**§39.5(b)(3)(i) Statement of Eligibility**

*“A statement that the derivatives clearing organization is eligible to accept the swap, or group, category, type, or class of swaps for clearing and describes the extent to which, if the Commission were to determine that the swap, or group, category, type, or class of swaps is required to be cleared, the derivatives clearing organization will be able to maintain compliance with section 5b(c)(2) of the Act.”*

ICE Clear Credit is a Derivatives Clearing Organization (“DCO”) pursuant to Section 5b of the United States Commodity Exchange Act, as amended (the “CEA”), and as such is supervised by the CFTC. ICE Clear Credit became a DCO on July 16, 2011 pursuant to Section 725 of the Dodd-Frank Act (the “Conversion Date”), and since the Conversion Date, ICE Clear Credit has cleared commodity-based swaps similar to the Indices submitted herein in compliance with section 5b(c)(2) of the CEA.

**§39.5(b)(3)(ii) Information Related to the Act’s Swap Submission Review Requirements**

*“A statement that includes, but is not limited to, information that will assist the Commission in making a quantitative and qualitative assessment of the following factors:”*

*(A) “The existence of significant outstanding notional exposures, trading liquidity, and adequate pricing data.”*

Table 2 below provides data describing the adequacy of end-of-day pricing data for the Submitted Swaps. Three columns identify the Submitted Swaps by index, series and tenor.

The Indices only became available for trading on January 14, 2021 and were launched in response to the impact of the sanctions imposed under the Order on the iTraxx Asia ex-Japan indices. There are no outstanding positions in the Depository Trust & Clearing Corporation (“DTCC”) Trade Information Warehouse (“TIW”), as-of January 25, 2021, among legal entities that are Clearing Participants of ICE Clear Credit (“CPs” or “Clearing Participants”).

ICE Clear Credit’s rules require CPs to submit end-of-day pricing data for any swap for which they have a relevant cleared interest. ICE Clear Credit recently demonstrated the ability of CPs to provide end-of-day price discovery submissions for the Indices. During a one-week price collection period from January 25 through January 29, 2021, ICE Clear Credit asked all 29 of its CPs to provide submissions for all sub-indices. This Table 2 entry consists of two columns summarizing the results of the one-week price collection period. The first column provides the number of CPs providing submissions. The second column provides the average dispersion of submissions. For the purposes of this analysis, ICE Clear Credit defines dispersion as the difference between the highest and lowest submission mid-level after removing the submissions of the two Affiliate Groups with the highest and lowest mid-levels from the sample. The table expresses dispersion as a percentage of the bid-offer width (“BOW”) established each day for the given swap by ICE Clear Credit.

***(B) Clearinghouse Capabilities***

***“The availability of rule framework, capacity, operational expertise and resources, and credit support infrastructure to clear the contract on terms that are consistent with the material terms and trading conventions on which the contract is then traded.”***

Rule Framework – ICE Clear Credit maintains a comprehensive set of rules that are publicly available and may be viewed at [https://www.theice.com/publicdocs/clear\\_credit/ICE\\_Clear\\_Credit\\_Rules.pdf](https://www.theice.com/publicdocs/clear_credit/ICE_Clear_Credit_Rules.pdf) and are listed herein as Exhibit A.

Capacity, Operational Expertise and Resources – ICE Clear Credit is the largest, leading, and most active CDS clearinghouse in the world as measured by (1) number and diversification of cleared CDS contracts, (2) volume, (3) open interest, (4) amount of default resources (margin collateral and guaranty fund deposits), and (5) number of active CDS CPs. As of January 8, 2021, ICE Clear Credit lists 691 CDS instruments for clearing. As of January 8, 2021, ICE Clear Credit has cleared approximately 3,885,357 trades representing over \$108.5 trillion of gross notional value, resulting in open interest of \$1.4 trillion (additional ICE Clear Credit’s statistics may be viewed at <https://www.theice.com/clear-credit>).

The following financial institutions have been approved as ICE Clear Credit CPs: Bank of America, N.A., Barclays Bank PLC, Barclays Capital Inc., BofA Securities, Inc., BNP Paribas, BNP Paribas Securities Corp., Citibank N.A., Citigroup Global Markets Inc., Credit Suisse International, Credit Suisse Securities (USA) LLC, Deutsche Bank AG, Goldman Sachs & Co. LLC, Goldman Sachs International, HSBC Bank USA, N.A., HSBC Bank plc, HSBC Securities (USA) Inc., J.P. Morgan Chase Bank, National Association, J.P. Morgan Securities LLC, Merrill Lynch International, Morgan Stanley Capital Services LLC, Morgan Stanley & Co. LLC, Nomura International PLC, Nomura Securities International, Inc., Société Générale, SG Americas Securities LLC, The Bank of Nova Scotia, UBS AG, London Branch, UBS Securities LLC, and Wells Fargo Securities LLC.

