOT for the location specified in Reference Price A.

Contract Symbol: EDD

Settlement Method: Cash Settlement

Contract Size: 40 MWh

Currency: USD

Minimum Price Fluctuation: The price quotation convention shall be one cent (\$0.01) per MWh; minimum price fluctuation may vary by trade type. Please see Table in Resolution 1 to this Chapter 18.

Listing Cycle: Up to 365 consecutive daily Contract Periods, or as otherwise determined by the Exchange

Last Trading Day: The Business Day prior to the Contract Period

Final Settlement: Reference Price A

REFERENCE PRICE A: ELECTRICITY-ERCOT-NORTH 345KV HUB-REAL TIME

- a) **Description:** "ELECTRICITY-ERCOT-NORTH 345KV HUB-REAL TIME" means that the price for a Pricing Date will be that day's Specified Price per MWh of electricity for delivery on the Delivery Date, stated in U.S. Dollars, published by the ERCOT at http://www.ercot.com/content/cdr/html/real_time_spp
- b) **Pricing Date:** Each day that prices are reported for the Delivery Date
- c) **Specified Price:** Average of SPPs for all hours ending 1000-1700 CPT
- d) **Pricing calendar:** ERCOT
- e) **Delivery Date:** Contract Period

Final Payment Date: The sixth Clearing Organization business day following the Last Trading Day

MIC Code: IFED

Clearing Venue: ICEU

18.B.410 PJM Western Hub Day-Ahead Peak Daily Mini Fixed Price Future

Description: A daily cash settled Exchange Futures Contract based upon the mathematical average of peak hourly electricity prices published by PJM for the location specified in Reference Price A.

Contract Symbol: PJL

Settlement Method: Cash Settlement

Contract Size: 16 MWh

Currency: USD

Minimum Price Fluctuation: The price quotation convention shall be one cent (\$0.01) per MWh; minimum price fluctuation may vary by trade type. Please see Table in Resolution 1 to this Chapter 18.

Listing Cycle: Up to 365 consecutive daily Contract Periods, or as otherwise determined by the Exchange

Last Trading Day: The last Business Day prior to the Contract Period

Final Settlement: Reference Price A

REFERENCE PRICE A: ELECTRICITY-PJM-WESTERN HUB-DAY AHEAD

- a) **Description:** "ELECTRICITY-PJM-WESTERN HUB-DAY AHEAD" means that the price for a Pricing Date will be that day's Specified Price per MWh of electricity for delivery on the Delivery Date, stated in U.S. Dollars, published by the PJM at <http://www.pjm.com/markets/energy-market/day-ahead.html>, under the headings "Daily Day-Ahead Locational Marginal Pricing (LMP): LMP Day-Ahead Data: WESTERN HUB" or any successor headings, that reports prices effective on that Pricing Date.
- b) **Pricing Date:** Each day that prices are reported for the Delivery Date
- c) **Specified Price:** Average of LMPs for all hours ending 0800-2300 EPT
- d) **Pricing calendar:** PJM
- e) **Delivery Date:** Contract Period

Final Payment Date: The third Clearing Organization business day following the Last Trading Day

MIC Code: IFED

Clearing Venue: ICEU

18.B.394 CAISO SP-15 Day-Ahead Peak Daily Mini Fixed Price Future

Description: A daily cash settled Exchange Futures Contract based upon the mathematical average of peak hourly electricity prices published by CAISO for the location specified in Reference Price A.

Contract Symbol: CNI

Settlement Method: Cash Settlement

Contract Size: 16 MWh

Currency: USD

Minimum Price Fluctuation: The price quotation convention shall be one cent (\$0.01) per MWh; minimum price fluctuation may vary by trade type. Please see Table in Resolution 1 to this Chapter 18.

Listing Cycle: Up to 365 consecutive daily Contract Periods, or as otherwise determined by the Exchange

Last Trading Day: The last Business Day prior to the Contract Period

Final Settlement: Reference Price A

REFERENCE PRICE A: ELECTRICITY-CAISO-SP15-DAY AHEAD

- a) **Description:** "ELECTRICITY-CAISO-SP15-DAY AHEAD" means that the price for a Pricing Date will be that day's specified Price per MWh of electricity for delivery on the Delivery Date, stated in U.S. Dollars, published by the California ISO at <http://oasis.caiso.com/mrioasis/logon.do>, under the headings "Prices: Report: Interval Locational Marginal Prices: P/APNode ID: TH SP15 GEN-APND that reports prices effective on that Pricing Date.
- b) **Pricing Date:** Each day that prices are reported for the Delivery Date
- c) **Specified Price:** Average of LMPs for all hours ending 0700-2200 PPT
- d) **Pricing calendar:** CAISO
- e) **Delivery Date:** Contract Period

Final Payment Date: The fifth Clearing Organization business day following the Last Trading Day

MIC Code: IFED

Clearing Venue: ICEU

18.B.391 CAISO NP-15 Day-Ahead Peak Daily Mini Fixed Price Future

Description: A daily cash settled Exchange Futures Contract based upon the mathematical average of peak hourly electricity prices published by CAISO for the location specified in Reference Price A.

Contract Symbol: CNJ

Settlement Method: Cash Settlement

Contract Size: 16 MWh

Currency: USD

Minimum Price Fluctuation: The price quotation convention shall be one cent (\$0.01) per MWh; minimum price fluctuation may vary by trade type. Please see Table in Resolution 1 to this Chapter 18.
