**Re: New Rules 6.32, 28.00-28.17, 28.50-28.59, Robusta Appendixes I -V, Robusta Resolution No. 1, Amendments to Rules 4.05- 4.07, 4.09, 4.11, 4.19, 4.24 and 4.28 and Board Resolutions Waiving Grading Fees and Setting Minimum Volume Threshold for Block Trades;
Listing of Robusta Coffee Futures and Options Contracts -
Submission Pursuant to Section 5c(c)(1) of the Act and Regulations 40.2 and 40.6**

Dear Mr. Stawick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended, and Commission Regulations 40.2 and 40.6, ICE Futures U.S., Inc. ("Exchange") submits, by written certification, new Rules 28.00-28.17, 28.50- 28.59, Appendixes I -V, Robusta Resolution No. 1, attached as Exhibit B, and amendments to Rules 4.05- 4.07, 4.09, 4.11, 4.19, 4.24 and 4.28, and new Rule 6.32, attached as Exhibit C. The new Rules, amendments and Resolutions provide for the listing and trading of Robusta Coffee futures and options contracts, which is similar to the Exchange's Coffee "C"[®] futures and options contract. Key contract terms and specifications are attached as Exhibit A.

The trading unit or one (1) lot of a Robusta futures contract is thirty-seven thousand five hundred (37,500) pounds of Robusta coffee, in sound condition. The price basis is in U.S. cents and decimal fractions of a cent per pound with a minimum price fluctuation of five one-hundredths of a cent per pound.

The delivery months for Robusta Coffee futures contracts are March, May, July, September and December. Trading in a new delivery month shall be initiated on the Business Day of the fifty-ninth (59th) month preceding any delivery month. The Exchange will not list

Robusta contracts extending beyond sixty (60) months, including the current month. Delivery will occur in the same manner as delivery for Coffee "C" futures contracts. Delivery ports are New York, New Orleans, Miami, Houston, Bremen, Hamburg, Antwerp, Barcelona and Trieste.

The delivery months for the options contracts are broken down into two cycles, the Regular Option Months and the Serial Option Months. Trading in a new Regular Option Month will be initiated on the first (1st) trading day following the first (1st) trading day for the underlying futures contract month. Trading in a new Serial Option Month will be initiated on the first (1st) calendar day of the third (3rd) month calendar month preceding the Serial Option Month. Strike price intervals are at \$0.025 intervals.

In accordance with Regulation 150.5(b), the Exchange has set the speculative position limit any one person may own or control on one side of the market in any one month or all months combined at one thousand (1,000) contracts and the spot month limit at three hundred (300) contracts. Commission guidelines direct that the Spot Month Limit must be set at a level that does not exceed 25% of estimated deliverable supply of the product as determined for each delivery month. As a measure of available deliverable supply, staff analyzed month-end deliverable stocks for the LIFFE Robusta futures contract. From the stocks data available on the LIFFE website, staff first excluded the stocks in store in LIFFE delivery points that are not allowed on the ICE Robusta contract, and then converted the remaining data which was expressed in terms of the LIFFE 5-metric ton contract into ICE-equivalent 37,500 pound contract terms. As measured over the past twelve calendar months in ICE equivalent contract terms, the maximum stocks equaled 5,494 contracts, the minimum stocks equaled 3,722 contracts and the average stocks equaled 4,257. Based on the data analyzed, the proposed Spot Month Limit level of 300 contracts is appropriated for the new contract.

To encourage the Robusta trade to utilize the contract as a hedging tool, the Board approved a Resolution waiving the grading fees until either the end of the year or when the number of bags submitted for grading reaches 200,000, whichever comes first.

The minimum volume threshold for executing Block Trades in either the Robusta futures or options contracts is one hundred (100) contracts. The minimum volume threshold was set in accordance with Commission guidelines for newly listed contracts.

The Exchange will commence trading Robusta Coffee futures contracts on September 28, 2007 and options contracts on October 1, 2007 with December 2007 as the first delivery month. Robusta futures contracts will be traded only on the Exchange's electronic trading platform from 1:00 a.m. until 3:15 p.m. and Robusta options will be traded by open outcry trading on the Exchange's trading floor from 8:30 a.m. until 12:30 p.m.

