Submission No. 21-79 (12 of 34)  
September 8, 2021

Mr. Christopher J. Kirkpatrick  
Secretary of the Commission  
Office of the Secretariat  
Commodity Futures Trading Commission  
Three Lafayette Centre  
1155 21<sup>st</sup> Street, NW  
Washington, DC 20581

**Re: New MSCI Emerging Market Latin America NTR Index Future TIC+ Second Month Futures Contract (12 of 34) -- Submission Pursuant to Section 5c(c)(1) of the Act and Regulation 40.2**

Dear Mr. Kirkpatrick:

Pursuant to Commission Regulation 40.2, ICE Futures U.S., Inc. (“Exchange” or “IFUS”) submits, by written certification the terms and conditions for 34 new TIC+ contracts based on 17 existing MSCI Index futures contracts. The contract specifications are set forth in Exhibit A and the Rules setting forth the relevant terms are contained in Exhibits B, C and D to this submission.

The Exchange currently lists a number of futures contracts based on various MSCI equity indexes which have quarterly expirations. The TIC+ futures contracts (“TIC+ contracts”) are daily contracts which are based on the same underlying MSCI Index as quarterly futures contracts currently listed by the Exchange. The daily contracts will provide market participants with a new way to trade the corresponding MSCI quarterly futures contract at a differential to the closing price of the underlying MSCI cash index, on a particular day. While the Exchange currently allows Block Trade at Index Close (“BTIC”) trading in each of the quarterly futures contracts, only same day pricing is supported. The new TIC+ contracts will allow participants to price positions in the related quarterly futures contract against the value of the relevant underlying MSCI cash index over the nearest five trading days, on a rolling 5-day basis.

The Exchange plans to list two TIC+ contract series for each of 17 indexes -- one that references the front listed month and another that references the second listed month of the related MSCI quarterly futures contract.<sup>1</sup> The nearest five business days (“Eligible Contract Dates”) will be listed for each TIC+ contract series and each futures contract will be quoted at a premium or

---

<sup>1</sup>On the last trading day of the quarterly futures contracts, the Front TIC+ month will reference the second and the Second TIC+ month will reference the third listed month of the related quarterly futures contract.

discount (in index points) to the anticipated closing price of the relevant MSCI cash index on the Last Trading Day of the TIC+ contract.

To replicate a position based on the cash closing price of the related MSCI index, each TIC+ contract has both a cash settlement and a physical delivery component. Positions in a TIC+ contract that are held to expiration will: (1) be subject to cash settlement using a Final Settlement Value (“FSV”) for the TIC+ contract; and (2) generate the physical delivery of an equivalent long or short position in the related MSCI quarterly futures contract. The FSV will be calculated as the difference between the daily settlement price of the related MSCI quarterly futures contract on the Last Trading Day of the expiring TIC+ contract minus the closing index value of the related MSCI Index on that day. The futures positions in the related MSCI quarterly futures contracts will be priced at the settlement price of the related MSCI quarterly futures contract month on the Last Trading Day of the expiring TIC+ futures contract. An example of a trade that is taken to delivery is described in Exhibit A.

Trading hours, minimum block trade sizes, daily settlement times and Exchange and Clearing fees for the new TIC+ contracts will be the same as the underlying quarterly MSCI futures contracts. The No Cancellation Range, Reasonability Limit and Interval Price Limit levels are in line with similar products and set forth in Exhibit C.

Positions in the TIC+ contracts will be subject to the same Position Limit and Position Accountability levels in place for the related quarterly futures on the same index, on an aggregated basis. Participants exceeding the accountability level of any new MSCI Contract: (i) automatically consent not to increase further and automatically consent to decrease those positions when so ordered by the Exchange acting in its own discretion and (ii) must provide, in a timely manner, information on the nature of that participant’s related cash position, Exchange Futures and Options position, trading strategy and/or hedging strategy and such other relevant information as the Exchange may require. The position limits are contained in Resolution 1 to Chapter 6 of the Rules and attached as part of Exhibit D.

