The contract specifications of the Contracts will mirror the specifications of the existing Friday FX options but with Wednesday expiration maturities for five currency pairs: GBP/USD Options, CAD/USD Options JPY/USD Options, AUD/USD Option and EUR/USD Options in both premium-quoted and volatilityquoted instruments. The Contracts are all European-style with a 2 p.m. Central Time fix. Four Wednesday FX options will be continuously listed. The contract specifications of the Contracts are provided in Appendix B attached.

The Exchange reviewed the designated contract market core principles ("Core Principles") as set forth in the Commodity Exchange Act ("CEA" or "Act") and identified that the listing of the Contracts may have some bearing on the following Core Principles:

- Compliance with Rules: Trading in the Contracts will be subject to Rulebook Chapter 4 which includes prohibitions against fraudulent, noncompetitive, unfair and abusive practices. Additionally, trading in these options contracts will also be subject to the full panoply of trade practice rules, the majority of which are contained in Chapter 5 and Chapter 8 of the Rulebook. As with all products listed for trading on one of CME Group's designated contract markets, activity in the new products will be subject to extensive monitoring and surveillance by CME Group's Market Regulation Department. The Market Regulation Department has the authority to exercise its investigatory and enforcement power where potential rule violations are identified.
- **Contracts Not Readily Subject to Manipulation:** The Contracts are not readily subject to manipulation due to the deep liquidity and robustness in the underlying cash and futures market, which provides diverse participation and sufficient spot transactions.
- Prevention of Market Disruption: Trading in the Contracts will be subject to the Rules of CME which include prohibitions on manipulation, price distortion and disruptions of the delivery or cash-settlement process. As with all products listed for trading on one of CME Group's designated contract markets, activity in the new product will be subject to extensive monitoring and surveillance by CME Group's Market Regulation Department.
- **Position Limitations or Accountability:** The speculative position limits for the Contracts as demonstrated in this submission are consistent with the Commission's guidance.
- Availability of General Information: The Exchange will make publicly available the details of the Contracts' listing by publishing a Special Executive Report ("SER") to the market. The SER will be available on CME Group's website.
- **Daily Publication of Trading Information:** Trading volume, open interest, and price information will be published daily on the Exchange's website and via quote vendors.
- **Execution of Transactions:** The Contracts will be listed for trading on CME Globex. The CME Globex electronic trading platform provides a transparent, open, and efficient mechanism to electronically execute trades.
- **Trade Information:** All required trade information is included in the audit trail and is sufficient for the Market Regulation Department to monitor for market abuse.
- **Financial Integrity of Contracts:** The Contracts will be cleared by the CME Clearing House which is a registered derivatives clearing organization with the Commission and is subject to all Commission regulations related thereto.
- Protection of Market Participants: Rulebook Chapters 4 and 5 contain multiple prohibitions precluding intermediaries from disadvantaging their customers. These rules apply to trading on all of the Exchange's competitive trading venues and will be applicable to transactions in the subject contracts.
- **Disciplinary Procedures:** Chapter 4 of the Rulebook contains provisions that allow the Exchange to discipline, suspend or expel members or market participants that violate the Rulebook. Trading in the subject contracts will be subject to Chapter 4, and the Market Regulation Department has the authority to exercise its enforcement power in the event rule violations in this contract are identified.

• **Dispute Resolution:** Disputes with respect to trading in the Contracts will be subject to the arbitration provisions set forth in Chapter 6 of the Rulebook. Chapter 6 allows all nonmembers to submit a claim for financial losses resulting from transactions on the Exchange to arbitration. A member named as a respondent in a claim submitted by a nonmember is required to participate in the arbitration pursuant to Chapter 6. Additionally, the Exchange requires that members resolve all disputes concerning transactions on the Exchange via arbitration.

Pursuant to Section 5c(c) of the Act and CFTC Regulation 40.2(a), the Exchange certifies that the listing of the Contracts complies with the Act and rules thereunder. There were no substantive opposing views to this proposal.

The Exchange certifies that this submission has been concurrently posted on the Exchange's website at <u>http://www.cmegroup.com/market-regulation/rule-filings.html</u>.

Should you have any questions concerning the above, please contact the undersigned at (212) 299-2200 or via e-mail at <u>CMEGSubmissionInquiry@cmegroup.com</u>.

Sincerely,

/s/Christopher Bowen Managing Director and Chief Regulatory Counsel

Chapter 251A Options on British Pound Sterling/U.S. Dollar Futures

251A01. OPTION CHARACTERISTICS

251A01.D. Underlying Futures Contract

The underlying futures contract is the nearest futures contract in the March quarterly cycle (i.e., March, June, September and December) whose termination of trading follows the option's last day of trading by more than two Exchange business days. This rule applies to March quarterly, serial, and weekly options on British pound sterling futures contracts.

The underlying futures contract is the nearest quarterly futures contract following the options expiration except for options expiring the week prior to a quarterly futures termination. For options expiring the week prior to a quarterly futures termination, the underlying futures contact is the next nearest quarterly futures contract.

251A01.I. Termination of Trading for European-Style Exercise Options ("2:00 p.m. Fix")

4. Wednesday Weekly Options

Trading in Wednesday weekly options shall terminate at the close of trading (usually 2:00 p.m. Central time) on Wednesdays. If the foregoing date for termination is a scheduled Exchange holiday, trading in Wednesday weekly options shall terminate on the immediately preceding business day. In the event that the underlying futures market does not open on the scheduled expiration day, the option expiration shall be extended to the next day on which the underlying futures market is open for trading.