The Exchange certifies that the new rules, rule amendments and resolutions and the listing and trading of the Robusta futures and options contracts comply with the requirements of the Commodity Exchange Act and the rules and regulations promulgated thereunder.

The new rules, rule amendments and resolutions were approved by the Exchange's Board of Directors on September 11, 2007. No substantive opposing views were expressed by members or others with respect to the new rules and rules amendments.

The fees and costs of any resampling, regrading, or reinspection conducted hereunder may, in the event a discrepancy is discovered, be assessed by the Exchange against the Person who last submitted the coffee for certification or such other Person as the Exchange determines.

(k) If coffee covered by a Certificate of Grade is delivered on a contract other than an Exchange contract, the Deliverer must notify, in writing, the Vice President/Commodity Operations of the Exchange within five (5) Business Days of the delivery. (d) No Delivery Notice shall be issued on an Exchange Holiday or on a half-trading day; provided, however, that a Delivery Notice may be issued on the Last Notice Day if such day was declared an Exchange Holiday or half-trading day after 5:00 P.M. of the second (2nd) trading day prior to the Last Notice Day.

(b) On the Date of Delivery at 9:00 a.m., all information contained on the Delivery Worksheet for each Deliverer and Receiver shall be deemed complete, correct and final and may not be changed in any respect by a Deliverer or Receiver. At 9:00 a.m., on the basis of the information contained in such final Delivery Worksheet, the Exchange, through eCOPS, shall issue a Notice of Transfer causing the Clearing Organization to be identified in eCOPS as the Title Holder of the EWRs corresponding to the Coffee identified in each such final Delivery Worksheet. The Clearing Organization shall thereafter debit the account designated by the Receiver for delivery purposes and credit the account designated by the Deliverer for such purposes for the full amount of the Exchange Invoice, and issue a Notice of Transfer causing the Receiver to be identified in eCOPS as the Title Holder of the corresponding EWRs.

(c) The Weight Note shall not be valid if the Coffee to be delivered has been moved at any time from the location specified in such Weight Note.

(d) The Exchange Invoice shall reflect any deficiency or excess from the par weight of a Robusta Coffee Futures Contract at the price per pound shown in the Delivery Notice. Such deficiency or excess shall not be greater than two percent (2%) of the par weight.

(1) In the case of a deficiency equal to or less than two percent (2%) of the par weight, the Deliverer may deliver Coffee to the extent of such deficiency.

(2) In the case of a deficiency in excess of two percent (2%) of the par weight, delivery shall not be permitted except by mutual consent of the Deliverer and Receiver.

(e) From time to time the Board may prescribe adjustments in the price stated in a Delivery Notice on the basis of (i) the time elapsed between the date of the Certificate of Grade or the first (1st) date on which the Coffee was weighed and the Date of Delivery; (ii) the weight of samples drawn after the date of the Weight Note; and (iii) other factors as the Board may determine from time to time.

(f) The Exchange Invoice shall be calculated so that the Receiver is charged for any remaining prepaid storage.

(g) If the final Delivery Worksheet does not contain one (1) or more Weight Notes with respect to a given Lot on the Date of Delivery:

(1) the Exchange Invoice shall be designated a pro forma Exchange Invoice and the Receiver's account shall be debited and the Deliverer's account credited by the Clearing Organization the amount specified in the pro forma Exchange Invoice; and

(2) the Deliverer must have the Weight Note(s) issued to the Receiver no later than the fifth (5th) Business Day following the last permissible delivery day of the delivery month, at which time the Receiver and Deliverer shall settle directly between them any amounts due and owing based upon the weight specified in such Weight Note(s); and

(1) The Robusta Coffee to be substituted must be stored in the same port as the coffee originally specified in the Delivery Notice.

(b) In the event of a substitution pursuant to subparagraph (a) hereof, settlement shall be made on the basis of the substituted coffee.

(c) Notwithstanding paragraphs (a) and (b) of this Rule, if a Deliverer is notified by a licensed Weigher that a Lot to be delivered is too light and, therefore, does not meet the weight requirements for delivery and at the time of such notification, the time for Substitution, as specified in paragraph (a)(4) above, has passed and the Date of Delivery has not occurred, the Deliverer may add bags to the Lot as long as the added bags are from the same original Exchange identification.

