**Re: CFTC Regulation 40.2(a) Notification Regarding the Initial Listing of the 2-Year, 3-Year, 4-Year, 5-Year, 7-Year, 10-Year, 12-Year, 15-Year, 20-Year, and 30-Year Eris US Dollar (USD) Swap Futures Contracts.
CBOT Submission No. 18-290 (1 of 10)**

Dear Mr. Kirkpatrick:

The Board of Trade of the City of Chicago, Inc. (“CBOT” or “Exchange”) hereby notifies the Commodity Futures Trading Commission (“CFTC” or “Commission”) that it is self-certifying the initial listing of the 2-Year, 3-Year, 4-Year, 5-Year, 7-Year, 10-Year, 12-Year, 15-Year, 20-Year, and 30-Year Eris USD Swap Futures contracts (the “Contracts”) for trading on the CME Globex electronic trading platform (“CME Globex”) and for submission for clearing via CME ClearPort effective on Sunday, December 2, 2018, for trade date Monday, December 3, 2018.

Affiliates of Eris Exchange, LLC (“Eris”) and CBOT entered an exclusive licensing agreement under which the Contracts and associated open interest will migrate from the Eris designated contract market (“DCM”) to the CBOT DCM. Upon the effective date of this submission, the Contracts will be listed for trading exclusively on the CBOT and they will no longer be listed on Eris. CME Clearing currently provides exclusive clearing and settlement services for the Contracts and will continue its exclusive provision of these services for the Contracts upon their listing on the CBOT.

In what follows, Section 1 discusses the terms and conditions of the Contracts. Section 2 addresses compliance of Contracts terms and conditions with the applicable core principles for DCMs (“Core Principles”) set forth in the Commodity Exchange Act (“CEA” or “Act”).

Terms and conditions for the Contracts shall be set forth in CBOT Rulebook Chapter 61, the text of which appears in Appendix A. Appendix B addresses the applicable position limits and reportable position levels pursuant to CBOT Rules 560 and 561. Appendix C presents the applicable CME Globex non-reviewable trading ranges pursuant to CBOT Rule 588.H., and Appendix D gives the pertinent special price fluctuation limits pursuant to CBOT Rule 589. Appendix E sets forth the Exchange fees applicable to trading and clearing the Contracts.

Section 1 – Contract Terms and Conditions

Apart from their resulting in delivery of an Interest Rate Swap Contract fulfilled by CME Clearing, the terms and specifications of the Contracts would be very similar to those of the extant US Dollar Interest Rate Swap Futures contracts listed on the CBOT. Exhibit 1 summarizes proposed contract specifications.

Section 2 -- Compliance with Core Principles

The Exchange has reviewed the Core Principles as set forth in the Act and has identified that the new product terms and conditions certified herein may bear upon the following Core Principles:

Core Principle 2 – Compliance with Rules

Trading in the Contracts shall be subject to:

- CBOT Rulebook Chapter 4, which includes prohibitions against fraudulent, noncompetitive, unfair, and abusive practices;
- the Exchange's trade practice rules, the majority of which are contained in Chapter 5 and Chapter 8 of the Rulebook; and
- monitoring and surveillance by CME Group's Market Regulation Department, which has the authority to exercise its investigatory and enforcement power where potential rule violations are identified.

Core Principle 3 – Contracts Not Readily Subject to Manipulation

Given the definition of their contract-grade commodity and the mechanics of their cash settlement process, the Contracts described herein are not readily susceptible to manipulation. Because there is no physical limitation on available supply of an expiring futures contract's deliverable commodity, the risk is highly remote that a market participant might assert control, or attempt to assert control, over the supply of the deliverable-grade commodity.

Core Principle 4 – Prevention of Market Disruption

Trading in the Contracts shall be subject to CBOT Rulebook Chapters 4 and 7, which include prohibitions on manipulation, price distortion, and disruption to the expiration process. As with any product listed for trading on a CME Group designated contract market, futures trading activity shall be subject to monitoring and surveillance by CME Group's Market Regulation Department.

Core Principle 5 – Position Limits or Accountability

The Contracts shall be subject to a Position Reporting Level of 3,000 Contracts, a Single-Month Position Accountability Level of 6,000 net futures contract equivalents, and an All-Month Position Accountability Level of 6,000 net futures contract equivalents.

The position-monitoring standards being adopted for Eris USD Swap Futures on the CBOT are currently in practice for these Contracts on the Eris Exchange.

Core Principle 7 – Availability of General Information

The Exchange shall disseminate a Special Executive Report ("SER") that sets forth information regarding the specifications, terms, and conditions of the Contracts. The SER will also be available on the CME Group website.

Core Principle 8 – Daily Publication of Trading Information

The Exchange shall publish trading volumes, open interest levels, and price information for the Contracts daily on its website and through quote vendors.

Core Principle 9 – Execution of Transactions

The Contracts will be listed for trading on the CME Globex electronic trading and for submission for clearing through CME ClearPort. The CME Globex electronic trading venue provides for competitive and open execution of transactions. CME Globex affords the benefits of reliability and global connectivity.

Core Principle 10 – Trade Information

All requisite trade information shall be included in the audit trail and will suffice for the Market Regulation Department to monitor for market abuse.

Core Principle 11 – Financial Integrity of Contracts

The Contracts shall be cleared by CME Clearing, which is registered with the Commission as a derivatives clearing organization, and which is subject to all CFTC regulations related thereto.

Core Principle 12 – Protection of Markets and Market Participants

CBOT Rulebook Chapters 4 and 5 set forth multiple strictures that preclude intermediaries from disadvantaging their customers. These Rules apply to trading in all of the Exchange’s competitive trading venues and will apply to transactions in the Contracts.

Core Principle 13 – Disciplinary Procedures

CBOT Rulebook Chapter 4 provides for the Exchange to discipline, suspend, or expel members or market participants who violate the rules of the Exchange. Trading in the Contracts shall be subject to these provisions. The Exchange’s Market Regulation Department has the authority to exercise its powers of enforcement, in the event that rule violations in the Contracts are identified.

Core Principle 14 – Dispute Resolution

Disputes in respect of the Contracts shall be subject to the arbitration provisions set forth in CBOT Rulebook Chapter 6, which allow all nonmembers to submit to arbitration claims for financial loss resulting from transactions on the Exchange. Pursuant to these provisions, any member named as a respondent in any such claim submitted by a nonmember is required to participate in arbitration proceedings. Additionally, the Exchange requires members to resolve via arbitration all disputes concerning transactions on the Exchange.

The Exchange certifies that the Contracts comply with the Act, including all regulations thereunder. There were no substantive opposing views to this proposal.

The Exchange certifies that this submission has been concurrently posted on the Exchange’s website at <http://www.cmegroup.com/market-regulation/rule-fillings.html>. Should you have any questions concerning the above, please contact the undersigned at (212) 299-2200 or CMEGSubmissionInquiry@cmegroup.com.

Sincerely,

/s/ Christopher Bowen
Managing Director and Chief Regulatory Counsel