The Exchange currently lists quarterly futures on each of the 17 MSCI Indexes upon which the new TIC+ contracts are based. None of the 17 MSCI indexes are narrow-based securities indexes as defined in Section 1(a)35 of the Commodity Exchange Act, as amended.

### **Certifications**

The Exchange is not aware of any substantive opposing views to the new contracts, which will be listed for trading on September 27, 2021. The Exchange certifies that the rule amendments comply with the requirements of the Act and the rules and regulations promulgated thereunder. The Exchange has reviewed the designated contract market core principles (“Core Principles”) as set forth in the Act and has determined that the listing of the contract complies with the following relevant Core Principles:

#### **COMPLIANCE WITH RULES**

The terms and conditions of the new MSCI equity index contract will be enforced by the Exchange and are set forth in Chapter 23 and Rule 6.25, and the no-cancellation range

("NCR") table posted on the Reasonability Limits and NCR page of the Exchange's website as well as the Interval Price Limits table on the site. In addition, trading of the contract is subject to all relevant Exchange rules which are enforced by the Market Regulation Department.

**CONTRACTS NOT READILY SUBJECT TO MANIPULATION**

The new contracts are not readily subject to manipulation as they are based on liquid underlying broad-based equity indexes which are widely traded. In addition, trading of the new contracts will be monitored by the Exchange's Market Regulation Department.

**POSITION LIMITS OR ACCOUNTABILITY**

Positions in the new MSCI equity index contracts will be subject to the single month accountability level and all-months combined position limits set by the Exchange. Such accountability and position limits are based upon the deliverable supply in the cash market. A detailed deliverable supply analysis previously has been submitted in connection with the listing of the quarterly futures on the same underlying MSCI indexes.

**FINANCIAL INTEGRITY OF CONTRACTS**

The new contracts will be cleared by ICE Clear U.S., a registered derivatives clearing organization subject to Commission regulation, and carried by registered futures commission merchants qualified to handle customer business.

The Exchange further certifies that, concurrent with this filing, a copy of this submission was posted on the Exchange's website and may be accessed at (<https://www.theice.com/futures-us/regulation#rule-filings>).

If you have any questions or need further information, please contact me at 212-748-4021 or at [jason.fusco@theice.com](mailto:jason.fusco@theice.com).

Sincerely,

Jason V. Fusco  
Assistant General Counsel  
Market Regulation

## **EXHIBIT A**

**\*\*The prices used in the example below were selected to explain the function of the contract and do not reflect the current value of the referenced index\*\***

### **EXAMPLE:**

#### **August 24, 2021 (Trade Date)**

1. Trader A wants to buy 50 September 21 (“U21”) MSCI Emerging Market Index (“EM”) quarterly futures contracts priced against the cash index close on August 27, 2021.
2. Trader A places a bid of +0.400 index points to buy 50 Front Month MSCI Emerging Markets TIC+ futures contracts for the Eligible Contract Date of August 27, 2021.
3. Trader B hits trader A’s bid, resulting in a trade of 50 Front Month EM TIC+ futures at 0.400.
4. Trader A is long 50 Front Month EM TIC+ futures for the Eligible Contract Date of August 27, 2021 at \$0.400.  
Trader B is short 50 Front Month EM TIC+ futures for the Eligible Contract Date of August 27, 2021 at \$0.400.

#### **August 27, 2021 (Eligible Contract Date)**

1. Both Traders A and B carry their respective 50 lot Front Month TIC+ contracts positions to expiration.
2. The daily settlement price for U21 EM quarterly futures contracts is 1000.000
3. The daily closing price of the cash EM Index is 999.000

#### **Final Settlement**

1. The FSV for the Front Month EM TIC+ contracts for the Eligible Contract Date of August 27, 2021 is 1.000 (Daily Settlement Price of the U21 EM quarterly futures minus the EM Index cash closing price).
2. Traders A is assigned a 50 lot long position in the U21 EM quarterly futures contracts at a price of 1000.000.
3. Traders B is assigned a 50 lot short position in the U21 EM quarterly futures contracts at a price of 1000.000.
4. In the cash settlement of the Front Month EM TIC+ contracts, A receives and B pays the 1.000 final settlement value minus the traded premium of 0.400.