(c) Liability for the repair of bags which are torn or bursting and in need of repair shall be borne as specified in this paragraph (c). In addition, any claim by a Member that coffee tendered for delivery under an Exchange contract is being delivered in a bag(s) which is torn or bursting and are in need of repair shall be settled in accordance with the provisions of this paragraph (c).

(1) If the warehouse has given written notice to the Deliverer, within seven (7) Business Days from (i) the date of issuance of the Delivery Notice or (ii) the date that the Deliverer substitutes Lots on the applicable Delivery Worksheet, that the bag(s) is torn or bursting and needs to be repaired, then the Deliverer of the coffee shall be liable for the repair of the torn bag(s);

(2) If the holder of a Delivery Notice visually inspects the coffee (i) during the seven (7) Business Days between the issuance of such Notice and the Date of Delivery or (ii) within seven (7) Business Days from the date that the Deliverer substitutes Lots on the applicable Delivery Worksheet, and furnishes written notice to the Deliverer and the Exchange during said seven (7) day period that the coffee is packaged in a bag(s) that is torn or bursting and in need of repair, then the procedures in subparagraph (3) below shall apply, provided however, that the failure to so notify the Exchange or the Deliverer within the specified time shall be deemed a waiver of the Receiver's rights to assert a claim that coffee tendered for delivery under an Exchange contract is packaged in a bag(s) that is torn or bursting and in need of repair. Any notice issued shall identify the location of the coffee involved, together with the basis for the Receiver's claim that the coffee is packaged in a bag(s) that is torn or bursting and in need of repair.

(3) Upon receipt of a notice as specified in subparagraph (2) above, the Exchange will cause the coffee identified in such notice to be surveyed by an Exchange licensed warehouse inspector selected randomly by the Exchange from the panel of licensed inspectors. The inspector will visually survey the coffee so identified and determine whether the bag(s) is torn or bursting and in need of repair. The determination of the inspector shall be furnished in writing to the Receiver and Deliverer by the Exchange. The determination of the inspector shall be final and binding, and there shall be no appeals therefrom. In addition, the Exchange shall invoice the party responsible, as determined below, for an administrative fee of three hundred seventy-five dollars (\$375) and the inspector's fee (such fees hereinafter referred to as "administrative fees"). The invoiced party shall pay the Exchange the administrative fees promptly upon receipt of the invoice.

(A) If the inspector determines that the bag(s) of coffee is not in need of repair, the Receiver shall be responsible for the administrative fees.

(B) If the inspector determines that the bag(s) of coffee is in need of repair, the Deliverer shall either have the bag(s) repaired within five (5) Business Days after receipt of written notification of the decision of the inspector or, if the time within which substitution is permitted under Rule 28.13(a)(4) has not elapsed, substitute other coffee. In such case, the Deliverer shall be responsible for the administrative fees. If the Deliverer substitutes other coffee, the Receiver shall have another seven (7) Business Days from the date the Deliverer notifies the Receiver of the location of such coffee to inspect such coffee and commence the procedures described in subparagraphs (2) and (3) above.

(4) The filing of a notice in accordance with subparagraph (2) of this Rule shall not affect the obligation of a Receiver to pay for coffee delivered against a Robusta Coffee Futures Contract, provided that a Notice of Transfer has been issued by the Exchange through eCOPS with respect to such coffee.

Rule 28.15. Force Majeure

(a) In the event the Board determines that the delivery or receipt of coffee to be delivered under a Robusta Coffee Futures Contract is hindered by a strike, lockout, or other cause beyond the control of the Deliverer or Receiver ("force majeure"), such delivery or receipt shall take place by such date as the Board shall determine, which date shall be the Date of Delivery for all purposes under the Rules, and no Delivery Notices for delivery in the affected port shall be issued until such date as the Board shall determine.

(b) In the event that the sampling, grading, weighing or certification of coffee to be delivered under a Robusta Coffee Futures Contract, or any other act necessary for the preparation of coffee for delivery, is prevented by a strike, lockout, or other cause beyond the control of the Deliverer, delivery of such coffee may nevertheless take place, with the prior approval of the Coffee Committee and upon such conditions as the Coffee Committee may establish; provided, however, that such coffee is in a Licensed Store at the

time of such delivery and could have been delivered if such strike, lockout or other cause had not occurred.

