Re: KalshiEX LLC – CFTC Regulation 40.2(a) Notification Regarding the Initial Listing of the "Will a permitting reform bill become law before <date>?" Contract

Dear Sir or Madam,

Pursuant to Section 5c(c) of the Commodity Exchange Act and Section 40.2(a) of the regulations of the Commodity Futures Trading Commission, KalshiEX LLC (Kalshi), a registered DCM, hereby notifies the Commission that it is self-certifying the "Will a permitting reform bill become law before <date>?" contract (Contract). The Contract will initially be listed on **December 13, 2024**. The Exchange intends to list the contract on a custom basis. The Contract's terms and conditions (Appendix A) includes the following strike conditions:

- **<date>** (the target date)

Along with this letter, Kalshi submits the following documents:

- A concise explanation and analysis of the Contract;
- Certification;
- Appendix A with the Contract's Terms and Conditions;
- Confidential Appendices with further information; and
- A request for FOIA confidential treatment.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Xavier Sottile
Head of Markets

KalshiEX LLC
Official Product Name: “Will a permitting reform bill become law before <date>?”
Rulebook: PERMIT
Kalshi Contract Category: Political Decision
Permitting reform
December 12, 2024

CONCISE EXPLANATION AND ANALYSIS OF THE PRODUCT AND ITS COMPLIANCE WITH APPLICABLE PROVISIONS OF THE ACT, INCLUDING CORE PRINCIPLES AND THE COMMISSION'S REGULATIONS THEREUNDER

Pursuant to Commission Rule 40.2(a)(3)(v), the following is a concise explanation and analysis of the product and its compliance with the Act, including the relevant Core Principles (discussed in Appendix D), and the Commission's regulations thereunder.

I. Introduction

The “Will a permitting reform bill become law before <date>?” Contract is a contract relating to permitting reform.

Further information about the Contract, including an analysis of its risk mitigation and price basing utility, as well as additional considerations related to the Contract, is included in Confidential Appendices B, C, and D.

Pursuant to Section 5c(c) of the Act and CFTC Regulations 40.2(a), the Exchange hereby certifies that the listing of the Contract complies with the Act and Commission regulations under the Act.

General Contract Terms and Conditions: The Contract operates similar to other event contracts that the Exchange lists for trading. The minimum price fluctuation is $0.01 (one cent). Price bands will apply so that Contracts may only be listed at values of at least $0.01 and at most $0.99. Further, the Contract is sized with a one-dollar notional value and has a minimum price fluctuation of $0.01 to enable Members to match the size of the contracts purchased to their economic risks. As outlined in Rule 5.12 of the Rulebook, trading shall be available at all times outside of any maintenance windows, which will be announced in advance by the Exchange. Members will be charged fees in accordance with Rule 3.6 of the Rulebook. Fees, if they are charged, are charged in such amounts as may be revised from time to time to be reflected on the Exchange’s Website. A new Source Agency can be added via a Part 40 amendment. All instructions on how to access the Underlying are non-binding and are provided for convenience only and are not part of the binding Terms and Conditions of the Contract. They may be clarified at any time.

Furthermore, the Contract's payout structure is characterized by the payment of an absolute amount to the holder of one side of the option and no payment to the counterparty. During the time that trading on the Contract is open, Members are able to adjust their positions and trade freely. The Expiration Value and Market Outcome are determined at or after Market Close. The market is then settled by the Exchange, and the long position holders and short position holders are paid according to the Market Outcome. In this case, "long position holders" refers to Members who purchased the "Yes" side of the Contract and "short position holders" refers to Members who purchased the "No" side of the Contract. If the Market Outcome is "Yes," meaning that an event occurs that is encompassed within the Payout Criterion, then the long position holders are paid an absolute amount proportional to the size of their position and the short position holders receive no payment. If the Market Outcome is "No," then the short position holders are paid an absolute amount proportional to the size of their position and the long position holders receive no payment. Specification of the circumstances that would trigger a Market Outcome of "Yes" are included below in the section titled "Payout Criterion" in Appendix A.

CERTIFICATIONS PURSUANT TO SECTION 5c OF THE COMMODITY EXCHANGE ACT, 7 U.S.C. § 7A-2 AND COMMODITY FUTURES TRADING COMMISSION RULE 40.2, 17 C.F.R. § 40.2

Based on the above analysis, the Exchange certifies that:

- ❑ The Contract complies with the Act and Commission regulations thereunder.
- ❑ This submission (other than those appendices for which confidential treatment has been requested) has been concurrently posted on the Exchange's website at https://kalshi.com/regulatory/filings.