In simple terms, trading participants will receive a futures position in the related MSCI quarterly futures contract, supplemented by the cash settlement payment (which represents the difference between the futures price and the cash closing index price). They will get a payoff equivalent to the closing price of the related MSCI index plus/minus the premium or discount traded.

## EXHIBIT A

### MSCI Emerging Market Index Future TIC+

<b>Description</b>	The MSCI Emerging Market Index TIC+ future ("EM TIC") is a daily contract on the MSCI Emerging Market Index Future contract (MME) which trades at a premium or discount to the MSCI Emerging Market Index closing index price on the Eligible Contract Date.
<b>Front Month contract</b>

**ICE Futures U.S.<sup>®</sup>, Inc.**  
**CHAPTER 27**

**MSCI INDEX TIC+ DAILY FUTURES**

**27.1 Scope of Chapter**

This chapter is limited in application to trading of MSCI Index TIC+ Daily Futures Contracts. The procedures for trading, clearing, settlement, and any other matters not specifically covered herein shall be governed by the general Rules of the Exchange.

Each MSCI Index referenced in this chapter is subject to change by MSCI, Inc. as set forth in the MSCI Global Investable Market Indices Methodology: *Index Construction Objectives, Guiding Principles and Methodology for the MSCI Global Investable Market Indices* as that document is amended, updated and replaced from time-to-time. Pursuant to the terms of the license granted by MSCI to the Exchange, under certain circumstances, the Exchanges may become responsible for maintaining, changing or amending the index upon which the Futures specified in this Chapter is valued.

The terms and conditions of the Futures Contracts specified in this Chapter are deemed to include any relevant governmental, regulatory or court decree or order as recognized by the Exchange in a Notice to Members.

**27.2 Eligible Contract Dates**

**Contract Dates**

In the absence of any other provisions in the respective Sub-Chapter for a particular MSCI Index TIC+ Futures Contract and unless determined otherwise by the Exchange, each Business Day on which ICE Futures U.S., Inc. monthly futures contracts are listed for trading shall be an Eligible Contract Date for MSCI Index TIC+ Daily Futures Contracts. The number of Eligible Contract Dates open for trading at a given time shall be determined by the Exchange.

**27.3 Related MSCI Monthly Futures Contract**

For each MSCI TIC+ Daily Futures Contract, the Related Monthly Futures Contract is the ICE Futures U.S. listed futures contract as specified in the sub-chapter corresponding to the MSCI TIC+ Daily Futures Contract.

**27.4 Related MSCI Monthly Futures Contract Month**

- (1) **Front Month TIC+ Futures Contract:** the Related MSCI Monthly Futures Contract Month is the first listed contract month of the Related MSCI Monthly Futures Contract, except on the last trading day of that contract month of the Related MSCI Monthly Futures Contract in which case it will be the next listed contract month of the Related MSCI Monthly Futures Contract.
- (2) **Second Month TIC+ Futures Contract:** the Related MSCI Monthly Futures Contract Month is the next listed contract month of the Related MSCI Monthly Futures Contract after the Related MSCI Monthly Futures Contract Month of the Front Month Contract.

### **27.5 Underlying MSCI Index**

For each MSCI TIC+ Daily Futures Contract, the Underlying MSCI Index shall be the MSCI Index that is the underlying index for the Related MSCI Monthly Futures Contract.

### **27.3 Trading Hours**

The Trading Hours for all MSCI Index TIC+ Futures Contract shall be as determined by the Exchange.