(c) If, as a result of a delay specified in paragraph (a) of this Rule, Coffee is delivered without a Weight Note, the payment shall be made in accordance with Rule 28.12(g).

(d) Except to the extent this Rule is inconsistent with other Rules, nothing herein shall limit the rights of a Deliverer or Receiver to hold his counterparty in default for failure to comply with the terms and conditions of the Robusta Coffee Futures Contract.

Rule 28.16. Damages on Default

Except as otherwise provided in the Rules, the Settlement Price of the spot Robusta Coffee Futures Contract on the Date of Delivery shall be the basis for settlement in the event of a default in delivering or receiving Robusta Coffee.

Rule 28.17. Expedited Arbitration Procedure

(a) Any dispute, except as to grade or cup, arising between Members claiming that a Member has failed to meet his obligations as Deliverer or Receiver under a Robusta Coffee Futures Contract shall be settled by arbitration in accordance with the provisions of this Rule; provided, however, that if the Claimant does not notify the Exchange of such failure within fifteen (15) Business Days of the Last Notice Day of the delivery month for the Futures Contract in which the failure occurred, said Member shall be deemed to have waived his rights under this Rule, without prejudice to any other rights or remedies at law or under any other provisions of the Rules. The filing of a notice hereunder shall not affect the obligations of a Receiver under the Rules to pay for Coffee delivered against a Robusta Coffee Futures Contract in accordance with the requirements of Rule 28.12.

(b) Any dispute arising between the warehouse and either a Member delivering Coffee or a Member receiving Coffee concerning the liability for the repair of a torn bag(s) may be settled by arbitration in accordance with the provisions of this Rule; provided, however, that if the Claimant does not give written notice to the Exchange of the dispute within fifteen (15) Business Days of the Last Notice Day of the Futures Contract in which the delivery of the Coffee in the torn bag(s) was to occur or has occurred, said warehouse or Member shall be deemed to have waived his rights under this Rule, without prejudice to any other rights or remedies at law or under any other provisions of the Rules. The filing of a notice hereunder shall not affect the obligations of a Receiver under the Rules to pay for Coffee delivered against a Robusta Coffee Futures Contract in accordance with the requirements of Rule 28.12.

(c) Each notice filed pursuant to paragraphs (a) and (b) of this Rule shall be accompanied by a non-refundable check payable to the Exchange in the amount of three hundred seventy-five dollars (\$375) for each Lot that is the subject of the arbitration.

(d) Upon receipt by the Exchange of a notice hereunder, the Exchange shall forward one (1) copy of said notice to all interested parties.

(e) With respect to arbitrations brought pursuant to paragraph (a), a Special Arbitration Committee of three (3) disinterested members of the Coffee Committee shall be appointed by the Chairman within one (1) Business Day of the Exchange's receipt of a notice that a Member has failed to meet his obligations; provided, however, if members of the Coffee Committee have an interest in a dispute which precludes the appointment of a Special Arbitration Committee comprised entirely of members of the Coffee Committee, the Chairman may appoint to the Committee, in his sole discretion, other persons who are associated with the coffee industry but in no event shall a Special Arbitration Committee fail to include at least one (1) member of the Coffee Committee. The Special Arbitration Committee shall establish the date, time, and place for a hearing. Each Special Arbitration Committee shall determine the procedures to be followed in any hearing before it, except that the following shall apply in every case:

- (1) each of the parties shall be entitled to appear personally at the hearing(s);

(2) each of the parties, at his own expense, shall have the right to be represented by counsel in any aspect of the proceedings;

(3) each of the parties, at his own expense, shall be entitled to (i) prepare and present all relevant facts in support of the Claims and grievances, defenses or counterclaims which arise out of the Transaction or occurrence that is the subject matter of the Claim or grievance and does not require for its arbitration the presence of third (3rd) parties of whom the Exchange cannot acquire jurisdiction and to present rebuttal evidence to such Claims or grievances, defenses or counterclaims made by the other parties, (ii) examine the other parties, (iii) examine any witnesses appearing at the hearing(s), and (iv) examine all relevant documents presented in connection with the Claim or grievance, or any defense or counterclaim applicable thereto;

(4) the formal rules of evidence shall not apply;

