Re: CBOE Futures Exchange, LLC Rule Certification
Submission Number CFE-2014-025

Dear Mr. Kirkpatrick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended ("Act"), and §40.6(a) of the regulations promulgated by the Commodity Futures Trading Commission ("CFTC" or "Commission") under the Act, CBOE Futures Exchange, LLC ("CFE" or "Exchange") hereby submits a CFE rule amendment ("Amendment") to: (1) change the last trading day for the CBOE Volatility Index ("VIX") futures contract from the business day prior to the final settlement date to the final settlement date; (2) permit trading in an expiring VIX futures contract during a portion of extended trading hours on its final settlement date; and (3) prohibit Trade at Settlement ("TAS") transactions in an expiring VIX futures contract during the business day of its final settlement date. To implement these changes, the Exchange is amending various portions of CFE Rule 1202 which sets forth the contract specifications for VIX futures. The changes provided for in this Amendment will apply to all VIX futures contracts currently listed for trading on CFE as well as to all VIX futures contracts first listed for trading on or after the effective date of this Amendment. The Amendment will become effective on or after November 18, 2014, on a date to be announced by the Exchange through the issuance of a circular.

Currently, expiring VIX futures stop trading on the business day immediately preceding their final settlement date.¹ The Amendment permits trading in an expiring VIX futures contract during extended trading hours until 7:00 a.m. (Chicago time) on its final settlement date.² Due to the continued growth in VIX futures trading, the Exchange believes that there is demand to trade in expiring VIX futures contracts during a portion of extended trading hours on the final settlement date prior to the final settlement. There will be a one-and-a-half hour time period from

¹ The final settlement date for the VIX futures contract is on the Wednesday that is thirty days prior to the third Friday of the calendar month immediately following the month in which the applicable VIX futures contract expires. If the third Friday of the month subsequent to expiration of the applicable VIX futures contract is a Chicago Board Options Exchange, Incorporated ("CBOE") holiday, the final settlement date for the contract is thirty days prior to the CBOE business day immediately preceding that Friday.

² The extended and regular trading hours for VIX futures are set forth in charts contained in Rule 1202(b) and are set forth in this rule certification for reference. Trading in a non-expiring VIX futures contract would continue to be permitted during the entire trading session on the business day of the final settlement date for the expiring VIX futures contract.

7:00 a.m. to 8:30 a.m. (Chicago time) between the end of trading hours in an expiring VIX futures contract and final settlement (which is determined at approximately 8:30 a.m. (Chicago time) through the opening process for options on the S&P 500 Composite Stock Price Index ("S&P 500 Index") traded on CBOE). Overnight moves in the S&P 500 Index can be significant. As a result, the Exchange believes that allowing trading during a portion of extended trading hours on the final settlement date prior to final settlement will provide an opportunity for market participants to trade out of their positions that may have been impacted by overnight moves. TAS transactions in an expiring VIX futures contract will be prohibited during the business day of its final settlement date.

CFE believes that the Amendment is consistent with Designated Contract Market Core Principles 7 (Availability of General Information) and 9 (Execution of Transactions) under Section 5 of the Act. In particular, CFE's Rules will describe to market participants when an expiring VIX futures contract may be traded on its final settlement date. Also, permitting trading in an expiring VIX futures contract during a portion of extended trading hours on its final settlement date benefits the marketplace by providing an opportunity for market participants to trade out of positions prior to the final settlement.

CFE believes that the impact of the Amendment will be beneficial to the public and market participants. CFE is not aware of any substantive opposing views to the Amendment. CFE hereby certifies that the Amendment complies with the Act and the regulations thereunder. CFE further certifies that CFE has posted a notice of pending certification with the Commission and a copy of this submission on CFE's Web site (<http://cfe.cboe.com/aboutcfe/rules.aspx>) concurrent with the filing of this submission with the Commission.