### **27.4 Last Trading Day**

In the absence of any other provisions in the respective Sub-Chapter for a particular MSCI Index TIC+ Daily Futures Contract, the last day of trading for each MSCI Index TIC+ Index Futures Contract Eligible Contract Date shall be the Eligible Contract Date, and trading in such contract shall end at 6:00 pm NY local time on the Last Trading Day.

### **27.5 Settlement Procedures**

(a) At expiration of an MSCI Index TIC+ Daily Futures Contract Date, all outstanding Long positions in the Contract Date shall be converted into an equivalent Long position in the Related MSCI Monthly Futures Contract Month and all outstanding Short positions in the Contract Date shall be converted into an equivalent Short position in the Related MSCI Monthly Futures Contract Month.

(b) The price of the positions in the Related MSCI Monthly Futures Contract Month established as per paragraph (a) of this Rule shall be equal to the settlement price of the Related MSCI Monthly Futures Contract on the last trading day of the expiring MSCI TIC+ Contract.

#### **(c) Settlement**

MSCI Index TIC+ Daily Futures Contracts open at the termination of trading shall be cash settled as set forth in paragraph (e) of this Rule using a Final Settlement Value calculated as set forth in paragraph (d) of this Rule.

#### **(d) Final Settlement Value**

The Final Settlement Value for each expiring Contract Date shall be equal to the settlement price of the Related MSCI Monthly Futures Contract minus the end of day value of the Underlying MSCI Index on the last trading day of the expiring MSCI TIC+ Daily Futures Contract Date.

#### **(e) Final Settlement Payment**

Payment in final settlement of an MSCI Index TIC+ Daily Futures Contract will be made in accordance with the Clearing Organization Rules on the second Business Day following the termination of trading by Clearing Members with open positions at the time of termination of trading of the MSCI Index TIC+ Futures Contract. The amount of the final settlement payment to be made or received will be calculated based on the final settlement value as a normal variation payment.

## **27.6 Trading Halts on Underlying Securities Exchanges**

(a) This Rule shall apply to Exchange Index Daily Futures Contracts based on any the following MSCI USA Indexes: MSCI USA Index, MSCI USA Value Index, MSCI USA Growth Index, MSCI USA Small Cap Index, MSCI USA GTR Index, MSCI USA ESG Leaders GTR Index, MSCI USA Climate Change NTR Index and MSCI USA Minimum Volatility GTR Index.

(b) On any Business Day when a general trading halt occurs on the New York Stock Exchange, Inc. (“NYSE”) pursuant to NYSE Rule 7.12, or similar rule of another relevant national securities exchange which is the primary securities market for the index underlying an Exchange MSCI Index Contract, trading in the relevant Exchange MSCI Index Daily Futures Contract shall be halted. Trading of the Exchange contracts shall resume 10 minutes after the trading halt in the equities market commences, in the case where trading in the primary securities market is scheduled to resume on the same Business Day as the halt occurs. If trading in the applicable primary securities market is not scheduled to resume on the same Business Day as the trading halt in that market occurred, then trading in the relevant Exchange MSCI Index Daily Futures Contract shall resume at the regular opening time for such contract on the next Business Day.

## **27.7 Notice Regarding MSCI**

The MSCI Index Daily TIC+ Futures are not sponsored, endorsed, sold or promoted by MSCI Inc. (“MSCI”), any affiliate of MSCI or any other party involved in, or related to, making or compiling any Indexes. The MSCI Index Daily Futures have not been passed on by MSCI, any of its affiliates or any other party involved in, or related to, making or compiling any Indexes as to their legality or suitability with respect to any person or entity. MSCI, its affiliates and any other party involved in, or related to, making or compiling the MSCI Indexes do not guarantee the originality, accuracy and/or completeness of the MSCI Indexes or any data included therein. Neither MSCI, any of its affiliates nor any other party involved in, or related to, making or compiling the MSCI Indexes makes any express or implied warranties, and expressly disclaims all warranties of merchantability and fitness for a particular purpose or use with respect to the related Futures Contract, the MSCI Index or any data included therein. Without limiting any of the foregoing, in no event shall MSCI, any of its affiliates or any other party involved in, or related to, making or compiling the MSCI Indexes have any liability for any direct, special, punitive, indirect, or consequential damages, claims, losses or expenses relating to any futures or options contracts or caused by any errors or delays in calculating or disseminating the MSCI Indexes. Neither MSCI, any of its affiliates nor any other party involved in, or related to, making or compiling the MSCI Indexes has any obligation to take the needs of the issuers of the Contracts, the owners of the MSCI Index Futures or the Exchange into consideration in determining, composing or calculating any MSCI Indexes. Neither MSCI its affiliates nor any other party involved in, or related to, making or compiling the MSCI Indexes is responsible for or have participated in the determination of the timing of, prices at, or quantities of the MSCI Index Daily Futures to be issued or in the determination or calculation of the equation by which the MSCI Index Daily Futures are redeemable for cash.