(5) no verbatim record shall be made of the proceedings unless requested by a party, in which event the requesting party shall bear the cost of such record and a stenographic transcript shall be taken, but not transcribed, unless a transcript is requested by a party, who shall bear the cost of such transcription;

(6) Ex parte contacts by any of the parties with any member of the Special Arbitration Committee shall not be permitted;

(7) The Special Arbitration Committee shall have the power, on the request of any party or on its own motion, to require any Person to testify and/or produce documentary evidence in the proceedings as and to the extent provided for in Rule 21.04;

(8) Any party to the dispute may apply to the Special Arbitration Committee for permission to join as a party any other Member (i) who is or may be liable to such party for all or part of the Claim being asserted against him or (ii) who claims an interest in the subject of the dispute. The Special Arbitration Committee shall have complete and absolute discretion to grant or to deny any such application, in whole or in part; and

(9) The rights and duties set forth in this Rule with respect to parties shall apply to any Member joined as a party pursuant to subparagraph (e)(8) hereof.

(f) The party adjudged in default shall pay to the aggrieved party as liquidated damages five percent (5%) of the Settlement Price of the spot Robusta Coffee Futures Contract on the Date of Delivery or the Delivery Notice price, whichever shall be higher, but, in no case shall liquidated damages be less than one-half of one cent per pound.

(g) In the case where a Deliverer is determined to be in default by the Special Arbitration Committee for failure to meet his obligations as a Deliverer, the Deliverer shall be required to pay to the Receiver a price per pound equal to the Settlement Price of the spot Robusta Coffee Futures Contract on the Date of Delivery less the sum of (i) the price stated in the Delivery Notice and (ii) any amount the Receiver has received from the Clearing Organization after the date of the Delivery Notice. If such Settlement Price is less than the price stated in the Delivery Notice, neither Deliverer nor Receiver shall be obliged to compensate the other party, except to the extent required by paragraph (f) of this Rule.

(h) In the case where a Receiver is determined to be in default by the Special Arbitration Committee for failing to meet his obligations as a Receiver, the Receiver named in the Delivery Notice shall be required to pay to the Deliverer a price per pound equal to the price stated on the Delivery Notice less the sum of (i) the Settlement Price of the spot Robusta Coffee Futures Contract on the Date of Delivery, and (ii) any amount the Deliverer has received from the Clearing Organization after the date of the Delivery Notice. If such Settlement Price is more than the price stated in the Delivery Notice, neither Deliverer nor Receiver shall be obliged to compensate the other party except to the extent required by paragraph (f) of this Rule.

(i) The Special Arbitration Committee shall render its award in writing adjudging which, if any, party is in default, awarding the amount of money, if any, to be paid by the party in default, and granting any further remedy or relief which it deems just and equitable. The award of the Special Arbitration Committee shall be final and binding upon each of the parties to the arbitration, and judgment upon such award may be entered by any court having jurisdiction. In addition, any award, if not complied with within the time specified in the award, shall be enforceable by disciplinary proceedings commenced pursuant to the Rules.

(j) The payment as prescribed above shall be made by the close of business on the second (2nd) Business Day after notification in writing of the Special Arbitration Committee's award without any setoff or deduction whatsoever. Payment and settlement of any default as determined above shall be effected through the President. Such payment shall be accepted as final payment, and the net amount of any variation Margins which have been paid pursuant to the Clearing Organization Rules by either party from the date of issuance of the Delivery Notice to the date of payment of the settlement of the default shall be collected from such party by the Clearing Organization and paid to the other party.

(k) With respect to arbitrations brought pursuant to paragraph (b), a Special Arbitration Committee of three (3) disinterested members of the Cocoa, Coffee and Pulp Warehouse and License Committee shall be appointed by the Chairman within one (1) Business Day of the Exchange's receipt of the written notice of the dispute; provided, however, if members of the Cocoa, Coffee and Pulp Warehouse and License Committee have an interest in the dispute which precludes the appointment of a Special Arbitration Committee comprised entirely of members of the Cocoa, Coffee and Pulp Warehouse and License Committee, the Chairman may appoint to the Committee, in his sole discretion, other persons who are associated with the warehousing and storage of coffee but in no event shall a Special Arbitration Committee fail to include at least one (1) member of the Cocoa, Coffee and Pulp Warehouse and License Committee. The Special Arbitration Committee shall establish the date, time, and place for a hearing. Each Special Arbitration Committee shall determine the procedures to be followed in any hearing before it, except that the procedures listed in subparagraphs (e)(1) through (9) shall apply in every case.