Should you have any questions concerning the above, please contact the exchange at ProductFilings@kalshi.com.

Appendix C (Confidential) - Source Agency
Appendix D (Confidential) - Compliance with Core Principles

APPENDIX A – CONTRACT TERMS AND CONDITIONS

Official Product Name: "Will a permitting reform bill become law before <date>?"
Rulebook: PERMIT

PERMIT

Scope: These rules shall apply to this contract.

Underlying: The Underlying for this Contract is bills that have become law after Issuance and before <date>. Revisions to the Underlying made after Expiration will not be accounted for in determining the Expiration Value.

Instructions: The Underlying can be found at: congress.gov. These instructions on how to access the Underlying are provided for convenience only and are not part of the binding Terms and Conditions of the Contract. They may be clarified at any time.

Source Agency: The Source Agency is the Library of Congress.

Type: The type of Contract is an Event Contract.

Issuance: After the initial Contract, Contract iterations will be listed on an as-needed basis at the discretion of the Exchange and corresponding to the risk management needs of Members.

<date>: <date> refers to a calendar date specified by the Exchange. The Exchange may list iterations of the Contract corresponding to variations of <date>.

Payout Criterion: The Payout Criterion for the Contract encompasses the Expiration Values that a bill has become law after Issuance and before <date> that does any of the following:

- Reduces the deadline for filing lawsuits against an agency action approving or denying the permitting of an energy or mineral project
- Directs courts to set a time limit for an agency to act on a remand
- Requires courts to prioritize cases reviewing an agency permitting decision for an energy or mineral project
- Requires the Secretary of the Interior to begin reviewing lease applications for energy projects on federal land within a deadline
- Requires the Secretary of the Interior to increase the frequency of offshore oil and gas lease sales in the Gulf of Mexico
- Increases DOI’s goal for permitting renewable energy projects on federal land
- Sets application timelines for renewable projects requiring a right-of-way on federal land
- Increases the frequency of geothermal lease sales
- Requires the Secretary of the Interior to increase the frequency of offshore wind lease sale

- Modifies the requirements for a “mill site” so that mining projects can use them for ancillary activities on federal mineral and nonmineral lands
- Requires the Secretary of Energy to make a Yes or No decision on whether liquefied natural gas export applications are in the public interest within a deadline
- Eliminates the requirement for DOE to designate National Interest Electric Transmission Corridors based on needs studies as part of the process for using the federal backstop
- Requires geothermal drill permits on federal land to be approved, denied, or deferred within some deadline
- Clarifies that a federal permit to drill for oil and gas wells is not required on nonfederal lands in circumstances in which the federal government owns less than 50% of the subsurface minerals or if the well is drilled on nonfederal land and then horizontally through federal land
- Allows FERC to approve requests from licensees to extend the time period during which construction must commence for certain hydroelectric projects
- Directs DOI and USDA to adopt categorical exclusions under NEPA for the exploration of geothermal resources on federal lands
- Requires the secretary of the interior to establish a streamlined permitting process for the simultaneous consideration of several phases of geothermal projects, including surface exploration, geophysical exploration, drilling, and the construction of power plants
- Makes FERC the lead agency for conducting environmental reviews of transmission projects that are subject to NEPA rather than DOE
- Directs DOI and the Department of Agriculture (USDA) to create new categorical exclusions for activities related to transmission

Minimum Tick: The Minimum Tick size for the Contract shall be $0.01.

Position Accountability Level: The Position Accountability Level for the Contract shall be $25,000 per strike, per Member.

Last Trading Date: The Last Trading Date of the Contract will be the same as the Expiration Date. The Last Trading Time will be the same as the Expiration time.

Settlement Date: The Settlement Date of the Contract shall be no later than the day after the Expiration Date, unless the Market Outcome is under review pursuant to Rule 7.1.

Expiration Date: The latest Expiration Date of the Contract shall be <date>. If an event encompassed by the Payout Criterion occurs, expiration will be moved to an earlier date and time in accordance with Rule 7.2.

Expiration time: The Expiration time of the Contract shall be 10:00 AM ET.

Settlement Value: The Settlement Value for this Contract is $1.00.

Expiration Value: The Expiration Value is the value of the Underlying as documented by the Source Agency on the Expiration Date at the Expiration time.

Contingencies: Before Settlement, Kalshi may, at its sole discretion, initiate the Market Outcome Review Process pursuant to Rule 6.3(d) of the Rulebook. If an Expiration Value cannot be determined on the Expiration Date, Kalshi has the right to determine payouts pursuant to Rule 6.3(b) in the Rulebook.
