**Re: CFTC Regulation 40.4(b)(5). Non-Material Agricultural Rule Changes for CBOT KC HRW Wheat Futures and Mini-Sized KC HRW Wheat Futures
CFTC Regulation 40.6(d). Notification of Amendments to KC HRW Wheat Futures, Options on KC HRW Wheat Futures and KC HRW-CBOT Wheat Intercommodity Spread Options
CBOT Submission No. 17-188**

Dear Mr. Kirkpatrick:

Pursuant to Commodity Futures Trading Commission (“CFTC” or “Commission”) Regulations 40.4(b)(5), The Board of Trade of the City of Chicago, Inc. (“CBOT” or “Exchange”) is notifying the CFTC that it is self-certifying non-material agricultural rule amendments to CBOT Chapters 14H (“KC HRW Wheat Futures”), and 14N (“Mini-Sized KC HRW Wheat Futures”).

The non-material agricultural rule changes (the “Product Chapters Rule Amendments”) are summarized in detail below and include (1) elimination of regularity, load-out and failure to load out rules as those rules will be migrated into Exchange Chapter 7, Rule 703 (“Regular Warehouses and Shipping Stations”) (see CBOT Submission No. 17-187); (2) elimination of rules pertaining to inspection and insurance rules as those will be migrated into Chapter 7, Rule 704 (“Inspection”) and Rule 705 (“Insurance”); (3) elimination of Exchange rules contained in the product chapters relating to registration of delivery instrument, delivery defaults and bankruptcy as Exchange rules governing delivery and registration (Rule 712), delivery procedures (Rule 713), failure to deliver (Rule 714), and failure to accept delivery or remit full payment (Rule 715) shall be applicable to KC HRW Wheat futures contracts.

The Product Chapters Rule Amendments are deemed non-material because the delivery, load-out and regularity rules are being migrated from the Product Chapter and into Exchange Chapter 7 (CBOT Submission No. 17-187) consistent with other grain futures listed on CBOT and certain amendments, as detailed below, are being implemented in support of the implementation of a variable storage rate and change of delivery instrument from warehouse receipt to shipping certificate (CBOT Submission No. 17-134). In addition to being migrated into Chapter 7, the rule governing the approval term for warehouse regularity for KC HRW Wheat is being amended from 1 year to 2 years in line with the term of approval for other grain futures listed on CBOT. Additionally, the warehouse minimum financial obligation is being amended from a requirement of a net worth of \$0.15 per bushel of approved capacity to a minimum total net worth of \$5,000,000. Given that all KC HRW Wheat facilities currently meet all such new financial net worth requirements, the Exchange believes that the Product Chapters Rule Amendments herein are non-material. The amendments herein shall have no impact on value of open positions in the contracts.

The Product Chapters Rule Amendments are being made in conjunction with CBOT Submission No. 17-187, self-certification of non-material agricultural rule amendments to CBOT Chapter 7 (“Delivery Rules and Procedures”) containing the migration of delivery rules, delivery procedures and regularity rules for KC HRW Wheat futures from the futures contract rule chapter and into Chapter 7, consistent with other CBOT physically delivered agricultural futures.

The implementation of the Product Chapters Rule Amendments is contingent on the approval from the CFTC of CBOT Submission No. 17-134, filed May 22, 2017. Submission 17-134 requests Commission approval to implement a Variable Storage Rate (VSR) mechanism for KC HRW Wheat and Mini-Sized KC HRW Wheat futures contracts (the "Contracts"), amend the Contracts' delivery instrument and amend the Contracts' last delivery date.

The Product Chapters Rule Amendments shall take effect upon approval of CBOT Submission No. 17-134 or after the regulatory review period for this filing has expired, whichever is later. Additionally, the Product Chapters Rule Amendments shall take effect concurrent with the effective date of CBOT Submission No. 17-187 to implement the migration of delivery, load-out and regularity rules into Exchange Chapter 7.

A summary of the Product Chapters Rule Amendments is presented below.