(l) The Special Arbitration Committee appointed pursuant to paragraph (k) of this Rule shall render its award in writing granting any remedy or relief which it deems just and equitable. The award of the Special Arbitration Committee shall be final and binding upon each of the parties to the arbitration, and judgment upon such award may be entered by any court having jurisdiction. ROBUSTA COFFEE APPENDIXES

APPENDIX I

Procedures for Sampling Robusta Coffee

The following procedures must be followed by Members and Licensees in connection with the sampling of Robusta Coffee:

(a) Samples.

(1) In order to be deliverable under a Robusta Coffee Futures Contract, each Chop must be sampled in accordance with these procedures by a Master Sampler licensed by the Exchange. As used herein, the term "Sampler" means an individual employee or agent of a Master Sampler, or Comparison Sampler who samples coffee and the term "Master Sampler" means the Firm on whose behalf the Sampler is sampling the coffee.

(2) The failure of a Master Sampler to comply with these sampling procedures will subject such Master Sampler to fines and penalties as provided in the Licensing Rules of the Exchange.

(3) The President is authorized to suspend or cancel a Certificate of Grade if the Exchange has reason to believe that the coffee covered thereby does not run uniform as to grade or that such Certificate of Grade was obtained on the basis of samples which were not drawn, submitted or graded in accordance with the Rules.

(b) Authorization of Samplers.

By submitting a Sampling Order, in such forms as the Exchange prescribes, the submitter authorizes the Exchange to select a Master Sampler to draw on such Person's behalf a fair and representative sample of each Chop of the coffee referred to in such application in accordance with the terms and conditions of these sampling procedures.

(c) Selection of Master Samplers.

The Exchange shall select Master Samplers on a rotation basis from a list of duly licensed Master Samplers, provided, however, except in the case of a Master Sampler who has been granted a warehouse license in the Ports of New Orleans, Miami, Bremen, Hamburg, Antwerp, Barcelona, or Trieste, any Master Sampler holding a warehouse license will be excluded from the selection process. A Master Sampler shall be responsible for drawing a fair and representative sample and submitting such sample to the Exchange.

(d) Sampling Order.

Every Sampling Order created on eCOPS shall be deemed a request to sample the coffee covered by such Sampling Order. Incomplete Sampling Orders will not be processed by eCOPS. eCOPS will notify the Master Samplers selected in accordance with paragraph (c) above at the time the Sampling Order is created.

(e) Review of Marks.

(1) Before drawing a sample, a Sampler shall compare the identifying marks which appear on the physical bags of coffee with the identifying marks which appear on the Sampling Order.

(2) The Sampler shall not draw a sample:

(i) if (A) the identifying marks which appear on the physical bags of coffee differ from those which appear on the Sampling Order, and (B) the Sampler has reason to suspect that the coffee he is about to sample is not from the same Chop as the coffee covered by the Sampling Order;

(ii) if (A) the identifying marks are inaccessible or illegible and (B) the information on the warehouse tags differs from the identifying marks on the Sampling Order, and (C) the Sampler has reason to suspect that the coffee he is about to sample is not from the same Chop as the coffee covered by the sampling order; or

(iii) if (A) the identifying marks contained on the physical bags of coffee are inaccessible or illegible, and (B) there are no warehouse tags affixed to the Chop to be sampled.

(f) Procedure.

(1) Each Master Sampler selected to sample coffee shall be responsible for printing three (3) copies of the appropriate Sampling Orders from eCOPS.

(2) In drawing a sample, a Sampler shall act in accordance with commercial practice, except as modified by these sampling procedures.

(3) If coffee to be sampled is not located in a Licensed Store, the Sampler shall make reasonable efforts to conform to these procedures.

(4) Each sample shall be drawn by means of a standard coffee trier and shall consist of coffee from (i) at least ten percent (10%) of the total number of bags listed in the Sampling Order, and (ii) at least two (2) sides of every pile, at least one (1) of which must be on the long side of the tier or aisle. Once the sample has been drawn, the Master Sampler shall scrape the bag surface area of the tier hole to re-close the bag weaving to minimize spillage.

