Re: Green Exchange LLC
Reference File: GX-2011-06

Ladies and Gentlemen:

Pursuant to Section 40.6 of the regulations (the "CFTC Rules") promulgated by the Commodity Futures Trading Commission (the "Commission") under the Commodity Exchange Act, as amended (the "Act"), Green Exchange LLC ("GreenX"), a designated contract market under the Act, hereby submits this self-certification for the following:

1. GreenX is issuing GreenX Advisory Notice #4, relating to the delisting of the In Delivery Month European Union Allowance (EUA) Futures Contract (Globex code EAF, ClearPort code 6T) for delivery in March 2011. No other European Union Allowance Futures Contracts are being delisted. GreenX is taking this action in response to the security breaches at certain EU member state Emission Trading Scheme registries that occurred in January. There presently is no open interest in the March 2011 IDM EUA Futures Contract.

GreenX Advisory Notice #4 is attached as Exhibit A. GreenX hereby certifies that GreenX Advisory Notice #4 complies with the Act and the CFTC Rules. The effective date of GreenX Advisory Notice #4 is March 11, 2011. There were no opposing views among GreenX's Board of Directors, Participants or market participants regarding GreenX Advisory Notice #4.

If you have any further questions or comments about GreenX's actions, please contact me at 212-299-2510.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kari S. Larsen', followed by a horizontal line extending to the right.

EXHIBIT A

ADVISORY NOTICE

To: Clearing Members
From: Green Exchange ("GreenX")
GreenX Advisory #: 04
Notice Date: March 11, 2011
Effective Date: March 11, 2011

Delisting of In Delivery Month European Union Allowance (EUA) Futures Contract (codes EAF and 6T) for delivery in March 2011

On January 19, 2011, the European Commission suspended transfers at all European Emissions Trading Scheme Registries. The suspension was due to recent security breaches at certain EU member state emissions registries. The UK Greenhouse Gas Emissions Trading Scheme Registry, which is the standard delivery facility for the Daily European Union Allowance (EUA) Futures (code EUL) contract, was subject to the suspension.

In light of these developments, GreenX issued to Clearing Members three Advisory Notices (#1, #2 and #3), on January 20, 2011, January 26, 2011 and February 4, 2011, respectively, stating that GreenX would halt the listing of new contract days for the Daily European Union Allowance (EUA) Futures contract (code EUL) until information regarding the full scope of the potentially affected allowances was available. These Advisory Notices can be found at: <http://www.thegreenx.com/market-regulation/clearing-advisories.html>.

A number of the European registries resumed operations in February and March, including the UK Greenhouse Gas Emissions Trading Scheme Registry. However, many of European registries are continuing the suspension of operations and a complete list of serial numbers of the EUAs that are alleged to have been unlawfully transferred is currently not available. As a result, GreenX has decided to delist the In Delivery Month European Union Allowance (EUA) Futures Contract (Globex code EAF, ClearPort code 6T) for delivery in March 2011. No other European Union Allowance Futures Contracts are being delisted. There is presently no open interest in the March 2011 IDM EUA Futures Contract.

These actions do not affect trading in any other futures or options products listed on GreenX.