Credit Support Infrastructure – As of September 30, 2020, ICE Clear Credit’s margin on deposit is approximately \$46 billion and Guaranty Fund amount is approximately \$3.0 billion. On a daily basis, ICE Clear Credit processes millions of dollars in settlements.

***(C) Impact on Systemic Risk***

***“The effect on the mitigation of systemic risk, taking into account the size of the market for such contract and the resources of the derivatives clearing organization available to clear the contract.”***

The effect on mitigation of systemic risk from the clearing of the Submitted Swaps is believed to be material for the following reasons:

- ICE Clear Credit’s CPs are amongst the most active CDS market participants and continue to clear a significant portion of their clearing-eligible portfolio.
- The multi-lateral netting achieved through the clearing process has been significant historically and has substantially reduced the number and notional amount of outstanding bi-lateral positions.
- ICE Clear Credit has developed a robust risk management framework that has been extensively reviewed by regulators, industry participants and third-party experts.
- ICE Clear Credit’s price discovery process is working successfully to provide reliable inputs to its risk models.

***(D) Competition***

***“The effect on competition, including appropriate fees and charges applied to clearing.”***

ICE Clear Credit’s fee structure is appropriate and its margin and guaranty fund computations suitably account for the risk brought to the clearinghouse.

***(E) Insolvency Protection***

***“The existence of reasonable legal certainty in the event of the insolvency of the relevant derivatives clearing organization or one or more of its clearing members with regard to the treatment of customer and swap counterparty positions, funds, and property.”***

ICE Clear Credit believes that there is reasonable legal certainty in the event of the insolvency of ICE Clear Credit or a CP with regard to the treatment of house and customer positions, funds and property in connection with the clearing of the submitted swap.

ICE Clear Credit’s CPs consist of several types of institutions, principally futures commission merchants (“FCMs”) (including FCMs that are also broker-dealers), U.S. banks and non-U.S. banks. In the event of a CP insolvency, ICE Clear Credit is of the view, based on the advice of counsel in the relevant jurisdictions, that ICE Clear Credit would be permitted to exercise its rights to close out house positions and apply margin and other property of the defaulting CP in accordance with its rules. With respect to customer positions, which must be carried through an FCM CP, the submitted swap would constitute “commodity contracts” for purposes of the commodity broker liquidation provisions of the U.S. Bankruptcy Code. Under the Bankruptcy Code and the Commission’s Part 190 regulations, ICE Clear Credit would have the ability to close out customer positions following the insolvency of the CP and/or, in appropriate circumstances, facilitate a transfer of such positions to another, solvent CP. Customer property provided in respect of submitted contracts would be subject to the protections for customer property under the Part 190 regulations for the cleared swaps account class. Under the Commission’s Part 22 regulations for cleared swaps, ICE Clear Credit is required to segregate cleared swap customer property. As such, customer property would be subject to distribution to cleared swap customers of the insolvent FCM in accordance with those regulations.

With respect to an ICE Clear Credit insolvency, ICE Clear Credit would itself be a commodity broker subject to the Bankruptcy Code and Part 190 regulations. ICE Clear Credit believes, based on the advice of counsel, that under the applicable provisions of those laws and regulations, ICE Clear Credit rules providing for the termination of all outstanding contracts and the application and/or return of remaining member and customer property to CPs would similarly be enforceable.

**§39.5(b)(3)(iii) Product Specifications**

***“Product specifications, including copies of any standardized legal documentation, generally accepted contract terms, standard practices for managing any life cycle events associated with the swap, and the extent to which the swap is electronically confirmable.”***

The submitted swap is electronically confirmable. Lifecycle events are processed by ICE Clear Credit and DTCC subject to determinations committee and industry groups. Product specifications are included below.

  - (ii) at or after the close of business on the calendar day following the Auction Final Price Determination Date for a Credit Event with respect to such iTraxx Asia/Pacific Untranching Contract;

The amendments made by this rule 26J-316(d) shall apply as of the NTCE Effective Date regardless of whether any relevant transaction record in Deriv/SERV is updated to reflect such amendments.

For the avoidance of doubt, the effectiveness of any Notice of Physical Settlement and obligations relating thereto are subject to the suspension and finality provisions of Sections 6.5 and 9.1(c)(iii) of the 2003 Definitions.
