The Exchange reviewed the designated contracts market core principles (“Core Principles”) as set forth in the Commodity Exchange Act (“CEA” or “Act”) and identified that the Contracts may have some bearing on the following Core Principles:

- **Compliance with Rules:** Trading in the Contracts will be subject to the rules in Rulebook Chapter 4 which includes prohibitions against fraudulent, noncompetitive, unfair and abusive practices. Additionally, trading in the Contracts will also be subject to the full panoply of trade practice rules, the majority of which are contained in Chapter 5 and Chapter 8 of the Rulebook. As with all products listed for trading on one of CME Group’s designated contract markets, activity in the new product will be subject to extensive monitoring and surveillance by CME Group’s Market Regulation Department. The Market Regulation Department has the authority to exercise its investigatory and enforcement power where potential rule violations are identified.
- **Contract Not Readily Subject to Manipulation:** The Contracts are not readily susceptible to manipulation and are based on the deep liquidity of the underlying futures contracts.
- **Prevention of Market Disruption:** Trading in the Contracts will be subject to the Rules of COMEX which include prohibitions on manipulation, price distortion and disruptions of the delivery or cash-settlement process. As with all products listed for trading on one of CME Group’s designated contract markets, activity in the new products will be subject to extensive monitoring and surveillance by CME Group’s Market Regulation Department.
- **Position Limitations or Accountability:** The speculative position limits for the Contracts as demonstrated in this submission are consistent with the Commission’s guidance.
- **Availability of General Information:** The Exchange will publish on its website information regarding contract specifications, terms and conditions, as well as daily trading volume, open interest and price information for the Contracts.
- **Daily Publication of Trading Information:** The Exchange will publish information contract trading volumes, open interest levels, and price information daily on its website and through quote vendors for the Contracts.
- **Execution of Transactions:** The Contracts will be listed for trading on the CME Globex electronic trading and for clearing through CME ClearPort. The CME Globex trading venue provides for competitive and open execution of transactions. CME Globex affords the benefits of reliability and global connectivity.

- **Trade Information:** All required trade information for the Contracts will be included in the audit trail and is sufficient for the Market Regulation Department to monitor for market abuse.
- **Financial Integrity of Contract:** The Contracts will be cleared by the CME Clearing House which is a registered derivatives clearing organization with the Commission and is subject to all Commission regulations related thereto.
- **Protection of Market Participants:** COMEX Rulebook Chapters 4 and 5 contain multiple prohibitions precluding intermediaries from disadvantaging their customers. These rules apply to trading on all of the Exchange's competitive trading venues and will be applicable to transactions in these Contracts.
- **Disciplinary Procedures:** Chapter 4 of the Rulebook contains provisions that allow the Exchange to discipline, suspend or expel members or market participants that violate the rules. Trading in these Contracts will be subject to Chapter 4, and the Market Regulation Department has the authority to exercise its enforcement power in the event rule violations in these Contracts are identified.
- **Dispute Resolution:** Disputes with respect to trading in the Contracts will be subject to the arbitration provisions set forth in Chapter 6 of the Rulebook. The rules in Chapter 6 allow all nonmembers to submit a claim for financial losses resulting from transactions on the Exchange to arbitration. A member named as a respondent in a claim submitted by a nonmember is required to participate in the arbitration pursuant to the rules in Chapter 6. Additionally, the Exchange requires that members resolve all disputes concerning transactions on the Exchange via arbitration.

Pursuant to Section 5c(c) of the Act and CFTC Regulations 40.2(a), the Exchange hereby certifies that listing the Contracts complies with the Act, including regulations under the Act. There were no substantive opposing views to the proposal.

The Exchange certifies that this submission has been concurrently posted on the CME Group website at <http://www.cmegroup.com/market-regulation/rule-filings.html>.

Should you have any questions concerning the above, please contact the undersigned at (212) 299-2200 or via e-mail at CMEGSubmissionInquiry@cmegroup.com.

Sincerely,

/s/ Christopher Bowen
 Managing Director and Chief Regulatory Counsel

Cash Market Overview and Analysis of Deliverable Supply

Appendix C to part 38 of the Commission's regulations defines deliverable supply as "the quantity of the commodity meeting the contract's delivery specifications that can reasonably be expected to be readily available to short traders and saleable by long traders at its market value in normal cash marketing channels at the derivative contract's delivery points during the specified delivery period, barring abnormal movement in interstate commerce."

The Monday and Wednesday Weekly Copper Option contracts (the "Contracts") are referenced contracts and will be subject to federal position limits during the spot month. The core referenced futures contract is the Copper Futures contract (Commodity Code: HG; Rulebook Chapter 111).

Deliverable supply is defined as material that is readily available and meets the Exchange futures contracts' specifications in terms of shape, weight, and quality. As general practice, COMEX has relied on inventory stored in Exchange approved facilities to support spot month position limits of its physically delivered futures contracts. The proposal for spot month position limits for the weekly option contracts is based on the deliverable supply analysis of their respective futures contracts as the option contracts will aggregate into the futures contracts for position limit purposes.

Approved Warehouses and Stock Reporting Requirements

To date, Exchange approved warehouses for copper Arizona Commodity Storage, Inc., C. Steinweg (Baltimore), Inc., Tucson Port Authority, LLC, Utah Commodity Storage, Inc., 4 STOX NV, Access World (USA) LLC, Metal Ox Warehousing, Inc., Kodiak Warehouse, LLC, and Stagecoach Cartage and Distribution, LLC.

Pursuant to the rules of the Exchange, each warehouse is required to report to the Exchange the level of Exchange grade inventory on a daily basis. The inventory shall include eligible and registered metal. Eligible metal shall mean all such metal that is acceptable for delivery against the respective Exchange futures contract (i.e., which meets the specifications and approved brands of the respective futures contract) for which a warrant has not been issued. Registered metal shall mean eligible metal for which a warrant has been issued. Specifically, on a daily basis, each warehouse is required to provide the Exchange (1) the total quantity of registered metal stored at the warehouse, (2) the total quantity of eligible metal stored at the warehouse, and (3) the quantity of eligible metal and registered metal received and withdrawn from the warehouse.

The inventory levels at all Exchange-approved warehouses for copper are made publicly available daily on the Exchange website.¹ Further, the rules of the Exchange require an independent inventory audit to be performed annually to provide a comprehensive reconciliation of stocks stored at warehouses with records maintained by both the Exchange and the warehouse.²

For the most recent three-year period, February 2019 through January 2022, the monthly average registered inventory for copper was 3,931 futures contract equivalents. For the same time period, the monthly average eligible inventory for copper was 546 futures contract equivalents. The Exchange estimates the average monthly deliverable supply for the most recent three-year period to be 4,478 futures contract equivalents. The proposed spot month position limit for the Contracts of 1,000 contracts represents 22.33% of the estimated deliverable supply.