MSCI Japan NTR Index Futures Contract (contract symbol JPP)

#### **Related MSCI Monthly Futures Contract Month**

**(1) Front Month TIC+ Futures Contract Symbol: TPJ.**

**(2) Second Month TIC+ Futures Contract Symbol: SPJ.**

### **Trading Unit**

The unit of trading shall be \$10.00 times the MSCI Japan NTR Index.

### **Price Increments**

The minimum price fluctuation for the MSCI Japan NTR Index TIC+ Daily Futures shall be 1.000 Index Points, which is \$10.00 per contract. Contracts shall not be made on any other price basis except for Block Trades, for which the minimum price fluctuation shall be 0.001 Index Points, or \$0.01 per contract.

## Exhibit C

### ICE Futures U.S., Inc. Reasonability Limits and No Cancellation Ranges - As of September 2021

The ICE Futures U.S. Error Policy includes Reasonability Limit (“RL”), No Cancellation Range (“NCR”) and Calendar Spread Stop Limit Order (“CSLOR”) levels for futures and options contracts. The levels shown below are subject to change without prior notification.

#### ICE Futures U.S. – Energy Division No Cancellation Ranges (Maximum Number of Ticks from Market Value expressed as Price Difference)

Financial Gas Products	Day	Spread	Month	Spread	Season	Spread	Calendar	Spread
Henry Hub	0.04	0.04	0.04	0.04	0.04	0.04	0.04	0.04
Non-Henry Fixed Price	0.05	0.05	0.05	0.05	0.05	0.05	0.05	0.05
UK Natural Gas	0.04	0.04	0.04	0.04	0.04	0.04	0.04	0.04
Index			0.02	0.02	0.02	0.02	0.02	0.02

---	-----	------	---------	---------	---------	---------

**For any Oil or NGL future not listed above the following NCR's are applied:**

Contract	NCR 1-6M	Spread	NCR 7M+	Spread
Oil (Barrels or lbs)	0.2500	0.2000	0.2000	0.2000
Oil (MT)	0.7500	0.5000	1.5000	1.0000
Oil (Gallons)	0.0080	0.0080	0.0080	0.0080
Oil (RIN)	0.0200	0.0200	0.0200	0.0200

  

Contract	Pricing Month	Month	Spread	Quarters	Spread	Calendar	Spread
NGL (North American) (Gallons) **	0.0025	0.0050	0.0050	0.0050	0.0050	0.0050	0.0050
Olefins	N/A	0.0050	0.0050	0.0050	0.0050	0.0050	0.0050
Aromatics	N/A	0.0100	0.0100	0.0100	0.0100	0.0100	0.0100
LPG (International) (MT)**	1.00	5.00	5.00	5.00	5.00	5.00	5.00

\*\*For all trades executed after five US business days into the current pricing month, the pricing month NCR shall be applied.

