

2012 BCSE BOARD OFFICERS

Sempra Energy, *Chairman*
George Williams, Director,
Federal Government Affairs

First Environment, Inc., *Chairman Emeritus*
Dr. Tod Delaney, President

Johnson Controls, *Vice Chairman*
Mark Wagner, Vice President,
Government Relations

Global Policy Associates, *Treasurer*
James Wolf, President

**Polyisocyanurate Insulation
Manufacturers Association**, *Secretary*
Jared Blum, President

SkyBuilt Power, *General Counsel*
David Muchow, President & CEO

President, Lisa Jacobson, BCSE

2012 BCSE BOARD MEMBERS

Alliance to Save Energy
Kateri Callahan, President

American Wind Energy Association
Denise Bode, CEO

Austin Energy
Patricia Tierney Alofsin, Director,
Government Relations

Direct Energy
Chris Perrault, Vice President, US Federal
Government & Regulatory Affairs

EnerNOC, Inc.
Rick Counihan, Vice President,
Regulatory Affairs

Ingersoll Rand
Jeff Moe, Director, Global Policy &
Advocacy, Center for Energy Efficiency
& Sustainability

**North American Insulation
Manufacturers Association**
Kate Offringa, President

Recycled Energy Development
Dick Munson, Senior Vice President,
Public Affairs

Sacramento Municipal Utility District
John DiStasio, General Manager & CEO

Solar Energy Industries Association
Rhone Resch, President & CEO

Solar Turbines
Joseph Allen, Manager,
Government Relations

The Stella Group
Scott Sklar, President

Worldwatch Institute
Chris Flavin, President

The Business Council for Sustainable Energy (BCSE) is a coalition of companies and trade associations from the energy efficiency, natural gas and renewable energy sectors, and also includes independent electric power producers, investor-owned utilities, public power, commercial end-users and project developers and service providers for environmental markets.

Founded in 1992, the Council advocates for policies at state, national and international levels that increase the use of commercially-available clean energy technologies, products and services. The coalition's diverse business membership is united around the revitalization of our economy and creation of a secure and sustainable energy future for America.

The Council Aims To:

- Enact policies that accelerate the deployment of energy efficiency, renewable energy resources, and natural gas;
- Implement cost-effective programs and policies that recognize the environmental attributes of energy sources;
- Advocate policies that increase the efficiency of the U.S. economy and improve energy security;
- Encourage market-based initiatives for energy and environmental policies.

Clean Energy Coast to Coast

From building efficiency retrofits in Hawaii to wind farms in Minnesota to cutting edge natural gas research in Oklahoma, the Council's members are strengthening America's energy future and creating American jobs in every state of the country. Visit <http://www.bcse.org> to learn about the Council's members, including recent news from the industry and an interactive map detailing clean energy businesses across the country.

Global BCSE Strategic Alliance

The Council is a founding member of the International Council for Sustainable Energy. The mission of the organization is to provide a cohesive and credible voice for the global sustainable energy industry in the international climate change discussions. The coalition is a strategic alliance between the Council, European BCSE, United Kingdom BCSE, and Australian Clean Energy Council, and together represents companies and organizations from around the world.