1. Chapter 14H, Rule 14H01 ("Contract Specifications"). Remove references to outstanding receipts without the 10 IDK (Insect Damaged Kernels) indication as those receipts are no longer registered and outstanding.
2. Chapter 14H, Rule 14H02 ("Trading Specifications"). (1) Harmonize style and eliminate unnecessary provisions; and (2) for contracts through December 2017 expiration, add omitted language as to deadline to last delivery and tender dates and deadline to EFRP after last trade date for liquidation purposes.
3. Chapter 14H, Rule 14H03 ("Exchange Fees"). Delete rule as the Exchange does not include provisions to amend Exchange trading and clearing fees in the product terms and conditions.
4. Chapter 14H, Rule 14H04 ("Grade and Grade Differentials"). (1) Remove obsolete language, (2) Remove references to outstanding receipts without the 10 IDK indication as those receipts are no longer registered and outstanding, and (3) Insert maximum vomitoxin levels of 2.0 parts per million.
5. Chapter 14H, Rule 14H05 ("Location Differentials"). Implement stylistic changes to mirror Location Differentials rule in other CBOT products.
6. Chapter 14H, Rule 14H07 ("Deliveries; Clearing House"). (1) Retitle Rule to "Finality of USDA or Other Required Inspection Certificate" and limit applicability of inspection on warehouse receipts to contracts through December 2017 contract month, (2) as inspection requirements are being migrated into Exchange Rule 704, at the expiration of December 2017 contract, delete Rule 14H11 except as noted in item (3) below; and (3) Retitle and renumber Rule 14H11.A ("No Freight Requirements") relating to transit billing as follows: New Rule 14H10 ("Billing").

11. Chapter 14H, Rule 14H13 ("Load-Out"). With the exception of Rule 14H13.F ("Storage Charges Cease"), delete Rule 14H13 since provisions relating to load-out, load-out fees, suitable transportation and vomitoxin restrictions are being migrated to Exchange Rule 703.C. and provisions for a failure to load out under Rule 14H13.G ("Default on Remaining Delivery Obligation") shall be replaced with those under Exchange Rule 703.D (Failure to Load-Out). Rule 14H13.F ("Storage Charges Cease") shall be renumbered as new Rule 14H12 and the applicability of the rule shall be limited to contracts through December 2017 contract month. After the expiration of the December 2017 contract month, Rule 14H12 shall be deleted.

12. Chapter 14H, Rule 14H16 (“Regularity”). Delete Rule 14H16 since provisions thereunder are being migrated to Exchange Chapter 7 or are already covered in Chapter 7 as follows: (1) Regularity provisions migrated into Exchange Rule 703.A and regularity term amended from 1 year to 2 years; (2) Insurance provisions are covered under Exchange Rule 705; (3) Financial requirements for firms are being migrated into Exchange Rule 708 and amended from a requirement of a net worth of \$0.15 per bushel of approved capacity to a minimum total net worth of \$5,000,000 (all currently approved KC HRW Wheat firms meet this new requirement); and (4) provisions relating to KC HRW Incentive Program Participants and Permit Holders are being deleted since the program expired. Insert new Rule 14H09 (“Regularity of Facilities and Issuers of Warehouse Receipts/Shipping Certificates”) which shall refer to Exchange Rule 703.
13. Chapter 14H, Rule 14H17 (“Warehouse Receipts”). Delete rule as provisions of the rule are covered under Exchange Rules 703.C (cancellation for load out) and 712 (delivery and registration).

(1) Delete as provisions for load out procedures are being integrated in the Interpretation & Special Notices section of Chapter 7; and (2) delete list of approved elevators and capacities for KC HRW Wheat as they are being integrated in the Interpretation & Special Notices section of Chapter 7.
15. Chapter 14N, Rule 14N02 (“Trading Specifications”). For contracts through December 2017 expiration, add omitted language as to deadline to last delivery and tender dates and deadline to EFRP after last trade date for liquidation purposes.
16. Chapter 14N, Rule 14N04 (“Grade and Grade Differentials”). (1) Remove references to outstanding receipts without the 10 IDK indication as those receipts are no longer registered and outstanding, and (2) insert maximum vomitoxin levels of 2.0 parts per million.