Oil and NGL Options	No Cancellation Range	Minimum Value NCR - Conversions and Reversals	Maximum Value
Natural Gas Liquids	25% of premium	0.0050	0.0250
LPG (International) (MT)	25% of premium	0.0625	0.3125
All Other Oil Options	25% of premium	0.1000	1.00
WTI Options	25% of premium	0.1000	1.00
Gasoil Options	25% of premium	0.1000	10.00
Heating Oil Options	25% of premium	0.0010	0.0200

The preferred resolution for option trades, excluding Conversions and Reversals, executed greater than 3 \* NCR from fair market value is Trade Cancellation.

User Defined Strategies (UDS) will be evaluated on the basis of the strategy unless there are implied deals in which case each leg of the UDS will be evaluated independently.

<b>RL</b>	<b>3 x NCR</b>	<b>3 x NCR</b>	<b>3 x NCR</b>	<b>3 x NCR</b>	<b>3 x NCR</b>	<b>3 x NCR</b>
<i>*Note that for Cocoa options (which do not trade in decimal points) the respective Theoretical Value Ranges are “1 to 20 points, 21 to 200 points, 201 to 500 points, 501 to 1000 points, and 1001 points and above.</i>						
<i>NCR and Reasonability Limits are for both outright options and User Defined Spread trades, including hedged trades; for purposes of NCR and RL levels, UDS and hedged UDS are treated as a package and not by the individual legs of the UDS.</i>						
<i>In the case of price adjustment, Market Supervision will adjust to fair value minus/plus the NCR.</i>						

NOTE: Market Supervision staff has the authority to expand the No Cancellation Range and Reasonability Limit for a product to two (2) times the levels shown above in volatile market conditions and without prior notice.

### No Cancellation Range and Reasonability Level for Canola Options

	No Cancellation Range	Reasonability Limit
Outright Options	30% from fair value as determined by the Exchange, with a minimum of \$1.00 and a maximum of \$4.00. Options with a value of less than \$1.00 are \$0.00.	40% from fair value as determined by the Exchange, with a minimum of \$2.00.
Calendar Spread Options	30% from fair value as determined by the Exchange and with a minimum of \$1.00 and a maximum of \$4.00. Options with a value of less than \$1.00 are \$0.00.	None.

### No Cancellation Ranges and Reasonability Levels for Metal Options:

The NCR shall be 20% of the option premium, subject to a minimum of 50 ticks and a maximum of 250 ticks. The RL shall be three times the NCR of the option.

### **No Cancellation Ranges and Reasonability Levels for Bakkt Bitcoin (USD) Monthly Futures Options:**

The NCR shall be 30% of the option premium, subject to a minimum of \$25 and a maximum of \$200. The RL shall be 40% of fair value as determined by the Exchange.

### **No Cancellation Range for Option Conversions and Option Boxes:**

Option Conversions and Option Boxes will be subject to the lowest NCR stated for the market in which they are traded.

A long Option Conversion shall be defined as combining long calls, short puts and short futures. A short Option Conversion shall be defined as combining long puts, long futures and short calls. The Option conversion must contain the same expiry, strikes prices and quantity.

An Option Box shall be defined as combining a position that is long a call and short a put in strike 1 and long a put and short a call in strike 2. The Option Box must contain the same expiry and quantity in both strike 1 and strike 2 for both calls and puts.

The Exchange reserves the right to consider all alleged error trade situations on their individual merits and may therefore amend these policies in light of the circumstances of each case. The full Error Policy can be found in IFUS Electronic Trading Rules, on the web at: [https://www.theice.com/publicdocs/rulebooks/futures\\_us/--Appendix\\_1\\_Error\\_Trade\\_Policy.pdf](https://www.theice.com/publicdocs/rulebooks/futures_us/--Appendix_1_Error_Trade_Policy.pdf).

The descriptions of Anchor Price, No Cancellation Range, Reasonability Limits and Calendar Spread Limit Order Range below are taken from the IFUS Error Policy.

### **Anchor Price**

The Anchor Price is set by the Exchange and is based on the front contract month, however, when the front month nears expiration, the Anchor Price will be based on the delivery month with the most open interest. The determination as to when to shift the Anchor Price based on open interest will be made by the Exchange. The Anchor Price may be the previous night's settlement price, the opening call price or the last traded price. The Anchor Price of the second contract month and successive months onward is achieved by applying spread differentials against the front month Anchor Price.