The Amendment, marked to show additions in underlined text and deletions in [bracketed] text, consists of the following:

*A holiday trading session includes extended trading hours on the calendar day of the holiday and any extended trading hours for the holiday on the previous calendar day. Holiday trading sessions are not separate Business Days and are part of the next Business Day. Trading in VIX futures is halted between sessions of extended trading hours on the calendar day of a holiday. The CBOE System will complete the processing of trades that are in the course of being processed by the CBOE System prior to the start of such a halt period. Since these halt periods are a regular feature for certain holiday trading sessions in VIX futures, they shall not be considered the declaration of a trading halt by the Exchange. Trades in VIX futures made during a holiday trading session will be submitted for clearing for the next Business Day.

[All Orders, quotes, cancellations and Order modifications for VIX futures during trading hours must be received by the Exchange by no later than one second prior to the close of trading hours at the end of a Business Day and will be automatically rejected if received by the Exchange during trading hours after this cut-off time.]

The end of day submission cut-off time for all Orders, quotes, cancellations and Order modifications for VIX futures (other than for the expiring VIX future on its final settlement date) is 3:14:59 p.m. Chicago time. Any Orders, quotes, cancellations or Order modifications submitted after the end of day submission cut-off time will be automatically rejected by the Exchange.

Market Orders for VIX futures contracts will not be accepted by the Exchange during extended trading hours for the VIX futures contract or during any other time period outside of regular trading hours for the VIX futures contract. Any Market Orders for VIX futures contracts received by the Exchange outside of regular trading hours for the VIX futures contract will be automatically rejected.

(c) – (d) No change.

(e) *Termination of Trading.* [Trading on the VIX futures contract terminates on the Business Day immediately preceding the final settlement date of the VIX futures contract for the relevant spot month and trading in an expiring VIX futures contract is not permitted during extended trading hours for an expiration day trading session. When the last trading day is moved because of an Exchange holiday, the last trading day for an expiring VIX futures contract will be the day immediately preceding the last regularly-scheduled trading day.]

Trading hours for expiring VIX futures contracts end at 7:00 a.m. Chicago time on the final settlement date.

The expiring VIX future will be put in a closed state at 6:59:59 a.m. Chicago time on its final settlement date. As a result, no Orders, quotes, or Order modifications in the expiring VIX future will be accepted by the CBOE System at or after 6:59:59 a.m. Chicago time on its final settlement date. The CBOE System will complete the processing of any trades in the expiring VIX future on its final settlement date that are matched by the CBOE System and that the CBOE System begins to process prior to 6:59:59 a.m. Chicago time. The CBOE System will not process any trades in the expiring VIX future on its final settlement date that the CBOE System does not match and begin to process prior to 6:59:59 a.m. Chicago time.

(f) – (p) No change.

(q) *Trade at Settlement Transactions.* Trade at Settlement ("TAS") transactions pursuant to Rule 404A are permitted in VIX futures and may be transacted on the CBOE System, as spread transactions, as Block Trades (including as spread transactions but not as a strip) and as Exchange of Contract for Related Position transactions. The trading hours for all types of TAS transactions in VIX futures are during extended trading hours and during regular trading hours until three minutes prior to the close of regular trading hours at the end of a Business Day. TAS transactions in an expiring VIX futures contract are not permitted during the Business Day of its final settlement date. All Orders, quotes, cancellations and Order modifications for TAS transactions during trading hours must be received by the Exchange by no later than three minutes and one second prior to the close of trading hours at the end of a Business Day and will be automatically rejected if received by the Exchange during trading hours after this cutoff time. Any TAS Block Trade or TAS Exchange of Contract for Related Position transaction reported to the Exchange later than three minutes prior to the close of regular trading hours at the end of a Business Day may only be for the next Business Day.

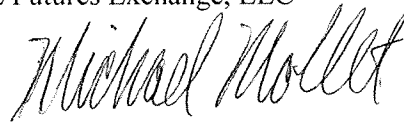

The permissible price range for all types of TAS transactions in VIX futures is from \$100 (0.10 index points x \$1,000) below the daily settlement price to \$100 above the daily settlement price. The permissible minimum increment for TAS non-spread transactions in VIX futures that are transacted on the CBOE System is 0.01 index points, and the permissible minimum increment for TAS spread transactions, Block Trades and Exchange of Contract for Related Position transactions in VIX futures is 0.01 index points.

(r) – (s) No change.