(5) All samples must be placed directly in sampling bags. When an appropriate sized sample has been drawn, the Sampler shall immediately tie, seal, and tag the bag.

(6) All samples must be delivered to the Exchange within two (2) Business Days following receipt of the Sampling Order in the case of coffee stored in New York, or three (3) Business Days in the case of coffee stored in any other port specified in Rule 28.14(a), or within such longer period as allowed by the Exchange for good cause shown.

(7) Samples shall be no less than 5 lb.

(8) In the case of coffee which has been moved to a Licensed Store from an unlicensed store or dock, where it was sampled and graded, the Exchange shall select a second Sampler (to be known as a "Comparison Sampler") who shall draw a sample for comparison by the original panel of graders with the sample which was originally drawn and graded.

(9) If, in the course of drawing a sample, a Sampler has reason to believe that the coffee sampled does not run uniform as to grade, he shall draw a separate one (1) lb. sample of each of the grades found and deliver any such samples to the Exchange.

(10) Once a sample has been drawn, and the sample bag has been tagged and sealed, such sample bag shall not be delivered to any Person other than an employee designated by the Exchange to receive such samples at the premises of the Exchange. In the event that the Person delivering samples to the Exchange is not licensed by the Exchange, such Person shall be deemed to be an agent of the Master Sampler; provided, however, that in the case of coffee stored in any port other than New York all samples must be delivered by an employee of the Master Sampler directly to a courier service selected by the Exchange.

(11) Upon the delivery of a sample to the Exchange, the Person delivering such sample shall be required to furnish written proof of delivery or to sign a log maintained by the Exchange, indicating his name and the name of the Master Sampler on whose behalf he is acting.

(12) Any Person who has submitted a Sampling Order may examine any sample drawn in connection with such Sampling Order during Exchange business hours; provided, however, that he has not examined the same sample before and that such examination does not take place at a time when the sample is being or is about to be graded. If upon any such examination such Person approves of the sample, he shall indicate his approval upon the Sampling Order. If such Person does not approve the sample, he may withdraw the sample. The failure to examine a sample drawn in connection with a Sampling Order submitted by such Person prior to grading shall constitute a waiver of such Person's right to object to such sample on the ground that it is not representative of the Lot from which it was drawn.

(g) Reporting.

Immediately following the drawing of a sample from a Chop, the Sampler shall note the following information upon the three (3) copies of the Sampling Order printed from eCOPS to the extent applicable:

(1) Any differences between the identifying marks which appear on the physical bags of coffee and those on the Sampling Order, together with an explanation of the nature of each such difference;

(2) The inaccessibility or illegibility of the identifying marks on the physical bags of coffee;

(3) The absence of a warehouse tag affixed to any side of the tier or aisle of the Chop to be sampled where the marks on the physical bags of coffee are inaccessible or illegible;

(4) The fact that the coffee sampled is not stored so that two (2) sides (including at least one (1) long side) of the tier or aisle are accessible to the sampler as required by the Exchange's warehouse procedures.

In any such instance, the Sampler should describe the condition of the coffee as accurately as possible on the Sampling Order.

(h) Signing of Sampling Orders; Issuance of eCOPS Sampling Confirmations; Delivery of Samples

(1) The Sampler and an authorized representative of the warehouse or pier, where the sampled coffee is located, shall each sign all three (3) copies of the Sampling Order, and the warehouse representative shall indicate on each such copy the date and time of his receipt of such Sampling Order from the Sampler.

(2) The Sampler shall certify that the coffee sampled is uniform or state any reason to believe that the coffee sampled may not be uniform.

(3) The signature of a Sampler shall be deemed to be a certification by the Sampler that each sample drawn pursuant to the Sampling Order was drawn in accordance with these procedures.

(4) The signature of a warehouse representative shall be deemed to be a certification that on the date he signed the Sampling Order, the Sampler appeared at the Licensed Store indicated on the Sampling Order and left the premises with samples in his possession.

The warehouse shall also record all exceptions—*i.e.*, the number of stained, torn, mended, slack, short or improperly marked bags. A record of any exception noted by the warehouse shall be made, and the warehouse shall send a report describing such exception immediately to the storer of the coffee. If no exception is noted, a report to that effect shall be sent to the storer as soon as practicable. If improperly marked bags arrive at the warehouse, the storer shall be notified of such fact immediately by telephone before the delivering carrier leaves the warehouse.

