Last Trading Day for Defined (Fixed) Tenors	The last day on which the contract can be traded is the New York business day preceding the Maturity Date
Settlement Procedure	Bilateral settlement performed in settlement currency
Quoting Convention	A currency pair is the quotation of the relative value of a currency unit against the unit of another currency in the foreign exchange market SwapEx follows market convention with regards to quoting, but allows users the flexibility with regards to whether the quantity traded is expressed in base or terms notional. NDFs can be quoted up to 6 decimal places.

For the Cross-Rate NDFs, the cash settlement price will be derived from a combination of (1) the Spot Rate identified in the relevant EMTA Template for an NDF comprised of the applicable Reference Currency assuming USD as Settlement Currency (the “Non-Deliverable Component Pair”) and (2) the WM/Reuters 4pm Closing Spot Rate for the applicable Settlement Currency against USD. Therefore, in addition to the above, all of the template terms for the confirmation of an NDF transaction in the currency pair that represents the Non-Deliverable Component Pair of a particular Contract, as the term Contract is defined in SwapEx’s rules, as recommended by EMTA, Inc. (“**EMTA**”) or a recognized successor (such template terms in effect on the Effective Date and published and available at www.emta.org or any successor website, the “Relevant EMTA Template”) shall apply to such Contract. For the avoidance of doubt, if the Relevant EMTA template becomes effective after the Effective Date of a Contract, such Relevant EMTA Template shall not apply to or amend the terms of such Contract.
