OFC. OF THE SECRETARIAT

November 7, 2007

Mr. David Stawick
Secretary
Commodity Futures Trading Commission
Three Lafayette Center
1155 21st Street, N.W.
Washington, D.C. 20581

Reference File #2843.03
Rule Certification

Dear Mr. Stawick:

Pursuant to Commission Regulation 40.6(a), the Chicago Board of Trade (CBOT[®]) hereby submits the following new rulebook provisions (copies attached):

- **New Rules 588.H, 588.I, 588.J and 588.K**

This filing supplements a CBOT submission, dated October 25, 2007 (CBOT Reference File #2843.01), of an entirely revised CBOT Rulebook. The attached provisions were omitted inadvertently, in whole or in part, from CBOT's previous submission.

The CBOT intends to implement the attached provisions upon the migration of CBOT's electronic markets from the e-cbot[®] platform to CME Group Globex[®] (scheduled for January 2008).

There were no opposing views with respect to these provisions.

The CBOT certifies that these provisions comply with the Commodity Exchange Act and the rules thereunder.

Sincerely,

Paul J. Draths
Vice President and Secretary

588.H. Voluntary Adjustment of Trade Price

When a trade outside of the No Bust Range is busted in accordance with this rule, the parties to the trade may agree voluntarily to reestablish the trade but to adjust its price and make a cash adjustment provided that all of the following conditions are met:

1. The GCC approves the adjustment.
2. The quantity of the position being reestablished is the same as the quantity of the trade that was busted.
3. In the case of a trade below the actual or implied market price, the adjusted price must be the lowest price that traded at or about the time of the trade without being busted. In the case of a trade above the actual or implied market price, the adjusted price must be the highest price that traded at or about the time of the trade without being busted.
4. The parties to the adjusted trade must report it to the clearing system using a "type 8 transfer" with a "G" transfer code not later than the close of business on the business day after the trade occurred.

588.I. Busting Trades After System Freeze

In the event that the matching engine freezes with live orders in the queue waiting to be matched, such orders may be matched when the system is unfrozen before the GCC can halt the matching engine. The GCC is authorized to bust trades resulting from such matches if the price of such trades is outside of the No Bust Range at the time that a confirmation of the trades was sent.

588.J. Schedule of Administrative Fees

When GCC busts a trade, the party responsible for entering the order into Globex that gave rise to the trade bust shall pay an administrative fee to the Exchange in accordance with the following schedule. The fee is \$250 for each of the first five occasions in a calendar year where a party's order entry results in a trade bust, \$500 for each of the next three occasions within the same calendar year where a party's order entry results in a trade bust, and \$1,000 for each subsequent occasion within the same calendar year where a party's order entry results in a trade bust.

If a non-member customer responsible for entering an order into Globex that results in a trade bust fails to pay the fee in accordance with this section, the clearing member carrying the customer's account shall be responsible for payment of the fee.