3. The warehouse shall compare the identifying information for the coffee set forth on the delivery order or equivalent record with the information on the coffee bags. If there is a material difference between the information supplied on the delivery order (or equivalent record) and the information on the bags, the warehouse shall note such difference on the warehouse's receiving form (or equivalent record) and shall notify the storer of the coffee immediately of the discrepancy. No EWR shall be issued by the warehouse with respect to such coffee until the discrepancy with respect to the identification of the coffee has been resolved.

4. The warehouse shall record the identifying information for the coffee, as set forth on the coffee bags, on warehouse tags or marks stenciled on the bag, which shall be affixed at all times to at least two (2) sides of each pile of coffee bags. The tag or mark shall be placed on both sides of the coffee bags.

5. The warehouse shall maintain stock record cards (or equivalent records) for each Chop of Exchange Coffee on which shall be recorded all pertinent details necessary to fulfillment of an efficient warehouseman's responsibilities, including all movements of the coffee, changes in its ownership and when the coffee has been weighed.

6. The warehouse shall complete the EWR which shall identify the number of bags comprising the Chop, all markings contained on the bags (in their entirety), the specific location where the coffee is stored and the name of the carrier (*i.e.*, vessel, railroad, or truck transport) on which the coffee arrived. The warehouse shall also immediately modify the EWR, as necessary, by changing the number of bags listed on the EWR when one (1) or more of the bags are physically delivered out of the warehouse. Information pertaining to the EWR shall be:

- (a) Distributed to the storer of the coffee; and
- (b) Retained in the warehouse's records.

7. When coffee is sampled for the purpose of grading by Exchange licensed graders, a copy of the Sampling Order shall be left with the warehouseman and shall be maintained by the warehouse as part of the permanent files for the coffees covered by the Sampling Order.

- a. When a sample is drawn, the warehouse shall sign three (3) copies of the Sampling Order in the space provided.

b. By signing the Sampling Order, the warehouse shall be deemed to certify that on the date the Sampling Order was signed the Sampler appeared at the Licensed Store indicated on the Sampling Order and left the premises with samples in his possession.

c. The warehouse shall retain a copy of the Sampling Order which shall be retained in accordance with this Resolution.

8. When a chop has satisfied the requirements of the Exchange, a Certificate of Grade will be issued by the Exchange to the warehouse and the submitter of the coffee. Such Notice shall contain the growth, Exchange identification number, and all other information set forth on the EWR pertaining to such coffee. All information on the Certificate of Grade should be verified against the information on the EWR, and the Exchange shall be notified immediately of any material discrepancy.

9. Once an Exchange Lot number has been assigned to coffee, both the Exchange ID number and the EWR number shall become part of the permanent record of that coffee and shall be noted on the warehouse storage report and warehouse tags, etc.

10. The Exchange identification number appearing on the Certificate of Grade shall be recorded on the warehouse's storage record card (or equivalent record), and all the information appearing on such Certificate of Grade shall be verified.

- c. The approximate number of bags in each chop, together with identifying marks and chops; (The exact number of bags will be given to the warehouse by the Weigher);
- d. Carrier (*i.e.*, vessel, railroad or truck transport); location (pier, store, etc.); and arrival date of vessel (where appropriate);
- e. Cargo number; and
- f. Weighing instructions and name of the Weighmaster.

12. The warehouse should receive from the Weighmaster a complete report of the weight of bags that are torn, mended and slack; the weight of the sound bags; the Exchange Lot number for the bags; the location of the bags; any exceptions, including improperly marked bags; and whether any bags were lost in leveling off.

13. The warehouse shall separate Exchange certificated coffee from coffee which has not been certificated so that at any time the total number of bags of Exchange certificated Coffee can be determined.

14. It is a violation of the Rules for a warehouse to provide any Weighmaster or Weigher with any information pertaining to any previous weighing of coffee without the prior permission of the Exchange.

15. The warehouse shall promptly issue EWRs for any coffee stored by it upon the demand of the owner of the coffee. Any such EWR shall provide for a limit of liability of at least two hundred fifty (250) times the monthly storage rate of the goods.