### **No Cancellation Range**

The Exchange determines parameters above or below an Exchange set anchor price for each Contract within which a trade alleged as an error trade may not be cancelled. Such parameters are known as a no cancellation range.

Trades within the no cancellation range will not, under most circumstances, be cancelled by the Exchange, whether as a result of error or otherwise, in order that market users can have confidence that traded levels will stand.

### **Reasonability Limits**

The ETS maintains Reasonability Limits to prevent ‘fat finger’ type errors. These are hard limits above or below an Exchange set anchor price. Orders with bids above the Reasonability Limit or offers below the Reasonability Limit will not be accepted.

Each option order submitted to the electronic trading platform will be evaluated against a reasonability limit for the specific call or put option strike price. A reasonability limit range will be established around the theoretical premium value for each option call or put. The theoretical premium value will be calculated using the Black - Scholes model and will dynamically update throughout the day. The reasonability limit range will allow for entry of bids or offers within a calculated distance from the option’s current theoretical premium value. This Option Reasonability Range is the distance above/below the calculated option theoretical premium used to establish the reasonability limits. This range is determined by the Exchange and is subject to change without notice. For Options with little theoretical value (deep out-of-the money), a minimum premium price established by the Exchange will be used. If the theoretical price of the Option plus the Option Reasonability Range is less than the minimum premium, the minimum premium will be used as the Reasonability Limit. The Reasonability Limits for each Exchange Commodity Contract are flexible, to take into account prevailing market conditions, and may be changed at the discretion of the Exchange on an intraday basis, without advance notice, to take account of such conditions.

Reasonability Limits are applicable during the pre-open period for all IFUS futures contracts (except for Natural Gas, Power and Emissions contracts), at levels up to three times the levels shown in this document. Entry of new and revisions to existing option orders are not permitted during the pre-open period, and therefore Reasonability Limits are not applicable to IFUS option contracts during the pre-open.

### **Calendar Spread Limit Order Range**

The CSLOR is used to set the maximum difference between the stop and limit prices on a calendar spread Stop Limit order, and the limit price on a calendar spread Stop With Protection order.

# INTERVAL PRICE LIMIT FUNCTIONALITY

With IPL levels as of September 2021

IPL functionality acts as a temporary circuit breaker feature on the electronic platform, to diminish the likelihood and extent of short-term price spikes or aberrant market moves. While it is designed to be in force throughout each trading day, it is expected that the protections will be actively triggered only in the case of extreme price moves over very short periods of time. The IPL regime uses three customizable parameters for each futures product:

1. **IPL Recalculation Time:** A pre-set length of time during which the price of a contract month may not move up or down more than the IPL Amount (defined below) from the contract price at the start of the period. This starting price is referred to as the “anchor price”. The IPL Recalculation Time continuously resets for the length of time applicable to the particular futures contract.
2. **IPL Amount:** The maximum number of points that a contract month is permitted to move up or down during each IPL Recalculation Time for the contract. The anchor price plus/minus the IPL amount effectively creates an IPL range for the contract for the IPL Recalculation Time.
3. **IPL Hold Period:** When the platform determines that the next trade in the contract month will be at a price that is outside the active IPL range, the platform triggers a Hold Period, during which the price of the contract is not permitted to trade outside the IPL range that was in place at the start of the IPL Hold Period. The length of the Hold Period is pre-set. When a Hold Period is triggered, the platform will issue an alert notifying users that a Hold Period has begun and specifying the time the Hold Period will end.

IPL parameters can be changed over time based on market conditions.

Current IPL Recalculation Times, Amounts and Hold Period for all IFUS products are shown below:

**Agricultural and Metal contracts:**

FUTURES CONTRACT	IPL Amount (in points)	Recalc Time (in secs)	Hold Period (in secs)
